(b) Temporary employees shall be credited with leave of 2½ days for each month of service. After the first month of service such leave may be credited at the beginning of the month in which it accrues.

(c) Indefinite employees shall be credited with leave of two days for each month of service plus an additional ½ day when the service aggregates three months.

SECTION 2.2 Accumulated annual leave may be carried forward for use in succeeding years until it totals not exceeding 60 days: *Provided*, that during the period of the present emergency 30 days additional leave may be accumulated: *Provided further*, that when accumulated leave equals or exceeds 60 days, further increase in accumulated leave shall be limited to 15 days in any succeeding year.

## GRANT OF ANNUAL LEAVE

SECTION 2.3 Annual leave shall be granted to an employee on his request at such times as the heads of the departments and agencies may prescribe. Employees during their first year of service shall not be granted leave in excess of the amount accrued to their credit. The minimum charge for annual leave shall be one hour, and additional leave shall be charged in multiples of one hour.

SECTION 2.4 An employee who is to be separated from the service shall be entitled to the unused annual leave standing to his credit, and the date of his separation shall be so fixed as to permit him to take such leave, and in no case, whether the separation be voluntary or involuntary, shall the separation become effective on a date prior to the date of termination of such leave: *Provided*, that an employee who elects to forfeit the leave standing to his credit may do so by filing a written notice to such effect.

SECTION 2.5 When an employee is absent from duty and in attendance in court as a witness in behalf of the United States or the Government of the District of Columbia, or for jury duty in any State court or court of the United States, the absence from duty shall not be charged against annual leave but should be recorded as "court leave".

## PART III—SICK LEAVE

## ACCRUAL OF SICK LEAVE

## SECTION 3.1

(a) Permanent employees shall be credited with sick leave at the rate of 1¼ days per month. The minimum credit for sick leave shall be one hour, and additional credits shall be in multiples thereof.

(b) Temporary and indefinite employees shall be credited with 1¼ days of sick leave for each month of service.

(c) Sick leave accruing during any month of service shall be available at any time during that or any subsequent month.

SECTION 3.2 Unused sick leave shall be cumulative and available for future use: *Provided*, that the balance to the credit of the employee at the end of any month shall not exceed ninety days,

## GRANT OF SICK LEAVE

SECTION 3.3 Sick leave shall be granted to employees when they are incapacitated for the performance of their duties by sickness, injury, or pregnancy and confinement, or for medical, dental or optical examination or treatment, or when a member of the immediate family of the employee is afflicted with a contagious disease and requires the care and attendance of the employee, or when, through exposure to contagious disease, the presence of the employee at his post of duty would jeopardize the health of others. The minimum charge for sick leave shall be one hour, and additional leave shall be charged in multiples of one hour.

SECTION 3.4 An employee who is absent on account of sickness shall notify his supervisor as early as practicable on the first day of such absence, or as soon thereafter as possible. Failure to give such notice may result in the absence being charged to annual leave or leave without pay, as the circumstances may justify. Requests for sick leave for medical, dental, or optical examination or treatment shall be submitted for approval prior to the beginning of the leave.

SECTION 3.5 Written application on the prescribed form for grant of sick leave shall be filed within two days after the employee returns to duty. For periods of absence in excess of 3 work days the application must be supported by a medical certificate. Such certificate shall be filed within 15 days after return to duty: *Provided*, that when a medical certificate cannot reasonably be obtained, a certificate of the employee relating the facts incident to the illness may be accepted. All applications for sick leave for medical, dental, or optical examination or treatment shall be supported by a medical certificate.

SECTION 3.6 When sickness occurs within a period of annual leave and lasts in excess of 5 work days, the period of illness may be charged as sick leave and the charge against annual leave reduced accordingly. Application for such substitution of sick leave for annual leave shall be made within two days after return to duty and shall be supported by a medical certificate.

SECTION 3.7 Sick leave may not be granted for a period immediately following a period of absence in a non-pay status, unless and until there is a return to actual duty, nor may such leave without pay be converted to sick leave.

## ADVANCE OF SICK LEAVE

SECTION 3.8 In cases of serious disability or ailments, and when the exigencies of the situation so require, sick leave may be advanced to permanent and

indefinite employees not in excess of 30 days: *Provided*, that no advances of sick leave shall be made to any employee unless the absence from duty on account of illness is for a period, or periods, of 5 or more consecutive work days; that every application for advance leave shall be supported by a medical certificate; that the total of such advances shall be charged against sick leave subsequently credited. Sick leave may be advanced irrespective of whether the employee has annual leave to his credit.

SECTION 3.9 Sick leave shall not be advanced to an employee holding a limited appointment, or one expiring on a specified date, in excess of the total sick leave that would accrue during the remaining period of such appointment.

#### PART IV—GENERAL PROVISIONS

##### SECTION 4.1

(a) Leave shall be credited in units of hours on the basis of the established work day. Fractional parts of an hour that equal or exceed  $\frac{1}{2}$  hour shall be counted as one hour and fractions of less than  $\frac{1}{2}$  hour shall be disregarded.

(b) Whenever the number of hours of duty in an employee's work day is permanently changed the leave standing to his credit shall be converted to the proper number of hours based upon the new work day.

(c) The accumulated leave of each employee, as of December 31, 1943, shall be converted from days-hours-minutes to units of hours. Fractional parts of an hour that equal or exceed  $\frac{1}{2}$  hour shall be counted as one hour and fractions of less than  $\frac{1}{2}$  hour shall be disregarded.

##### SECTION 4.2

(a) Leave shall accrue to an employee while in a leave-with-pay status providing he returns to duty.

(b) Annual leave shall not accrue to an employee while on terminal leave, whether by separation, furlough, or resignation. In such cases the accrual of leave shall cease at the close of the last day on which he was present for duty, and the final date of separation shall not be extended by the granting of sick or court leave: *Provided*, that this subsection shall not apply to employees who are on terminal leave on the date of issuance of this order.

SECTION 4.3 Whenever a permanent employee is absent on leave without pay 15 or more days during a calendar year, the credits for annual leave shall be reduced one day and for sick leave one-half day for each such period aggregating 15 days. Whenever such absences

total 90 days there shall be a further reduction of  $\frac{1}{2}$  day in annual leave credits for each such period: *Provided*, that when an employee absent because of injury received in line of duty requests to be carried on leave-without-pay, he shall, upon his return to duty, receive credit for accrued leave covering the period for which he was paid disability compensation by the Employees' Compensation Commission.

SECTION 4.4 Leave shall not accrue during any period of suspension for disciplinary reasons which is in excess of three days.

SECTION 4.5 Leave shall be charged only for absence upon days which an employee would otherwise work and receive pay and shall be exclusive of Sundays which do not occur within a regular tour of duty, holidays, and all non-work days established by Federal statute or by Executive or administrative order: *Provided*, that when a holiday is declared by general administrative order to be a work day, an employee who absents himself from work without permission on that day shall be subject to a deduction of one day's pay.

SECTION 4.6 Unavoidable or necessary absence from duty not in excess of thirty minutes, and tardiness, shall be handled administratively by excuse for adequate reasons, or by requiring additional work, or by a charge against overtime previously worked beyond regular hours, or by disciplinary action, or by a charge against annual leave.

SECTION 4.7 In case of the separation of an employee who is indebted for advance leave, the employee shall refund the amount paid him for the period of such excess, or deduction therefor shall be made from any salary due him. This section shall not apply in cases of death, retirement, or reduction of force, or in case an employee who is not found eligible for retirement is unable to return to duty because of disability, evidence of which shall be supported by an acceptable medical certificate.

##### SECTION 4.8

(a) Leave without pay may be granted to an employee for a period not exceeding twelve months regardless of whether he has leave standing to his credit.

(b) An employee whose active services are terminated as a result of the expiration of a statute in connection with the administration of which he is employed and who at the time of such expiration has not exhausted the leave standing to his credit shall be granted leave without pay or furlough for a maximum period of twelve months.

SECTION 4.9 When an employee is appointed, reappointed, or transferred from one permanent position to another permanent position, without a break in service, his leave account shall be disposed of as follows:

(a) If the position is within the purview of the leave acts of March 14, 1936, the leave account shall be certified to the employing agency for credit or charge to the employee.

(b) If the position to which he is appointed or transferred is not within the purview of the leave acts of March 14, 1936, the employee shall be furnished with a statement of his leave account, and if he is subsequently appointed, reappointed, or transferred to another position within the purview of such acts, the leave shown to be due will be credited to his account.

##### SECTION 4.10

(a) When an employee is appointed, reappointed, or transferred without a break in service from a permanent position to a temporary position in the same agency, he shall be credited with such leave as may be due him or charged with any unaccrued leave which may have been advanced.

(b) When an employee is appointed, reappointed, or transferred without a break in service from a permanent position to a temporary position in a different agency he shall be furnished with a statement of his leave account and if subsequently he is appointed, reappointed, or transferred without a break in service to a permanent position the amount of leave shown to be due shall be credited to his account.

SECTION 4.11 Temporary employees who subsequently receive permanent appointments without break in service, either in the same or a different department or agency, shall be credited with such leave as may be due them, or charged with any unaccrued leave which may have been advanced.

#### PART V—ADMINISTRATION

SECTION 5.1 The heads or governing bodies of the various governmental agencies to which this Executive order applies shall be responsible for the proper administration of these regulations so far as they pertain to employees under their respective jurisdictions, and they shall maintain an account of leave for each employee in accordance with methods prescribed by the Civil Service Commission and approved by the Director of the Bureau of the Budget.

SECTION 5.2 The head or governing body of any governmental agency which

has employees who work 24-hour shifts, or other uncommon tours of duty, is authorized to promulgate supplemental regulations consistent with these regulations for administering leave for such employees.

SECTION 5.3 Nothing in these regulations shall be construed to prevent the continuance of any leave differential existing prior to January 1, 1936, for the benefit of employees of the Federal Government stationed without the continental limits of the United States. However, any department may, if it so desires, apply these regulations to employees stationed without the continental limits of the United States, subject to the continuance of such leave differential.

(e) Employees not required to be continuously employed during regular tour of duty, such as (1) per diem or per hour employees engaged in an emergency who may be employed for more than one 7- or 8-hour shift within 24 hours during the emergency; (2) part-time or intermittent employees; (3) persons engaged under contract; (4) employees engaged temporarily for less than a month on a piece-price basis; (5) employees who are paid at hourly rates but who are not engaged on construction work, such as mechanics, skilled laborers, and others engaged in various services on maintenance, repair, clean-up work, etc., where employment is more or less intermittent and not on a regular and continuous basis; (6) consultants employed and paid on the basis of "when actually employed"; and (7) employees paid on a fee basis, such as physicians, surgeons, and other consultants.

(f) Alien and native labor employed outside the continental limits of the United States: *Provided*, that the head or governing body of any governmental agency which employs alien and native labor outside the continental limits of the United States may promulgate regulations governing the granting of leave to such employees.

SECTION 6.2 The regulations contained herein relating to sick leave shall

not apply to officers and members of the Police and Fire Departments of the District of Columbia other than civilian personnel.

AUTHORITY: §§ 249.1 to 249.24; inclusive, issued under sec. 7, 49 Stat. 4, as amended by 50 Stat. 5, 53 Stat. 510, 55 Stat. 498, and Pub. Law 151, 78th Cong.

§ 249.1 *Eligible processors.* Payments under this offer shall be available to processors in continental United States who make eligible sales (such processors being herein called "eligible processors"), upon compliance with the terms and conditions specified herein.

§ 249.2 *Eligible sales.* The term "eligible sale" as used herein means a bona fide sale and delivery of eligible grapefruit juice during the term of this offer, by a processor,

(a) To a primary distributor or wholesaler or retailer for resale for consumption other than by a Government agency, or

(b) To a consumer for consumption other than by a Government agency:

*Provided, however,* That the products included in such sale or sales were not packed, sold, or delivered in violation of any order or regulation of Office of Price Administration or War Food Administration or in violation of any applicable Federal or State law or regulation. This offer shall not extend to conditional sales, forward sales, or any sales which are not absolute sales in normal trade channels. In the event any eligible processor's total production of eligible grapefruit juice during the period October 1, 1943 to September 30, 1944 shall exceed 90% of such eligible processor's total production of grapefruit juice during the period of October 1, 1942 to September 30, 1943 (such total in respect of each period being inclusive of sales to Government agencies and export sales) no payments shall be made in respect of such excess except to the extent, if any, approved by Commodity.

In the event a processor makes a sale which qualifies as an eligible sale hereunder except that the grapefruit juice, which otherwise would be eligible grapefruit juice, which is the subject thereof was not packed by it but was purchased by it from the processor who packed such grapefruit juice, such a sale shall be deemed to be an eligible sale hereunder but: (1) application for payment (or interim settlement, as the case may be) in respect thereof pursuant to § 249.9 hereof shall be made to Commodity by the processor who packed such grapefruit juice, such application being forwarded to Commodity by the processor who made such sale accompanied by such evidence with respect to such eligible sale as Commodity shall require; and (2) payment shall be made by Commodity to, and the rates applicable to, the processor who packed such eligible grapefruit juice.

§ 249.3 *Reports of fresh fruit purchases, pack, sales, and government set-aside.* With respect to its operations during each calendar month included in the term of this offer, each eligible processor shall report to Commodity (within five days after publication of this offer in respect of the months of October, November, and December, 1943, and not later than the fifth day of the following month in respect of January 1944 and each subsequent calendar month) stating, separately as to each of the areas in which it operates:

(a) The total deliveries to its plants, in net tons, of grapefruit of the 1943-1944 crop during the calendar month for processing into eligible grapefruit juice showing separately:

(1) The quantity actually delivered; and

(2) The quantity which should be included in the determination of monthly area fruit costs pursuant to § 249.5 hereof

and that which should be excluded from such determination pursuant to § 249.4 hereof;

(b) The weighted average delivered cost per net ton to it of only such deliveries of grapefruit during the calendar month as are actually purchased and excluding all deliveries required to be excluded pursuant to § 249.4 hereof;

(c) The quantity of eligible grapefruit juice packed by it during the calendar month;

(d) The quantity of eligible grapefruit juice held by it set aside for sale to Government agencies for the 1943-1944 season to the end of the calendar month;

(e) The quantity of eligible grapefruit juice sold by it during the 1943-1944 crop season to the end of such calendar month: (i) to Government agencies, (ii) to others where payments hereunder are applicable to such sales; and (iii) to others where payments hereunder are not so applicable; and

(f) The total quantity of eligible grapefruit juice on hand.

In the event any processor who otherwise may be eligible shall fail to comply in all respects with the report requirements of this § 249.3, such processor shall, if and to the extent that Commodity shall direct, forfeit benefits and payments under this offer.

§ 249.4 *Deliveries excluded from computation of averages.* In respect of eligible processors which receive deliveries of grapefruit:

(a) From their producer-members if such eligible processors are cooperative associations; or

(b) Grown by them or by growers who, to a predominant extent, control or are controlled by them; or

(c) To be processed in their behalf by other processors or to be processed by them for other persons; or

(d) Other than on a specified price per ton or per box basis and for processing into eligible grapefruit juice,

deliveries of the types thus specified shall not be considered in determining either weighted average delivered costs pursuant to § 249.3 hereof or monthly area fruit costs pursuant to § 249.5 hereof, but all such deliveries shall be reported to Commodity pursuant to § 249.3 hereof separately from deliveries of grapefruit eligible for inclusion in such determinations of weighted average delivered costs and monthly area fruit costs.

Any processor may make inquiry of, and receive a ruling from, Commodity with respect to its status under this § 249.4 or Commodity may on its own initiative make a ruling with respect to the status of any processor hereunder. Each eligible processor shall as a part of, or prior to, its first report hereunder supply in writing to Commodity a specification with respect to the sources of its fruit and its buying methods.

§ 249.5 *Determination of monthly area fruit costs.* As soon as practicable after receipt of the monthly telegraphic reports required pursuant to § 249.3

hereof, Commodity shall determine, on the basis of such information as may be available to it, the weighted average area industry delivered cost (hereinafter called the "monthly area fruit cost") of grapefruit with respect to each area, delivered to processors' plants exclusively for processing, for each monthly period covered by such reports: *Provided, however*, That in the event any monthly area fruit cost as thus determined for any month during the term of this offer shall be in excess of the following applicable maximum costs or less than the following minimum costs, then such monthly area fruit cost for such month shall be the applicable maximum (or minimum, as the case may be) cost hereinafter set forth, rather than the cost determined in accordance with this sentence hereof:

Grapefruit area	Dollars per ton	
	Maximum	Minimum
Florida.....	\$38.35	\$24.47
Texas.....	37.25	24.03
California-Arizona.....	36.97	25.00

In respect of fresh grapefruit delivered to any eligible processor between October 1, 1943 and December 31, 1943, both dates inclusive, the monthly area fruit costs applicable thereto shall be deemed to be the same as those established for the month of January, 1944: *Provided, however*, That purchases of grapefruit delivered prior to January 1, 1944 shall not be considered in determining the monthly area fruit costs applicable to January, 1944. In respect of fresh grapefruit delivered to any eligible processor after May 31, 1944, the monthly area fruit costs applicable to such fresh grapefruit shall be those established for the month of May, 1944. In the event Commodity determines, in respect of any month, that reports made pursuant to § 249.3 hereof are inadequate properly to establish the monthly area fruit cost with respect to any area or areas, Commodity shall determine the monthly area fruit costs applicable to such area or areas for such month on the basis of prevailing prices in the fresh grapefruit market for fruit from such area or areas during such month adjusted to reflect appropriate differentials with respect to grapefruit for processing. Subject to the right of Commodity to correct or amend such determination in case of error, all determinations by Commodity of monthly area fruit costs shall be final and conclusive.

§ 249.5 *Election of payment basis.* Each eligible processor shall elect whether payments to it under § 249.13 hereof shall be computed: (a) on the basis (herein called the "packing month basis") of the monthly area fruit costs (determined pursuant to § 249.5 hereof) applicable: (1) to the month during which the eligible grapefruit juice included in any eligible sale was packed (irrespective of the month during which the grapefruit from which produced was

purchased or delivered), and (2) to the area in which grapefruit which was processed into such eligible grapefruit juice was grown; or (b) on the basis of its seasonal average area fruit costs (determined pursuant to § 249.7 hereof). In filing its first application for payment (or interim settlement, as the case may be) pursuant to § 249.9 hereof, eligible processor shall specify such election and the basis thus specified by eligible processor in such first application shall constitute its payment basis for the entire term of this offer. In the event any eligible processor elects to adopt the packing month basis, such eligible processor, in making applications for payment hereunder pursuant to § 249.9 hereof, is required to establish, to the satisfaction of Commodity, the calendar month or months in which the products, included in each eligible sale covered by each such application for payment, were packed.

§ 249.7 *Determination of seasonal average area fruit costs.* Commodity shall determine, as soon as practicable after May 31, 1944, with respect to each eligible processor who elects to adopt the seasonal average area fruit cost basis pursuant to § 249.6 hereof, on the basis of the applicable monthly area fruit costs, determined pursuant to § 249.5 hereof, for the period from October 1, 1943 to May 31, 1944, both dates inclusive, weighted according to the quantity of eligible grapefruit juice packed by such eligible processor during each month of such applicable period, such eligible processor's applicable weighted average seasonal delivered costs (herein called "seasonal average area fruit costs") per net ton in respect of grapefruit delivered to such eligible processor's plant or plants in each such area for processing into eligible grapefruit juice during such applicable period.

§ 249.8 *Rates of payment.* The rates of payment hereunder on eligible grapefruit juice, per dozen cans included in any eligible sale, shall be as specified in the three tables contained in Schedule A attached hereto and by this reference made a part hereof, for: (1) the monthly area fruit cost applicable to the month in which such eligible grapefruit juice was packed (in the case of eligible processors who elect to adopt the packing month basis); or (2) the eligible processor's seasonal average area fruit cost computed as provided in § 249.7 hereof (in the case of eligible processors who elect to adopt the seasonal average area fruit costs basis). Rates of payment for cans of sizes other than those referred to in Schedule A and for glass containers of any size shall be computed ratably according to the net content thereof upon the basis of the rates of payment for No. 2 cans. In respect of any classes of grapefruit, used by eligible processors for juicing, other than those specified in Schedule A, the applicable rates of payment hereunder shall be such as Commodity shall prescribe. For the purpose of computing the amount of payment on

each class of fruit included in each eligible sale, the payment applicable to a fraction of a dozen containers (metal or glass) shall be computed on the basis of the applicable per dozen rate or rates.

§ 249.9 *Prerequisites to payment and interim settlement.* Payments (or interim settlements, as the case may be) hereunder shall be made only to eligible processors who: (a) file applications, separately as to each area, for such payments (or interim settlements) in such form as may be prescribed by Commodity; and (b) supply, in respect of each such application for payment (or interim settlement) such supporting evidence, documents, and proofs as Commodity may require. An application for payment (or interim settlement, as the case may be) hereunder shall be filed by each eligible processor not oftener than once each calendar month unless and to the extent that more frequent filing is approved by Commodity.

§ 249.10 *Interim settlements.* In respect of any sales of eligible grapefruit juice made by an eligible processor who elects, pursuant to § 249.6 hereof, to adopt the seasonal average area fruit costs basis, prior to the determination of such eligible processor's applicable seasonal average area fruit costs as provided in § 249.7 hereof, such eligible processor may file application with Commodity for interim settlement. Any such interim settlement thus made shall be subject to final adjustment as provided in § 249.11 hereof. For the purpose of any such interim settlement, the rates of payment (herein called "interim payment rates") shall be as provided in § 249.2 hereof except that in lieu of using such eligible processor's seasonal average area fruit costs in such calculation, there shall be used the lowest applicable monthly area fruit costs, computed by Commodity pursuant to § 249.5 hereof, in respect of any month between January 1, 1944 and the date of such application for interim settlement.

§ 249.11 *Adjustments.* Commodity and each eligible processor who has received one or more interim settlements pursuant to § 249.10 hereof shall, as soon as practicable after determination, as provided in § 249.7 hereof, of such eligible processor's seasonal average area fruit costs, make appropriate adjustments between themselves, with respect to any difference between the aggregate amount of payments which such eligible processor has received from Commodity under interim settlements pursuant to § 249.10 hereof and the aggregate amount to which such eligible processor is entitled, on the basis provided in § 249.2 hereof, in respect of the eligible sales upon which such interim settlements were made. To the extent, if any, that the aggregate amount thus received in interim settlements pursuant to § 249.10 hereof exceeds the amount to which such eligible processor is entitled pursuant to § 249.8 hereof: (a) such eligible processor shall forthwith reimburse Commod-

ity; or (b) Commodity may, at its election, set off such amount against any amount due or to become due from Commodity to such eligible processor. To the extent, if any, that such eligible processor is entitled to a larger aggregate sum on the basis prescribed in § 249.8 hereof than it received in interim settlements pursuant to § 249.10, Commodity shall make payment of such excess as soon as practicable.

§ 249.12 *Right to reject applications for payment.* Commodity shall have the right to reject, in whole or in part, any application for payment (or for interim settlement) hereunder in the event such application for payment (or interim settlement) or the transactions reflected therein are not in conformity with this offer. Any such rejection, in whole or in part, shall not preclude the filing by an eligible processor, within the time limitations provided in this offer, of a new application with respect to the transactions involved in such rejected application or rejected portion thereof should such eligible processor desire to submit further evidence with respect to its alleged compliance with this offer.

§ 249.13 *Payment.* Commodity shall, as soon as practicable after receipt of each such application for payment (or for interim settlement, as the case may be), make payment thereof (to the extent found to be in conformity with this offer) to the eligible processor who made the application for payment (or interim settlement): *Provided, however,* That no more than one payment shall be made by Commodity hereunder in respect of the eligible grapefruit juice contained in any particular container. The making of any such payment or interim settlement shall not preclude Commodity from requiring restitution of any such payment or portion thereof in the event of a subsequent finding: (a) that any such claim is invalid, defective or incorrectly computed; or (b) that the eligible processor had not in fact complied with the terms of this offer. Such right shall be in addition to any and all other rights of Commodity in the premises. Each eligible processor shall: (1) report the quantities of the various classes of products covered by payments or interim settlements by Commodity which were subsequently rejected or returned to such eligible processor; and (2) make appropriate adjustment thereof either by set-off or otherwise, within such period of time as Commodity shall direct. Reports and adjustments shall be made within 30 days of such rejection or return by each eligible processor in respect of any such products rejected or returned subsequent to the termination of this offer.

§ 249.14 *Effective date.* This offer shall apply to all eligible sales of eligible grapefruit juice by eligible processors made on or after October 1, 1943, and, unless sooner terminated pursuant to § 249.15 hereof, shall continue in effect and be applicable to eligible sales of eligible grapefruit juice made by eligible processors prior to December 1, 1944: *Provided,* That all applications for payment in respect thereof must, in any

event, be made on or before December 31, 1944.

§ 249.15 *Termination.* Commodity reserves the right to amend or terminate this offer at any time by giving public notice of such amendment or termination. The issuance by Commodity or War Food Administration of a press release or the filing of the amendment or notice of termination with the FEDERAL REGISTER shall constitute sufficient public notice of any amendment or termination of this offer. Any such amendment or termination shall not preclude the subsequent filing of applications for payment hereunder by, and the making of payments to, eligible processors in respect of eligible sales of eligible grapefruit juice produced from fresh grapefruit delivered to plants of eligible processors not later than ten (10) days after the effective date of such amendment or termination pursuant to bona fide purchases made prior to the effective date of such amendment or termination: *Provided,* That such application for payment is made within ninety (90) days after the date of such amendment or termination or not later than December 31, 1944, whichever of said two dates shall be the earlier. In the event the issuance, amendment, modification or termination of any Maximum Price Regulation of the Office of Price Administration has the effect of reflecting or resulting in a raw fruit cost of grapefruit for processing into grapefruit juice different from those reflected in its present civilian ceiling prices on grapefruit juice, Commodity may, in its discretion, make such equitable adjustment as it may deem necessary in the rate or rates of payment provided for in § 249.8 hereof, and such adjusted rate or rates may be made applicable to eligible grapefruit juice sold by eligible processors subsequent to the effective date of the issuance, amendment, modification or termination of such Maximum Price Regulation.

In the event this offer be terminated in whole or in part effective:

(a) On a date other than the last day of a calendar month, the monthly area fruit costs for the month in which such termination occurs shall be determined pursuant to § 249.5 hereof on the basis of that portion of such calendar month to and including the effective date of such termination; or

(b) Prior to the end of the period specified in § 249.7 hereof as determinative of the seasonal average area fruit costs of eligible processors who elect, pursuant to § 249.6 hereof, to adopt the seasonal average area fruit cost basis, such seasonal average area fruit costs in respect of each such eligible processor shall be determined on the basis of the period from October 1, 1943 to the effective date of such termination (inclusive, however, of eligible grapefruit juice packed by eligible processors from grapefruit purchased in bona fide transactions prior to the effective date of such termination and delivered to eligible processors' plants not later than ten (10) days after such effective date.

§ 249.16 *Instructions and interpretations.* Commodity shall have the right

to amplify or clarify any provision or provisions of this offer without changing the substance hereof, or alter any procedure prescribed herein at any time by the issuance of instructions or interpretations in connection therewith.

§ 249.17 *Books and records.* All eligible processors shall maintain complete and accurate books, records and accounts (and furnish Commodity such information as it may request) with respect to all: (1) grapefruit purchased or otherwise acquired by them; (2) grapefruit processed; and (3) eligible sales made by them. All such books, records and accounts shall be carefully preserved for a period of not less than two (2) years and shall be available for inspection by Commodity or its designated agents or representatives at any reasonable time during such period.

§ 249.18 *Assignments.* Payments hereunder shall be made only to the eligible processor or its approved assignee. No benefit or claim hereunder shall be assignable except with the written approval of Commodity.

§ 249.19 *Definitions.* For the purpose of this offer:

(a) The term "eligible grapefruit juice" means single strength grapefruit juice as defined in the applicable Official U. S. Standards for grapefruit juice, promulgated by the Secretary of Agriculture, sweetened or unsweetened, produced from grapefruit of the 1943-1944 crop delivered to the eligible processor on or subsequent to October 1, 1943, and prior to October 1, 1944, and packed by the eligible processor in hermetically sealed metal or glass containers, and sterilized by the use of heat: *Provided, however,* That the soluble solid content of any such grapefruit juice which is sweetened does not exceed 16° Brix cut-out reading.

(f) The term "area" means the section of the United States in which the grapefruit, from which the eligible grapefruit juice in question is produced, was grown (irrespective of the place of packing), viz: "Florida", "Texas", or "California-Arizona"; and

§ 249.20 *Delegation.* Any act, approval, direction or determination provided in this offer to be taken or made by Commodity may be delegated by Commodity to any agent, representative, or agency to act in its place and stead or for its account.

§ 249.21 *Correspondence.* All correspondence, applications for payment, supporting documents, and notices required to be made to or filed with Commodity pursuant to this offer shall, unless Commodity shall otherwise prescribe, be sent or made to or filed with Commodity Credit Corporation, Washington 25, D. Chapter XI—War Food Administration  
(Distribution Orders)

[FDO 79-115]

## PART 1401—DAIRY PRODUCTS

FLUID MILK AND CREAM IN THE MIAMI, FLA.,  
METROPOLITAN SALES AREA

Pursuant to the authority vested in me by Food Distribution Order No. 79 (8 F.R. 12426), issued on September 7, 1943, as amended, and to effectuate the purposes of such order, it is hereby ordered as follows:

§ 1401.149 *Quota restrictions*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof:

(1) Each term defined in Food Distribution Order No. 79, as amended, shall, when used herein, have the same meaning as is set forth for such term in Food Distribution Order No. 79, as amended.

(2) The term "FDO 79" means Food Distribution Order No. 79, issued on September 7, 1943, as amended.

(3) The term "sub-handler" means any handler, such as a peddler, vendor, sub-dealer, or secondary dealer, who purchases in a previously packaged and processed form milk, cream, or milk by-products for delivery.

(4) The term "industrial user" means a person, as determined by the market agent, in the capacity of a manufacturer of products using as an ingredient therein milk, cream, or milk byproducts, which products are disposed of for resale to consumers off the premises where made.

(5) The term "base" means the total pounds of milk solids delivered by a handler within the sales area during the base period (i) in the form of milk, or (ii) in the form of cream and milk byproducts, minus the milk solids in quota-exempt deliveries of milk, and cream and milk byproducts, as described in (j) hereof. (For the purpose of this order, the milk solids content of milk, milk byproducts, and cream shall be computed as follows: Each hundredweight of milk, cream, or milk byproducts other than cottage, pot, or baker's cheese, shall be considered the equivalent of 9.375 pounds of milk solids plus the number of pounds of milk solids calculated by multiplying the pounds of butterfat in such milk, and cream and milk byproducts by .006; and each hundredweight of cottage, pot, or baker's cheese shall be considered the equivalent of 62.5 pounds of milk solids plus one pound of milk solids for each one percent of butterfat content of such cheese.)

(b) *Milk sales area.* The following area is hereby designated as a "milk sales area" to be known as the Miami, Florida, metropolitan milk sales area, and is referred to hereinafter as the "sales area":

The city of Miami and the entire area included in the election precincts numbered 1 to 84, inclusive, that part of 85 comprising parts of Miami Springs town, 87 to 100, inclusive, and those parts of 107, 108, 109, 110, 111, 112, comprising parts of the cities of Coral Gables, Miami, and South Miami, all in Dade County, Florida.

(c) *Base period.* The calendar month of June 1943 is hereby designated as the base period for the sales area: *Provided*, That the month of May may be used as the base period for computing base and quota for deliveries to elementary, junior high and high schools: *And provided further*, That in the computation set forth in (e) hereof the total deliveries to elementary, junior high, and high schools in the base period shall be divided by the number of days such schools were in session in lieu of the total number of days in the base period as set forth in (e) (1) and the average daily deliveries, so determined shall be multiplied by the number of days such schools are in session in each quota period in lieu of the number of days in the quota period as set forth in (e) (2).

(d) The remainder of the calendar month in which the provisions hereof become effective and each subsequent calendar month, respectively, is hereby designated as the quota period for the sales area.

(e) *Handler quotas.* Quotas for each handler other than a sub-handler or producer-handler shall be determined as follows:

(1) Divide his respective bases by the number of days in the base period;

(2) Multiply the foregoing result by the number of days in the quota period; and

(3) Multiply the aforesaid resulting amounts by 100 percent in the case of the base for milk, and 75 percent in the case of the base for cream and milk by-products.

(f) *Quotas for handlers who are also producers.* Quotas for each handler who is also a producer and who purchases no milk shall be computed in accordance with (e) hereof, except:

(1) His base period shall be either June or December, whichever represents his larger total deliveries; and

(2) The applicable percentages shall be 100 percent in lieu of those specified in (e) (3).

(g) *Quota adjustments.* Each handler may increase his quota for milk within any quota period by one pound of milk solids for each one pound of milk solids he reduces his quota for cream and milk byproducts.

(h) *Cream deliveries.* The units of cream delivered subject to quota in any quota period shall not exceed 100 percent of the units of cream in his base, irrespective of the milk solids content of such deliveries.

(i) *Handler exemptions.* Quota shall not apply to any handler who delivers in a quota period a daily average of less than 100 units of milk, cream, and milk byproducts. For the purpose of this order, a unit shall be the equivalent in volume of the following: (1) One quart of milk, buttermilk, or fluid milk by-products; (2) one-half pint of cream; and (3) one-half pound of cottage, pot, or baker's cheese.

(j) *Quota exclusions and exemptions.* Deliveries of milk, milk byproducts, or cream (1) to other handlers, except for such deliveries to sub-handlers, (2) to plants engaged in the handling or processing of milk, milk byproducts, cream or other dairy products from which no milk, milk byproducts, or cream, is delivered in the sales area, (3) to industrial users, and (4) to the agencies or groups specified in (d) of FDO 79, shall be excluded from the computation of deliveries in the base period and exempt from charges to quotas.

(k) *Transfers of bases.* The market agent is empowered to transfer base from one handler to another,

(1) Upon receipt of a request in writing from both handlers; and

(2) Upon application from a handler and written notice to the Director and to both handlers, (i) to permit deliveries to a purchaser not being served by a handler whose quota reflects deliveries to such purchaser in the base period, (ii) to permit a handler to serve an account which customarily rotates among several handlers inclusive of a contract let by a public agency or institution on a bid basis, and (iii) to permit a handler to serve an account which he is serving on the effective date of this order and which was served by another handler during the base period.

(l) *Consumer priorities.* In the distribution of milk subject to quotas established hereunder, a handler shall give preference in the order listed, taking into consideration the type of purchasers served by him in the base period, to:

(1) The need of children, expectant mothers, and invalids requiring milk;

(2) Homes and retail stores handling milk for consumption off the premises; and

(3) Establishments serving milk for consumption on the premises.

(m) *Petition for relief from hardship.*

(1) Any person affected by FDO 79 or the provisions hereof who considers that compliance therewith would work an exceptional and unreasonable hardship on him, may file with the market agent a petition addressed to the Director. The petition shall contain the correct name, address and principal place of business of the petitioner, a full statement of the facts upon which the petition is based, and the hardship involved and the nature of the relief desired.

(2) Upon receiving such petition the market agent shall immediately investigate representations and facts stated therein.

(3) After investigation, the petition shall be certified to the Director, but prior to certification the market agent may (i) deny the petition or (ii) grant temporary relief for a total period not to exceed 60 days.

(2) The term "FDO 79" means Food Distribution Order No. 79, issued on September 7, 1943, as amended.

(3) The term "sub-handler" means any handler, such as a peddler, vendor, sub-dealer, or secondary dealer, who purchases in a previously packaged and processed form milk, cream, or milk byproducts for delivery.

(4) The term "industrial user" means a person, as determined by the market agent, in the capacity of a manufacturer of products using as an ingredient therein milk, cream, or milk byproducts, which products are disposed of for resale to consumers off the premises where made.

(5) The term "base" means the total pounds of milk solids delivered by a handler within the sales area during the base period (i) in the form of milk, or (ii) in the form of cream and milk byproducts, minus the milk solids in quota-exempt deliveries of milk, and cream and milk byproducts, as described in (j) hereof. (For the purpose of this order, the milk solids content of milk, milk byproducts, and cream shall be computed as follows: Each hundredweight of milk,

cream, or milk byproducts other than cottage, pot, or baker's cheese, shall be considered the equivalent of 9.375 pounds of milk solids plus the number of pounds of milk solids calculated by multiplying the pounds of butterfat in such milk, and cream and milk byproducts by .906; and each hundredweight of cottage, pot, or baker's cheese shall be considered the equivalent of 62.5 pounds of milk solids plus one pound of milk solids for each one percent of butterfat content of such cheese.)

(b) *Milk sales area.* The following area is hereby designated as a "milk sales area" to be known as the Tampa-St. Petersburg, Florida, milk sales area, and is referred to hereinafter as the "sales area":

The cities of Tampa, in Hillsborough County, and St. Petersburg, in Pinellas County; the election precincts numbered 1 to 40, inclusive, 42, 43, 44, that part of 46 comprising part of Temple Terrace city, 58, 59, and 60, in Hillsborough County; the election precincts numbered 1 to 21, inclusive, 21A, and 22 to 47, inclusive, in Pinellas County, Florida.

(d) The remainder of the calendar month in which the provisions hereof become effective and each subsequent calendar month, respectively, is hereby designated as the quota period for the sales area.

(e) *Handler quotas.* Quotas for each handler other than a sub-handler or producer-handler shall be determined as follows:

- (3) Multiply the aforesaid resulting amounts by 100 percent in the case of the base for milk, and 75 percent in the case of the base for cream and milk byproducts.

(f) *Quotas for handlers who are also producers.* Quotas for each handler who is also a producer and who purchases no milk shall be computed in accordance with (e) hereof, except:

For the purpose of this order, a unit shall be the equivalent in volume of the following: (1) One quart of milk, buttermilk, or fluid milk byproducts; (2) one-half pint of cream; and (3) one-half pound of cottage, pot, or baker's cheese.

(j) *Quota exclusions and exemptions.* Deliveries of milk, milk byproducts, or cream (1) to other handlers, except for such deliveries to sub-handlers, (2) to plants engaged in the handling or processing of milk, milk byproducts, cream or other dairy products from which no milk, milk byproducts, or cream, is delivered in the sales area, (3) to industrial users, and (4) to the agencies or groups specified in (d) of FDO 79, shall be excluded from the computation of deliveries in the base period and exempt from charges to quotas.

#### PART 1401—DAIRY PRODUCTS

##### FLUID MILK AND CREAM IN THE DURHAM, N. C., SALES AREA

Pursuant to the authority vested in me by Food Distribution Order No. 79 (8 F.R. 12426), issued on September 7, 1943, as amended, and to effectuate the purposes of such order, it is hereby ordered as follows:

§ 1401.152 *Quota restrictions.*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof:

(1) Each term defined in Food Distribution Order No. 79, as amended, shall, when used herein, have the same meaning as is set forth for such term in Food Distribution Order No. 79, as amended.

(2) The term "FDO 79" means Food Distribution Order No. 79, issued on September 7, 1943, as amended.

(3) The term "sub-handler" means any handler, such as a peddler, vendor, sub-dealer, or secondary dealer, who purchases in a previously packaged and processed form milk, cream, or milk byproducts for delivery.

(4) The term "industrial user" means a person, as determined by the market agent, in the capacity of a manufacturer of products using as an ingredient therein milk, cream, or milk byproducts, which products are disposed of for resale to consumers off the premises where made.

(5) The term "base" means the total pounds of milk solids delivered by a handler within the sales area during the base period (i) in the form of milk; or (ii) in the form of cream and milk byproducts, minus the milk solids in quota-exempt deliveries of milk; and cream and milk byproducts, as described in (j) hereof. (For the purposes of this order, the milk solids content of milk, milk byproducts, and cream shall be computed as follows: Each hundredweight of milk, cream, or milk byproducts other than cottage, pot, or baker's cheese, shall be considered the equivalent of 9.375 pounds of milk solids plus the number of pounds of milk solids calculated by multiplying the pounds of butterfat in such milk, and cream and milk byproducts by .906; and each hundredweight of cottage, pot, or baker's cheese shall be considered the equivalent of 62.5 pounds of milk solids plus one pound

of milk solids for each one percent of butterfat content of such cheese.)

(b) *Milk sales area.* The following area is hereby designated as a "milk sales area" to be known as the Durham, North Carolina, milk sales area, and is referred to hereinafter as the "sales area":

The city of Durham and the townships of Durham and Patterson, all in Durham County, North Carolina.

(c) *Base period.* The calendar month of June 1943 is hereby designated as the base period for the sales area: *Provided*, That the month of May may be used as the base period for computing base and quota for deliveries to elementary, junior high and high schools: *And provided further*, That in the computations set forth in (e) hereof the total deliveries to elementary, junior high, and high schools in the base period shall be divided by the number of days such schools were in session in lieu of the total number of days in the base period as set forth in (e) (1) and the average daily deliveries so determined shall be multiplied by the number of days such schools are in session in each quota period in lieu of the number of days in the quota period as set forth in (e) (2).

(d) The remainder of the calendar month in which the provisions hereof become effective and each subsequent calendar month, respectively, is hereby designated as the quota period for the sales area.

(e) *Handler quotas.* Quotas for each handler other than a sub-handler or producer-handler shall be determined as follows:

(1) Divide his respective bases by the number of days in the base period;

(2) Multiply the foregoing result by the number of days in the quota period; and

(3) Multiply the aforesaid resulting amounts by 100 percent in the case of the base for milk, and 75 percent in the case of the base for cream and milk byproducts.

(f) *Quotas for handlers who are also producers.* Quotas for each handler who is also a producer and who purchases no milk shall be computed in accordance with (e) hereof, except:

(1) His base period shall be either June or December, whichever represents his larger total deliveries; and

(2) The applicable percentages shall be 100 percent in lieu of those specified in (e) (3).

(g) *Quota adjustments.* Each handler may increase his quota for milk within any quota period by one pound of milk solids for each one pound of milk solids he reduces his quota for cream and milk byproducts.

(h) *Cream deliveries.* The units of cream delivered subject to quota in any quota period shall not exceed 100 percent of the units of cream in his base, irrespective of the milk solids content of such deliveries.

(i) *Handler exemptions.* Quota shall not apply to any handler who delivers in a quota period a daily average of less than 100 units of milk, cream, and milk byproducts. For the purpose of this

order, a unit shall be the equivalent in volume of the following: (1) One quart of milk, buttermilk, or fluid milk by-products; (2) one-half pint of cream; and (3) one-half pound of cottage, pot, or baker's cheese.

(j) *Quota exclusions and exemptions.* Deliveries of milk, milk byproducts, or cream (1) to other handlers, except for such deliveries to sub-handlers, (2) to plants engaged in the handling or processing of milk, milk byproducts, cream or other dairy products from which no milk, milk byproducts, or cream, is delivered in the sales area, (3) to industrial users, and (4) to the agencies or groups specified in (d) of FDO 79, shall be excluded from the computation of deliveries in the base period and exempt from charges to quotas.

(k) *Transfers of bases.* The market agent is empowered to transfer base from one handler to another.

(1) Upon receipt of a request in writing from both handlers; and

(2) Upon application from a handler and written notice to the Director and to both handlers, (i) to permit deliveries to a purchaser not being served by a handler whose quota reflects deliveries to such purchaser in the base period, (ii) to permit a handler to serve an account which customarily rotates among several handlers inclusive of a contract let by a public agency or institution on a bid basis, and (iii) to permit a handler to serve an account which he is serving on the effective date of this order and which was served by another handler during the base period.

(l) *Consumer priorities.* In the distribution of milk subject to quotas established hereunder, a handler shall give preference in the order listed, taking into consideration the type of purchasers served by him in the base period, to:

(3) Establishments serving milk for consumption on the premises.

The petition shall contain the correct name, address and principal place of business of the petitioner, a full statement of the facts upon which the petition is based, and the hardship involved and the nature of the relief desired.

(2) Upon receiving such petition the market agent shall immediately investigate representations and facts stated therein.

(3) After investigation, the petition shall be certified to the Director, but prior to certification the market agent may (i) deny the petition or (ii) grant temporary relief for a total period not to exceed 60 days.

(4) Denials or grants of relief by the market agent shall be reviewed by the

Director and may be affirmed, modified, or reversed by the Director.

(n) *Reports.* Each handler shall transmit to the market agent on forms prescribed by the market agent the following reports:

(1) Within 20 days following the effective date of this order, reports which show the information required by the market agent to establish such handler's quotas;

(2) Within 20 days following the close of each quota period, the information required by the market agent to establish volumes of deliveries of milk, cream and milk byproducts during the preceding quota period; and

(3) Handlers exempt from quotas pursuant to (i) hereof shall, upon the request of the market agent, submit the information required by the market agent to establish volumes of deliveries of milk, cream, and milk byproducts.

(o) *Records.* Handlers shall keep and shall make available to the market agent such records of receipts, sales, deliveries, and production as the market agent shall require for the purpose of obtaining information which the Director may require for the establishment of quotas as prescribed in (b) of FDO 79.

(p) *Expense of administration.* Each handler shall pay to the market agent, within 20 days after the close of each calendar month, an assessment of \$0.015 per hundredweight of each of milk, milk byproducts, cream, and skim milk equivalent of cottage, pot, or baker's cheese delivered during the preceding quota period and subject to quota regulations under the provisions hereof.

(q) *Violations.* The market agent shall report all violations to the Director together with the information required for the prosecution of such violations.

(4) The term "industrial user" means a person, as determined by the market agent, in the capacity of a manufacturer of products using as an ingredient therein milk, cream, or milk byproducts, which products are disposed of for resale to consumers off the premises where made.

(5) The term "base" means the total pounds of milk solids delivered by a handler within the sales area during the base period (i) in the form of milk, or (ii) in the form of cream and milk by-products, minus the milk solids in quota-exempt deliveries of milk, and cream and milk byproducts, as described in (j) hereof. (For the purpose of this order, the milk solids content of milk, milk by-products, and cream shall be computed as follows: Each hundredweight of milk, cream, or milk byproducts other than cottage, pot, or baker's cheese, shall be considered the equivalent of 9.375 pounds of milk solids plus the number of pounds of milk solids calculated by multiplying the pounds of butterfat in such milk, and cream and milk byproducts by .906; and each hundredweight of cottage, pot, or baker's cheese shall be considered the equivalent of 62.5 pounds of milk solids plus one pound of milk solids for each one percent of butterfat content of such cheese.)

(b) *Milk sales area*. The following area is hereby designated as a "milk sales area" to be known as the Houston, Texas, milk sales area, and is referred to hereinafter as the "sales area":

The city of Houston, justices' precincts 1, 2, 8, and that part of justices' precinct 3 lying west of the San Jacinto River and that part of justices' precinct 3 east of the San Jacinto River which lies south of the Texas and New Orleans Railroad, all in Harris County, Texas.

(c) *Base period*. The calendar month of June 1943 is hereby designated as the base period for the sales area: *Provided*, That the month of May may be used as the base period for computing base and quota for deliveries to elementary, junior high and high schools: *And provided further*, That in the computations set forth in (e) hereof the total deliveries to elementary, junior high, and high schools in the base period shall be divided by the number of days such schools were in session in lieu of the total number of days in the base period as set forth in (e) (1) and the average daily deliveries so determined shall be multiplied by the number of days such schools are in session in each quota period in lieu of the number of days in the quota period as set forth in (e) (2).

(d) The remainder of the calendar month in which the provisions hereof become effective and each subsequent calendar month, respectively, is hereby designated as the quota period for the sales area.

(e) *Handler quotas*. Quotas for each handler other than a sub-handler or producer-handler shall be determined as follows:

(1) Divide his respective bases by the number of days in the base period;

(2) Multiply the foregoing result by the number of days in the quota period; and

(3) Multiply the aforesaid resulting amounts by 100 percent in the case of the base for milk, and 75 percent in the case of the base for cream and milk by-products.

(f) *Quotas for handlers who are also producers*. Quotas for each handler who is also a producer and who purchases no milk shall be computed in accordance with (e) hereof, except:

(1) His base period shall be either June or December, whichever represents his larger total deliveries; and

(2) The applicable percentages shall be 100 percent in lieu of those specified in (e) (3).

(g) *Quota adjustments*. Each handler may increase his quota for milk within any quota period by one pound of milk solids for each one pound of milk solids he reduces his quota for cream and milk byproducts.

(i) *Handler exemptions*. Quota shall not apply to any handler who delivers in a quota period a daily average of less than 200 units of milk, cream, and milk byproducts. For the purpose of this order, a unit shall be the equivalent in volume of the following: (1) One quart of milk, buttermilk, or fluid milk byproducts; (2) one-half pint of cream;

and (3) one-half pound of cottage, pot, or baker's cheese.

(j) *Quota exclusions and exemptions*. Deliveries of milk, milk byproducts, or cream (1) to other handlers, except for such deliveries to sub-handlers, (2) to plants engaged in the handling or processing of milk, milk byproducts, cream or other dairy products from which no milk, milk byproducts, or cream, is delivered in the sales area, (3) to industrial users, and (4) to the agencies or groups specified in (d) of FDO 79, shall be excluded from the computation of deliveries in the base period and exempt from charges to quotas.

(k) *Transfers of bases*. The market agent is empowered to transfer base from one handler to another.

(1) Upon receipt of a request in writing from both handlers; and

(2) Upon application from a handler and written notice to the Director and to both handlers, (i) to permit deliveries to a purchaser not being served by a handler whose quota reflects deliveries to such purchaser in the base period, (ii) to permit a handler to serve an account which customarily rotates among several handlers inclusive of a contract let by a public agency or institution on a bid basis, and (iii) to permit a handler to serve an account which he is serving on the effective date of this order and which was served by another handler during the base period.

(l) *Consumer priorities*. In the distribution of milk subject to quotas established hereunder, a handler shall give preference in the order listed, taking into consideration the type of purchasers served by him in the base period, to:

(1) The need of children, expectant mothers, and invalids requiring milk;

(2) Homes and retail stores handling milk for consumption off the premises; and

(3) Establishments serving milk for consumption on the premises.

The petition shall contain the correct name, address and principal place of business of the petitioner, a full statement of the facts upon which the petition is based, and the hardship involved and the nature of the relief desired.

(2) Upon receiving such petition the market agent shall immediately investigate representations and facts stated therein.

(3) After investigation, the petition shall be certified to the Director, but prior to certification the market agent may (i) deny the petition or (ii) grant temporary relief for a total period not to exceed 60 days.

(4) Denials or grants of relief by the market agent shall be reviewed by the Director and may be affirmed, modified, or reversed by the Director.

(n) *Reports*. Each handler shall transmit to the market agent on forms

prescribed by the market agent the following reports:

(1) Within 20 days following the effective date of this order, reports which show the information required by the market agent to establish such handler's quotas;

(3) Handlers exempt from quotas pursuant to (i) hereof shall, upon the request of the market agent, submit the information required by the market agent to establish volumes of deliveries of milk, cream, and milk byproducts.

(p) *Expense of administration.* Each handler shall pay to the market agent, within 20 days after the close of each calendar month, an assessment of \$0.015 per hundredweight of each of milk, milk byproducts, cream, and skim milk equivalent of cottage, pot, or baker's cheese delivered during the preceding quota period and subject to quota regulations under the provisions hereof.

(q) *Violations.* The market agent shall report all violations to the Director together with the information required for the prosecution of such violations.

(c) *Base period.* The calendar month of June 1943 is hereby designated as the base period for the sales area: *Provided*, That the month of May may be used as the base period for computing base and quota for deliveries to elementary, junior high and high schools: *And provided further*, That in the computations set forth in (e) hereof the total deliveries to elementary, junior high, and high schools in the base period shall be divided by the number of days such schools were in session in lieu of the total number of days in the base period as set forth in (e) (1) and the average daily deliveries so determined shall be multiplied by the number of days such schools are in session in each quota period in lieu of the number of days in the quota period as set forth in (e) (2).

(d) The remainder of the calendar month in which the provisions hereof become effective and each subsequent calendar month, respectively, is hereby designated as the quota period for the sales area.

(2) Multiply the foregoing result by the number of days in the quota period; and

For the purpose of this order, a unit shall be the equivalent in volume of the following: (1) One quart of milk, buttermilk, or fluid milk byproducts; (2) one-half pint of cream; and (3) one-half pound of cottage, pot, or baker's cheese.

(l) *Consumer priorities.* In the distribution of milk subject to quotas established hereunder, a handler shall give preference in the order listed, taking into consideration the type of purchasers served by him in the base period, to:

The petition shall contain the correct name, address and principal place of business of the petitioner, a full statement of the facts upon which the petition is based, and the hardship involved and the nature of the relief desired.

(2) Upon receiving such petition the market agent shall immediately investigate representations and facts stated therein.

(3) After investigation, the petition shall be certified to the Director, but prior to certification the market agent may (i) deny the petition or (ii) grant temporary relief for a total period not to exceed 60 days.

(1) Within 20 days following the effective date of this order, reports which

show the information required by the market agent to establish such handler's quotas;

(3) Handlers exempt from quotas pursuant to (i) hereof shall, upon the request of the market agent, submit the information required by the market agent to establish volumes of deliveries of milk, cream, and milk byproducts.

(p) *Expense of administration.* Each handler shall pay to the market agent, within 20 days after the close of each calendar month, an assessment of \$0.015 per hundredweight of each of milk, milk byproducts, cream, and skim milk equivalent of cottage, pot, or baker's cheese delivered during the preceding quota period and subject to quota regulations under the provisions hereof.

(For the purpose of this order, the milk solids content of milk, milk byproducts, and cream shall be computed as follows: Each hundredweight of milk, cream, or milk byproducts other than cottage, pot, or baker's cheese, shall be considered the equivalent of 9.375 pounds of milk solids plus the number of pounds of milk solids calculated by multiplying the pounds of butterfat in such milk, and cream and milk byproducts by .906; and each hundredweight of cottage, pot, or baker's cheese shall be considered the equivalent of 62.5 pounds of milk solids plus one pound of milk solids for each one percent of butterfat content of such cheese.)

§ 1100.1 *Definitions.* When used in these regulations, unless otherwise distinctly expressed, or manifestly incompatible with the intent thereof:

(a) The term "Act" means the Act of October 2, 1942 (Pub. No. 729, 77th Cong.), entitled "An Act to Amend the Emergency Price Control Act of 1942, to aid in

preventing inflation, and for other purposes", as amended by the Public Debt Act of 1943 (Pub. No. 34, 78th Cong.) entitled "An Act to increase the debt limit of the United States and for other purposes."

(b) The term "general regulations" means amended regulations (relating to wages and salaries), promulgated by the Economic Stabilization Director on August 28, 1943 (8 F.R. 11960, 12139, 16702), as amended or supplemented.

(c) The term "Administrator" means the War Food Administrator, and any person, or agency, authorized by him to carry out the purposes and provisions of these regulations and other regulations issued by him pursuant to his authority under the "general regulations."

(d) The term "Director" means the Director of the Office of Labor, War Food Administration.

(e) The term "person" means any individual, partnership, corporation, association, business trust, or any other organization or group of persons, whether incorporated or not.

(f) The term "in contravention of the Act" means in contravention of the Act of October 2, 1942 (referred to in paragraph (a) above), Executive Order No. 9250 of October 3, 1942 (7 F.R. 7871), Executive Order 9328 of April 8, 1943 (8 F.R. 4681), the general regulations, these regulations, and any other orders, rulings, and regulations promulgated under said Act.

(g) The term "agricultural labor" means persons who are employed in farming in any of its branches, including among other things the cultivation and tillage of the soil, dairying, the production, cultivation and harvesting of agricultural or horticultural commodities, and the raising of livestock, bees, or poultry. *Provided, however:* That the term "agricultural labor" shall not include any person whose salary payments exclusive of bonuses and additional compensation, and without regard to the contemplated adjustment, are at a rate computed on an annual basis which exceeds \$5,000.00 per annum.

(h) The term "wages" or "wage payments" means all forms of direct or indirect compensation which is computed on an hourly or daily basis, a piece work basis, or other comparable basis, for personal services of an employee irrespective of when rendered, including bonuses, additional compensation, gifts, commissions, loans, fees, and any other remuneration in any form or medium whatsoever (but excluding insurance and pension benefits in a reasonable amount).

(i) The term "salary" or "salary payments" means all forms of direct or indirect compensation which is paid on a weekly, monthly, annual, or other comparable basis, except a wage basis, for personal services of an employee irrespective of when rendered, including bonuses, additional compensation, gifts, loans, commissions, fees, and any other remuneration in any form or medium whatsoever (excluding insurance and pension benefits in a reasonable amount).

(k) The terms "approval of the Administrator" and "determination by the Administrator" shall include approval or determination by an agent or agents of the Administrator, duly authorized to perform such acts.

§ 1100.2 *Delegation.* The administration of the program for stabilization of salaries and wages of agricultural labor established by the general regulations, these regulations, and other regulations promulgated by the Administrator, and the powers conferred upon the Administrator, with respect to such program, are hereby delegated to the Director of the Office of Labor of the War Food Administration. The Director shall be assisted in the administration of the program for the stabilization of salaries and wages of agricultural labor by such employees of the War Food Administration as he may designate, and such designated employees are hereby authorized to assist in the administration of such program.

§ 1100.3 *Jurisdiction.* Under the general regulations, the Administrator has the authority to determine whether salary or wage payments to agricultural labor are made in contravention of the Act. Such authority does not include determinations with respect to salaries over \$5,000.00 per annum. Thus, where salary payments are at a rate computed on an annual basis of more than \$5,000.00 per annum, jurisdiction over such salaries is with the Commissioner of Internal Revenue. However, increases in bonuses or other forms of additional compensation, where the salary payments are at a rate computed on an annual basis of \$5,000 or less, and increases in such salary payments which have the effect of raising them from below \$5,000.00 per annum to more than \$5,000.00 per annum, are within the jurisdiction of the Administrator.

Nothing contained in these regulations shall be construed to affect any jurisdiction which the National War Labor Board may have by virtue of the War Labor Disputes Act (P.L. 89, 78th Cong.) and Executive Order 9017 (7 F.R. 237) as extended by section 1, Title III of Executive Order 9250 (7 F.R. 7871, 7873). However, as set forth in § 4001.7 of the general regulations, no person, including any Federal, State, or other governmental agency, or any officer thereof, shall have authority to overrule, amend, change, or modify, directly or indirectly, any specific wage ceiling regulation issued by the War Food Administrator pursuant to the said § 4001.7 and as described in § 1100.7 hereof.

§ 1100.4 *Wage boards.* From time to time the Director may establish wage boards for the various States. Such boards shall be known as State WFA Wage Boards. Such boards as have heretofore been established shall continue to function under these regulations and the specific wage ceiling regulations described in § 1100.7 hereof. The personnel of such boards shall be appointed by the Director, and shall be persons whom the Director determines are qual-

ified to perform the functions of the board. The Director, in his discretion, is authorized to appoint alternates, to fill vacancies, and to remove and replace members of such boards. Such boards are hereby authorized to hold public hearings in order to recommend to the Administrator areas, crops, classes of employers, or otherwise, for which wage rates should be established as authorized in § 4001.7 of the general regulations. Such boards shall have the authority to hold hearings in order to determine whether there have been violations of these regulations or of specific wage ceiling regulations issued by the Administrator. Such boards may exercise such further functions as the Administrator or the Director may prescribe. Alternate members of a wage board may, when acting, perform all the functions of the regular members of the board.

§ 1100.5 *Interpretation of the term "agricultural labor."* The meaning of the term "agricultural labor" as used in the general regulations and these regulations is not free from difficulty in its application to specific cases. While the definition in the general regulations and these regulations will enable those affected to determine their status in the vast majority of cases, there are always border line cases which may leave affected persons in doubt. The War Food Administrator is authorized by § 4001.1 (1) of the general regulations to issue such interpretations of the definition of "agricultural labor" as he finds necessary. It is the purpose of this interpretation to clarify such border line cases insofar as experience to date will permit. The situations covered below will constitute or will not constitute agricultural labor as the case may be, for the purpose of these regulations. However, the Administrator may supplement this interpretation from time to time, as more specific cases are brought to his attention, and reserves the right to determine in specific cases whether employees are employed in agricultural labor.

Employees engaged in the following described operations are agricultural labor for the purpose of the general regulations and these regulations, unless otherwise herein specifically stated to the contrary:

(a) *Cultivation and tillage of the soil.* Preparation of a suitable seedbed; elimination of competing weed growth, and improvement of physical condition of the soil. Includes services performed in connection with the operation or maintenance of ditches, canals, reservoirs, or waterways used exclusively for supplying and storing water for farm purposes.

(b) *Dairying.* Milking of cows or goats, putting the milk into tins, cooling it, and storing it on the farm. If the milk is obtained from the employer's cows or goats, his employees engaged in operations such as separating the cream from the milk, or making butter, and cheese out of such milk and cream, are agricultural labor.

(c) *Production, cultivation, growing, harvesting of agricultural or horticultural commodities.* Includes all customary operations in connection with the raising of any agricultural or horticultural

tural commodity, and all operations customarily performed in connection with the removal of such commodities from the place where they are grown. See also paragraph (g) 1 hereof.

Agricultural or horticultural commodities include grains, forage crops, fruits, vegetables, nuts, sugar crops, fiber crops, tobacco, nursery products, and eggs.

Employees engaged in growing or harvesting agricultural commodities are agricultural labor, even though the commodities are raised in a greenhouse, nursery, enclosed shed, or hotbed.

(d) *Raising of livestock.* Includes the breeding, feeding, and general care of the following animals among others: cattle, sheep, swine, horses, mules, jackasses, or goats. It does not include any labor employed at stockyards.

(e) *Raising of bees.* Includes all activities customarily performed in connection with the handling and keeping of bees, including treatment of disease, and the raising of queens.

(f) *Raising of poultry.* Includes the breeding, hatching, feeding and general care of poultry, whether such activities are performed on a farm or in hatcheries. The word "poultry" includes domestic fowl and game birds.

The raising of fur bearing animals is not included in the definition of agricultural labor, and employees engaged in raising such animals are not agricultural labor, as that term is used in the general regulations and these regulations.

(g) *Miscellaneous situations.* (1) Employees engaged in packing, or other preparation of agricultural commodities for market, delivery of such commodities to storage or market, or to a carrier for transportation to market, generally are not agricultural labor. However, if an employee is engaged primarily in an occupation that is classified in these regulations as agricultural labor, and incidentally aids in packing, or otherwise preparing agricultural commodities for market, delivery of such commodities to storage or market or to a carrier for transportation to market, and such commodities are produced by the employer who has employed him for his primary occupation, such an employee shall be considered agricultural labor: *Provided*, That, such an employee shall not be considered to be employed in agricultural labor to the extent that he works in a packing shed or other establishment preparing agricultural commodities for market which employs eight or more employees in packing or other preparation of agricultural commodities for market.

(2) Employees who are agricultural labor as defined herein will continue to remain in that status, even though they are employed in forestry and lumber operations, so long as the operations constitute a subordinate and established part of the employer's farm activities. Employees engaged totally or a majority of their time in such operations are not agricultural labor, even though their employer also conducts farm operations which are classified herein as agricultural. If the employer is engaged in lumbering operations on logs or timber grown on other farms as well as his own, his employees engaged in such operations are not agricultural labor. Logging or sawmill operations performed by em-

ployees of persons other than the operator of the farm are not agricultural labor.

(3) Clerical help, farm managers, mechanics, maintenance workers, and night watchmen are agricultural labor when they are directly employed to aid in farming operations. (This does not include independent contractors, or their employees, who are engaged in performing any of the above types of work.) Such persons are not to be considered agricultural labor when they work at an establishment which is not located at the site of the farming operations.

§ 1100.6 *Applicable to employers of a single employee.* Section 4001.16 of the general regulations is not applicable to agricultural labor and employers of agricultural labor are subject to the provisions of the Act, the general regulations, these regulations, or other orders, rulings, and regulations promulgated under the Act, irrespective of the number of employees which they employ.

§ 1100.7 *Specific wage ceiling regulations.* In accordance with the provisions of § 4001.7 of the general regulations, increases may be made in salary and wage payments to agricultural labor, so long as such payments are not more than \$2,400.00 per annum, without the prior approval of the Administrator. However, the Administrator has authority under the provisions of that section to determine that, with respect to areas, crops, classes of employers, or otherwise, such increases or payments may no longer be made without the approval of the Administrator. The Administrator has already exercised his authority under that section with respect to the wages and salaries of certain employees engaged in working upon particular crops in designated areas, by the issuance of specific wage ceiling regulations adapted to the particular crop and area. From time to time the Administrator may issue other specific wage ceiling regulations relating to particular areas, crops, classes of employers, or otherwise. Nothing in these regulations is to be taken as superseding or amending such specific wage ceiling regulations as have already been issued, and nothing in any specific wage ceiling regulation issued hereafter shall be taken to supersede or amend these regulations unless so specifically stated in the specific wage ceiling regulation.

§ 1100.8 *Procedure for recommending establishment of wage ceiling.* Whenever it is directed by the Administrator or the Director, a wage board shall, and upon its own initiative may, hold a public hearing, for the purpose of aiding the Administrator in the establishment of specific wage ceiling regulations described in § 1100.7 hereof. For the purpose of such hearings a member of the staff of the Office of Labor, sitting as a non-voting member of the board, may be appointed. The board shall give public notice of such hearing at least seven days prior to the hearing. Such public notice shall be given by posting in prominent places in the area to be affected, and by publication in local newspapers of general circulation. The hearing shall be conducted by the full board with the chairman or acting chairman presiding.

The hearing shall be informal. Testimony shall be taken concerning the type of work to be controlled, the exact areas to be subject to control, the crop or crops to be affected, the wage rates paid, and all related matters relative to the establishment of a wage ceiling. All interested persons may appear and testify. A transcript of the record shall be kept. The presiding officer shall open the hearing with a statement of its purpose and the rules which will govern. As soon as possible after the hearing is concluded, the board shall prepare its recommendations (which must be approved by at least a majority of the board) as to the type of employment, wage rates to be paid, crop or crops to be affected, the extent of the area to be subject to control, and other related matters, and forward the report together with the transcript of the hearing to the Administrator. Neither the testimony received nor the recommendations of the board are binding upon the Administrator in establishing a specific wage ceiling regulation. Any interested person may file a petition for reconsideration of a specific wage ceiling regulation with the wage board administering the regulation or with the Administrator. If such petition is filed with a wage board, such board shall forward the petition together with its recommendations to the Administrator.

§ 1100.9 *Salary or wage increases requiring approval.* Section 4001.7 of the general regulations provides that salaries or wages of agricultural labor may be increased up to \$2,400.00 without approval, unless the Administrator has issued a specific wage ceiling regulation as described in § 1100.7 hereof. That section of the general regulations provides that the phrase "\$2,400.00 per annum" shall mean \$200.00 a month or the equivalent weekly, hourly, piece work rate or comparable basis, except that in individual cases salary or wage payments may be more than \$200.00 a month or the equivalent rate for not exceeding sixty days in any one year, if the aggregate wage or salary payments to the laborer from all sources of employment as an agricultural laborer are not more than \$2,400.00 for that year.

However, no increase in salary or wage payments may be made to employees engaged in agricultural labor who, at the effective date of this regulation, received such payments in the amount of \$2,400.00 per annum or more, or when the effect of the increase will be to increase salary or wage payments to more than \$2,400.00 per annum, without the prior approval of the Administrator. It makes no difference whether the salary or wage rate increase is accomplished by salary or wage increases *per se*, or by means of bonuses or other forms of additional compensation. All such payments which will have the effect of raising the earnings of an employee who earns \$2,400.00 per annum or more, or of raising the earnings of the employee to more than \$2,400.00 per annum, must be approved to be lawful.

Payment for overtime which will have the effect of increasing the salary or wage payment where an employee already earns \$2,400.00 per annum or more, or

which will have the effect of increasing the salary or wage payment of an employee who earns less than \$2,400.00 per annum, to more than \$2,400.00 per annum or its equivalent rate, will constitute a salary or wage increase, and thus will require the approval of the Administrator unless prior to the date of issuance of these regulations the practice of the employer has been to pay for overtime, and the rate and number of overtime hours has not been changed.

When a specific wage ceiling regulation relating to an area, crop, class of employer, or otherwise, is issued, as described in § 1100.7 hereof, no payments above the rates described in such specific regulation may be made without the prior approval of the Administrator: *Provided*, That, if an employer was paying a particular employee doing the same type of work at a higher wage or salary rate between January 1, 1942 and September 15, 1942, such employer may pay such employee at the wage or salary rate paid during that period. Payments may be made by those affected, up to and including the rates prescribed by such specific wage ceiling regulations, without the approval of the Administrator. Except in those instances where a lower rate has been established by a specific wage ceiling regulation, no approval is required to increase salary or wage payments to agricultural labor up to \$2,400.00 per annum.

The existence of prior contracts for salary or wage increases or payments will not justify increases or payments without the prior approval of the Administrator where such approval is required by these regulations or by any specific wage ceiling regulation.

Any increases in wage or salary payments will be in contravention of the act, if made without approval. The increase will be lawful only from the date specified in the approval.

**§ 1100.10 How approval obtained.** Approval for an increase in salary or wage payments when the employee, prior to the proposed increase, is receiving such payments in the amount of \$2,400.00 per annum or more, or when the effect of the proposed revision will be to increase such payments to more than \$2,400.00 per annum, may be sought by sending an application for the approval of such increase to the Director, Office of Labor, War Food Administration, Washington, D. C. The burden of justifying an increase in salary or wage payments shall in every instance be upon the employer seeking to make such increase. Increases in such salary or wage payments will not be approved except in the following cases:

(a) Such adjustments as may be deemed proper by the Administrator and have not heretofore been made to compensate in accordance with the "Little Steel" formula as heretofore defined by the National War Labor Board, for the rise in the cost of living between January 1, 1941 and May 1, 1942.

(b) Salary and wage adjustment clearly necessary to adjust salaries or wages up to the minimum of the tested and going rates paid for the same work in the same or most nearly comparable areas in the same labor market, except in

rare and unusual cases in which the critical needs of agricultural war production require the setting of a salary or wage at some point above the minimum of the going salary or wage bracket.

(c) Reasonable adjustments may be made with the approval of the Administrator in case of promotions, reclassifications, merit increases, and incentive payments: *Provided*, That such adjustments do not increase the level of production costs appreciably or furnish a basis either to increase prices or to resist otherwise justifiable reductions in prices.

**§ 1100.11 Limitation on effect of increases.** No increase in salary or wage payments which requires the approval of the Administrator shall furnish the basis either to increase prices or to resist otherwise justifiable reductions in prices, or furnish the basis for further wage or salary increases.

**§ 1100.12 Salary or wage decreases.** In the case of salary or wage payments existing as of the time of the issuance of these regulations, by means of which an employee is paid \$5,000.00 or less per annum for any particular work, the general rule is that no decrease can be made by an employer in such salary or wage payment below the highest salary or wage rate paid for such work in the local area between January 1, 1942, and September 15, 1942. A decrease may be permitted, however, with the approval of the Administrator, in order to correct a gross inequity in any case, or to aid in the effective prosecution of the war. Where such decrease is permitted, the salary or wage rate may be reduced below the highest salary or wage rate paid for the work in question between January 1, 1942, and September 15, 1942. Except as otherwise provided in this section, any decrease in such salary or wage rate shall be considered in contravention of the Act if it is made prior to the approval thereof by the Administrator. Except as may be otherwise provided from time to time by the Administrator, an application for approval of any salary or wage decrease shall be filed in the same manner as in the case of an application for approval of a salary or wage increase. See § 1100.10.

The Administrator's approval is not required, for example, in the following cases where salary or wage decreases are made:

(a) The new salary or wage rate does not fall below the highest salary or wage rate existing between January 1, 1942, and September 15, 1942, for the particular work in question, or for the same or comparable work in the local area.

(b) An employee has been demoted to a lower position than that filled by him between January 1, 1942, and September 15, 1942, and the salary or wage rate for such lower position is not less than the highest salary or wage rate existing for that position during the same period.

(c) An employee has been relieved of specific duties and responsibilities.

A disparity between salaries and wages paid by a particular employer and those paid by employers generally in the local area does not necessarily constitute justification for a decrease in salary or wage rates paid by such employer. The words

"for any particular work" in this § 1100.12 refer to the particular work of the particular employee and not to a particular type of work.

If a specific wage ceiling regulation as described in § 1100.7 hereof has been issued which establishes a lower salary or wage rate than that which an affected employee is receiving, by contract or otherwise, the salary or wage payments of the employee must be decreased to the salary or wage rate established by the specific wage ceiling regulation, unless an employer was paying a particular employee doing the same type of work higher wages or salary payments between January 1, 1942, and September 15, 1942, in which event the employee's payments must be decreased to those received during that period. No approval is required for such decreases.

**§ 1100.13 Scope of regulations—(a) Geographical.** The provisions of these regulations shall not apply to salaries or wages in any territory or possession of the United States.

(b) *Services in foreign countries.* The provisions of these regulations shall not be applicable in the case of any individual employer resident in the United States or any territory or possession thereof, or of a corporate employer organized under the laws of the United States or any State, territory or possession, with respect to salaries or wages paid by such employers to employees for service rendered exclusively in foreign countries.

(c) *Foreign employers.* The provisions of these regulations shall not be applicable in the case of nonresident foreign employers, except that if any salary or wage is paid to any employee residing in the United States, payment of such salary or wage is subject to all the provisions of these regulations.

**§ 1100.14 Conclusiveness of determination.** (a) Any determination of the Administrator that a salary or wage payment is in contravention of the Act is conclusive in every respect upon all executive departments and agencies of the Federal Government for the following purposes:

(1) Determining costs or expenses of any employer for the purpose of any law or regulation, either heretofore or hereafter enacted or promulgated, including the Emergency Price Control Act of 1942, or any maximum price regulation thereunder.

(2) Calculating deductions under the revenue laws of the United States.

(3) Determining costs or expenses under any contract made by or on behalf of the United States.

(b) Any such determination of the Administrator is final and not subject to review by The Tax Court of the United States or by any court in any civil proceedings. Nothing herein is intended, however, to deny the right of any employer or employee to contest in The Tax Court of the United States or in any court of competent jurisdiction the validity of:

(1) Any provision of these regulations on the ground that such provision is not authorized by law, or

(2) Any action taken or determination made under these regulations, on the

ground that such action or determination is not authorized, or has not been taken or made in a manner required, by law.

**§ 1100.15. Effect of unlawful payments—(a) Amounts disregarded.** Section 5 (a) of the Act provides in effect that the President shall prescribe the extent to which any salary or wage payments made in contravention of regulations promulgated under the Act shall be disregarded by executive departments and other governmental agencies in determining the costs or expenses of any employer for the purpose of any other law or regulation. Pursuant to § 4001.6 of the general regulations, in any case where salary or wage payments are determined by the Administrator to have been made in contravention of the Act, the entire amount of such payments is to be disregarded by all executive departments and all other agencies of the Federal Government for the purposes of:

(1) Determining costs or expenses of any employer for the purpose of any law or regulation either heretofore or hereafter enacted or promulgated, including the Emergency Price Control Act of 1942 or any maximum price regulation thereunder.

(2) Calculating deductions under the revenue laws of the United States.

(3) Determining costs or expenses under any contract made by or on behalf of the United States.

A payment in contravention of the Act may be disregarded for more than one of the foregoing purposes.

(b) *Criminal penalties.* Section 5 (a) of the act provides in substance that no employer shall pay, and no employee shall receive, any salaries or wages in contravention of the regulations promulgated by the President under the act. Section 11 of the act provides that any person whether an employer or employee who willfully violates any provision of the act, or any regulations promulgated thereunder, shall be subject upon conviction, to a fine of not more than \$1,000.00, or to imprisonment for not more than one year, or to both such fine and imprisonment.

**§ 1100.16 Determination of violations.** Determination by the Administrator that a salary or wage payment is in contravention of the act so as to have the effect specified in §§ 1100.14 and 1100.15 hereof, shall be made in the following manner:

All alleged violations will be handled by the Director, for those States for which no State WFA Wage Board has been established, and by the State WFA Wage Board for those States for which State WFA Wage Boards have been established.

(a) *Preliminary investigation.* Preliminary investigations of all wage or salary payments alleged to be unlawful shall be made by representatives of the Administrator. If the case is one to be handled by the Director, the report of the investigation shall be submitted to the Associate Solicitor in Charge of Food Production and Commodity Credit for consideration. If the case is one to be handled by a State WFA Wage Board, the report of investigation shall be submitted to the Regional Attorney, Department of Agriculture, within whose region the State involved lies, for consideration.

The Associate Solicitor shall forward such reports as he receives, with his recommendations, to the Director. The Regional Attorneys shall forward such reports as they receive, with their recommendations, to the Board which has jurisdiction over the alleged violation. If, after consideration of the report and the recommendations, the Director or the Board, as the case may be, is of the opinion that there is reasonable cause to believe that a violation has occurred, the Director or the Board, as the case may be, shall request the alleged violator to appear at a hearing before the Director or the Board, as the case may be: *Provided, however,* That the Director may designate that a hearing to be held before him, shall be held before a person authorized to act as an examiner, presiding officer, or referee, by the designation, issued October 25, 1943, entitled "Designation of Persons to Hold Hearings, to Sign and Issue Subpoenas, and to Administer Oaths and Affirmations" (8 F.R. 14592). In the event that the Director designates that the hearing shall be conducted by such an authorized person, such a person shall take all steps required by this section for the holding of hearings, and shall forward the record, together with his recommendation, to the Director.

(b) *Notice.* Notice of the hearing shall be served on the alleged violator not less than ten (10) days prior to the date of the hearing. Such notice shall set forth (1) the time and place of the hearing, (2) a concise statement of the allegations of fact which constitute a basis for the proceeding, (3) a statement informing the alleged violator that he may be represented by counsel at the hearing and will be given full opportunity to present written or oral testimony and to examine and cross-examine witnesses on all matters relating to the charge, and (4) a statement informing the alleged violator that failure to appear will not preclude the Director or the Board, as the case may be, from taking testimony, receiving proof, and making findings and recommendations with respect to the charges.

(c) *Conduct of the hearing.* The rules of evidence prevailing in courts of law and equity shall not be controlling. The test of admissibility shall be the reliability, relevancy and probative force of the evidence offered.

All testimony shall be given under oath and a written transcript of the hearing shall be made.

The presiding officer shall afford reasonable opportunity for cross-examination of the witnesses. At the close of the hearing, the presiding officer may, at his discretion, allow a short period for the presentation of oral argument, or for a summary of the facts disclosed at the hearing and, if he deems it advisable, may allow briefs to be filed within a period prescribed by him, not to exceed five (5) days.

(d) *Findings and recommendations.* Upon conclusion of the hearing, if the Director, or a majority of the Board, as the case may be, is satisfied that the charge has been sustained by a preponderance of the evidence, the Director or the Board, as the case may be, shall

find accordingly. Findings of fact and recommendations shall be prepared, subscribed by the Director, or by concurring members of the Board, as the case may be, and submitted to the Administrator, together with a transcript of the proceedings. A copy of the findings of fact and recommendations shall be served on the alleged violator. After consideration of the findings and recommendations, the Administrator shall determine whether the alleged violator has made salary or wage payments in contravention of the Act. A copy of such determination shall be served by registered mail on the alleged violator.

(e) *Petition for reconsideration.* Within five (5) days after receipt of a copy of the Administrator's determination, the alleged violator may file with the War Food Administrator, Washington, D. C., a petition for reconsideration of such determination. Such petition may be accompanied by any affidavits or briefs which the alleged violator desires to submit. Within a reasonable time after receiving such a request for reconsideration, the Administrator shall affirm, modify, or reverse his original determination, or direct a further hearing to be held. Such further hearing shall follow the procedure prescribed for the original hearing. The determination of the Administrator shall be final and shall not be subject to review by the Tax Court of the United States or by any court in any civil proceedings as set forth in § 1100.15 (b) hereof.

Issued this 17th day of January 1944.

MARVIN JONES,  
War Food Administrator.

## TITLE 32—NATIONAL DEFENSE

### Chapter IX—War Production Board

#### Subchapter A—General Provisions

#### PART 903—DELEGATIONS OF AUTHORITY

##### [Directive 34]

#### MAGNESIUM PRODUCT DELIVERIES

The following directive is issued pursuant to authority vested in me by Executive Order No. 9024, of January 16, 1942, Executive Order No. 9125, of April 7, 1943, and War Production Board Regulation No. 1, as amended December 31, 1943, and in order to facilitate the distribution of magnesium products to the manufacturers of aircraft and aircraft equipment whose production is subject to supervision by the Aircraft Scheduling Unit of the Aircraft Resources Control Office.

**§ 903.47 Directive No. 34—(a) Purpose.** General Preference Order M-2-b as amended the 13th day of January, 1944, provides that no person shall deliver or accept delivery of magnesium products unless his action has been specifically authorized in writing by the War Production Board, or, in the case of certain deliveries of magnesium products for aircraft purposes, by the Aircraft Scheduling Unit of the Aircraft Resources Control Office. The purpose of this delegation is to fix the field in which the Air-

craft Scheduling Unit of the Aircraft Resources Control Office may authorize the delivery or acceptance of delivery of magnesium products under Order M-2-b.

(b) *Delegation of authority.* The Aircraft Scheduling Unit of the Aircraft Resources Control Office is hereby delegated the power to authorize in its own name the delivery and acceptance of delivery of magnesium products when the person accepting delivery is to use the magnesium products in the manufacture of aircraft or parts of aircraft or in the manufacture of aircraft equipment or parts of aircraft equipment. However, this delegation does not cover deliveries to a manufacturer of any equipment, or deliveries to a manufacturer of parts for equipment, if the equipment is ordered by any Branch of the Army, other than the Air Forces, or by any Bureau of the Navy, other than the Bureau of Aeronautics. Furthermore, the delegation granted hereby to the Aircraft Scheduling Unit is not exclusive, and the War Production Board retains the power to authorize the delivery and acceptance of delivery of magnesium products even in those cases in which the Aircraft Scheduling Unit also has that power.

(c) *Definitions.* For the purpose of this directive, the term "magnesium products" means castings, extrusions (rod and bar, tubing or shapes), sheet, strip, plate, and forgings, the principal ingredient of which by weight is the element magnesium.

#### PART 3291—CONSUMERS DURABLE GOODS<sup>1</sup> [General Limitation Order L-260, as Amended Jan. 14, 1944]

##### FURNITURE

The fulfillment of requirements for the defense of the United States has cre-

ated a shortage in the supply of iron and steel and other critical materials for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3291.65<sup>1</sup>. *General Limitation Order L-260—(a) Definitions.* For the purposes of this order:

(1) "Furniture" means all items commonly classified as furniture and including all items contained on Schedule A attached to this order, as amended from time to time. It shall not include items listed on Schedule B attached to this order, as amended from time to time.

(2) "Essential metal parts" means nails, brads, tacks, screws, bolts, nuts, hanger bolts, rivets, staples, washers and burrs, button molds, hinges (except hinge mechanisms for sofa beds) catches, strapping, top fasteners, drawer clips, shelf supports, domes and glides, bed fasteners, bed packing hooks, corrugated fasteners, upholstery springs, table locks, table cleats, mirror clips, angle braces, caps for leg tops of folding chairs, expansion shells, operating hardware for venetian blinds and venetian blind center supports for head rails and tilt rails.

(3) "Non-essential metal parts" means any hardware or parts containing any metal specifically intended for incorporation into furniture other than essential metal parts.

(4) "Metal parts manufacturer" means any person engaged in the business of manufacturing or assembling hardware or metal parts specifically intended for incorporation into furniture, whether or not he also manufactures furniture.

(5) "Furniture manufacturer" means any person engaged in the business of manufacturing or assembling furniture, whether or not he also manufactures metal parts for furniture.

(6) "Pattern" means any piece of furniture having its own identification mark and selling price, except that for the purposes of this order, two or more pieces of furniture identical in every respect other than color, finishing materials, fabric, leather, or other outer covering or cover but having the same selling price shall be considered to be one pattern. Two or more pieces of furniture identical in every respect other than in their method of joining or their content of essential metal parts, shall be considered to be one pattern, whether or not they have the same selling prices. Two or more pieces of furniture identical in every respect but cut in different woods or veneers or containing different trims other than handles, shall be considered two or more patterns regardless of whether they carry identical identification marks and selling prices. Similarly, a suite of furniture of two or more different pieces shall constitute two or more patterns.

(7) "Preferred order" means any order, contract, or subcontract placed by or for the account of the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, or the Federal Public Housing Authority.

(8) "Cost value" means cost computed in accordance with the method of accounting consistently used by a furniture

manufacturer for bookkeeping and financial statement purposes.

(9) "Pattern base period" means the month of September, 1941.

(10) "Metal parts base period" means the calendar year 1941, except that in the case of a furniture manufacturer whose fiscal year did not end on December 31, 1941, it means his fiscal year ending at any time between June 1, 1941 and May 31, 1942, inclusive.

(11) "Consume" when applied to essential metal parts means to use such parts in the production or packing of furniture or to supply such parts with furniture shipped in knock-down form.

(b) *Restrictions on production and acquisition of non-essential metal parts.*

(1) On and after March 1, 1943, no metal parts manufacturer shall accept delivery of any iron or steel intended for the fabrication of non-essential metal parts.

(2) On and after March 26, 1943, no metal parts manufacturer shall process, fabricate, work on or assemble any non-essential metal parts.

(3) On and after April 12, 1943, no furniture manufacturer shall accept delivery of any non-essential metal parts.

(c) *Restrictions on essential metal parts.* (1) During the period beginning February 23, 1943 and ending June 30, 1943, no furniture manufacturer shall consume in the production of furniture (other than for preferred orders) essential metal parts having a total cost value of more than 25% of the total cost value of essential metal parts consumed by him in the production of furniture during his metal parts base period (other than for preferred orders).

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[General Conservation Order L-250, as Amended Jan. 15, 1944]

ELECTRIC MOTOR CONTROLLERS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials and facilities used in the manufacture of electric motor controllers for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1226.97 *General Conservation Order L-250—(a) Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Manufacturer" means any enterprise to the extent that it is engaged in the business of manufacturing controllers, and includes sales and distribution outlets and warehouses controlled by any such person.

(3) "Manufacture" means the production, fabrication or assembly of any controller, or of any part thereof.

(4) "Controller" means any new device or equipment used to stop, start or regulate electric motors or to protect electric motors against overheating or overloading; including manual and magnetic starters and controllers, contactors and relays, speed regulators, drum switches, shunt or series coil type thermal or magnetic overload relays (except switch gear induction type relays), motor field rheostats, and solenoid, thrustor and torque motor brakes; and related pilot devices such as push button stations, and limit, pressure and float switches. The term does not include wiring devices or snap switches rated 15 amperes or less; safety switches; fuses; air circuit breakers; oil circuit breakers; domestic type thermostats, refrigeration controls or furnace controls; or any replacement part for a passenger automobile, truck, truck trailer, passenger carrier, motorized fire equipment, or off-the-highway motor vehicle, as defined in Limitation Order L-158, as amended.

(5) "Commercial" as applied to a size, type or rating of a product means any size, type or rating thereof heretofore normally produced by any producer as a standard item, for his inventory or for general distribution, and not in fulfillment of special orders.

(b) *Restrictions on orders.* No manufacturer shall accept any order for any controller or part thereof, unless the order bears a preference rating of AA-5 or higher. The restrictions of this paragraph shall not apply to any order for any controllers, or parts thereof, for use on elevators and manufactured by a person engaged primarily in the production of elevators.

(c) *Restrictions on manufacture.* (1) Except as otherwise provided herein, on

and after March 1, 1943, no manufacturer shall accept any order, or commence manufacture in fulfillment of any order, for any controller or part thereof, unless such controller or part is to be manufactured in accordance with the standards prescribed in subparagraph (2) below. On and after May 14, 1943, no manufacturer shall deliver any controller or part thereof, unless it has been manufactured in accordance with such standards. The limitations of this subparagraph shall not apply to any order for, or delivery of any controller or part which was completely fabricated on or before February 13, 1943.

(2) Subject to the other provisions of this paragraph, all controllers and parts thereof shall be manufactured in compliance with the following requirements and shall be otherwise of the simplest practicable design:

(i) All control circuit wiring shall follow a straight line between terminals except where, and to the extent that deviation therefrom is necessary to avoid electrical or mechanical interference.

(ii) Control circuit wiring carrying 15 amperes or less shall have no greater copper content than size No. 14 AWG wire; except when and to the extent that a larger copper content is required to avoid abnormal voltage drop or heating.

(iii) All buses, connecting straps, and terminals, except for oil immersed controllers, shall be of the smallest commercial size copper necessary to prevent the bus, strap or terminal from exceeding a temperature rise of 50° over 40° C. ambient temperature when carrying the full load current of the motor with which the controller will be used.

(iv) No control circuit wiring insulation between terminals on a controller shall be of more than one color for each voltage.

(v) No controller of a type listed in Appendix A, for a single motor, shall include a contactor having an ampere rating in excess of the maximum rating prescribed in the appendix for such controller; except where operation of a general purpose controller, as covered by Table No. 1 or Table No. 4 of Appendix A requires repeated opening of stalled motor current (such as plug-stop or jogging (inching) duty) at a rate in excess of 5 per minute.

(vi) No general purpose controller, for a single motor, of the type listed below rated 600 volts or less shall include control circuit fuses or a control circuit disconnect switch:

(a) Alternating current magnetic across the line type starters;

(b) Alternating current magnetic reduced voltage autotransformer, reactor, impedance, or primary resistance type starters;

(c) Alternating current combination across the line starters and thermal or magnetic circuit breakers;

(d) Alternating current combination across the line starters and motor circuit switches.

(e) Direct current reduced voltage controllers.

(f) Direct current, reduced voltage controllers with motor circuit switches or thermal or magnetic circuit breakers.

(vii) No general purpose controller, for a single motor, of the types listed below rated 600 volts or less shall include a control transformer unless master switches or pilot devices of the necessary rating are not obtainable as a commercial product:

(a) Alternating current magnetic across the line type starters;

(b) Alternating current magnetic reduced voltage autotransformer, reactor, impedance, or primary resistance type starters;

(c) Alternating current combination across the line starters and thermal or magnetic circuit breakers;

(d) Alternating current combination across the line starters and motor circuit switches.

(viii) No alternating current controller of the reduced voltage autotransformer, reactor, impedance, or primary resistance type shall be provided for a polyphase induction motor of 20 horsepower or less, rated 600 volts or less, except that the limitations of this paragraph shall not apply to a controller for an elevator, hoist or crane.

(ix) No controller or control equipment of the types listed below, rated 600 volts or less, shall be provided with a floor mounting type steel enclosing case or a floor mounting type steel cabinet:

(a) Magnetic controller for main mill or auxiliary motors, for a metal rolling mill (mill duty controllers);

(b) Magnetic controllers for cab operated cranes;

(c) Protective panels for cranes;

(d) Magnetic or manual controllers for fire pumps;

(e) Magnetic controllers for elevators;

(f) Magnetic controllers for skip hoists;

(g) Magnetic, manual, or combination magnetic and manual controller for a single synchronous motor;

(h) Magnetic controllers of the across-the-line or reduced voltage type for a single motor;

(i) Resistor banks for secondary or armature control, mounted separately from the controller; except where forced draft or air circulation is required to meet the temperature limitation.

The limitations of this subparagraph (c) (2) (ix) shall not apply to any controller or control equipment used below the level of the ground in a mine or quarry; or to any controller to be used in a Class 1 hazardous location as defined in paragraph 5005, article 500, chapter 5 of the National Electrical Code, approved by the American Standards Association, August 7, 1940, or in a Class 2 hazardous location as defined in paragraph 5006, article 500 of the above mentioned code; or to be used generally in an atmosphere which is corrosive, or which contains such quantities of metal particles, dust or fumes as to be destructive of an open type controller; nor shall such limitations apply in any case where the controller is to be installed permanently outdoors without other protection.

(x) No controller shall be supplied with built in test jacks or test receptacles.

(xi) No alternating current motor controller of less than 1,000 horsepower, and no direct current motor controller of 50 horsepower or less, shall include instruments, meters, potential transformers, or current transformers or shunts to be used for metering, mounted on the controller panel or enclosure; but this restriction shall not apply to controllers used to regulate a series of direct current motors driving a common load, nor to alternating current line ammeter and direct current field ammeter to be installed on synchronous motor controllers, nor to ampere hour meters to be installed on industrial truck or locomotive control panels.

(xii) No aluminum, copper, chromium, nickel, cadmium, or alloys or finishes thereof shall be used in the manufacture of enclosing cases, name plates, identification plates or door handles for controllers.

(xiii) No stainless steel shall be used in the manufacture of any controller or part; except for resistance wire or ribbon or where necessary to provide non-magnetic properties required for operation or to prevent sticking or binding of moving parts.

(3) The limitations of paragraph (c) shall not apply to any controller delivered for use aboard any ship owned or operated by the Army, Navy, Maritime Commission or War Shipping Administration.

(d) *Miscellaneous provisions*—  
(1) *Records and reports.* All persons affected by this order shall keep and preserve, for not less than two years, accurate and complete records concerning inventories, production and sales. All such persons shall execute and file with the War Production Board, such reports and questionnaires as the Board shall request from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Appeals.* Any appeal from the provisions of this order may be filed by either the manufacturer or the purchaser or proposed purchaser. Any such appeal shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. On appeals from the provisions of paragraph (c) (2) (viii), the letter shall include the following data:

- (i) Horsepower, voltage, frequency and phase of the motor to be controlled;
- (ii) The kva rating of the transformer bank supplying the motor;

#### INTERPRETATION 1

Paragraph (c) (2) (ix) prohibits the use of floor mounting type steel enclosing cases or steel cabinets for various kinds of controllers, with certain exceptions. These exceptions include cases for use in an atmosphere which is corrosive or which contains metal particles, dust, or fumes, or for use out-of-doors without other protection.

A question has arisen as to whether Type I (general purpose) and Type IA (semi-dust tight) enclosing cases are included within the above mentioned exception. Since Types I and IA cases are not suitable for protection against conditions of the kind which form the basis for the above mentioned exemptions, such equipment is not deemed to be within the exception regardless of the use to which the purchaser alleges he wishes to put the equipment. (Issued June 8, 1943.)

#### INTERPRETATION 2

Subparagraph (c) (3) of § 1228.97 (General Conservation Order L-250) provides that the limitations of paragraph (c) shall not apply to any controller delivered for use aboard any ship owned or operated by the Army, Navy, Maritime Commission or War Shipping Administration. A question has been raised as to the proper classification of floating dry docks. It was contemplated that floating dry docks produced for service anywhere would be considered ships within the meaning of the paragraph. (Issued June 15, 1943.)

#### INTERPRETATION 3

The question has been raised as to whether the word "controller", as defined in paragraph (a) (4), includes a controller which is incorporated into a larger assembly, as a component part of the assembly.

The word "controller", as thus used, includes any controller (except those which are specifically excluded in the definition), regardless of whether it is assembled with other apparatus, or mounted individually. (Issued Nov. 1, 1943.)

(e) *Increase, decrease and transfer of quotas*. The War Production Board may, by specific written directions, issued to any manufacturer or class of manufacturers, increase or decrease any quota established on this schedule and may transfer any portions of the quota between manufacturers, taking into consideration the amount of materials to be used, the need for particular items at the time required, the labor and transportation situation in the manufacturing areas involved, the inability of any manufacturer to manufacture his quota, and such other factors as may be relevant.

(f) *Applicability of Limitation Order L-292*. Except as otherwise indicated herein, this schedule is subject to all applicable provisions of Limitation Order L-292, as amended from time to time.

[Supplementary General Limitation Order  
L-23-c as Amended Jan. 15, 1944]

#### DOMESTIC COOKING APPLIANCES AND DOMESTIC HEATING STOVES

§ 3288.66 *Supplementary General Limitation Order No. L-23-c—(a) Definitions.* For the purposes of this order:

(1) "Domestic cooking appliances" means gas ranges, cook stoves, and hot plates for household use; coal and wood ranges and cook stoves (including laundry stoves except water-jacketed and permanently built-in coil types) for household use; fuel oil ranges, cook stoves, table stoves and hot plates for household use; combination ranges (including dual oven types, ranges with built-in kitchen heaters, and bungalow types) except electrical, for household use; camp and trailer stoves for cooking purposes; fuel oil conversion range burners; and drum and portable ovens.

(2) "Domestic heating stoves" means any above the floor devices (except electric) for the direct heating of the space in and adjacent to that in which the device is located; designed for use without heat distribution pipes or ducts, and includes, but is not limited to, circulating, radiant and portable heaters and trailer and caboose stoves. Domestic heating stoves shall not include floor or wall furnaces.

(3) "New domestic cooking appliances and domestic heating stoves" means any such appliances or stoves which have never been used by an ultimate consumer.

(4) "Accessories" means aprons, thermostats, high closets, high shelves, clocks, broiler pans other than iron or steel, storage compartments, thermometers, and any other instruments, attachments, or appurtenances (except top-burner lighters) for domestic cooking appliances not essential to any of the following three major cooking operations: top burner cooking, oven baking and oven broiling.

(5) "Steel coal or wood range or cook stove" means a coal or wood range or cook stove in which the total weight of steel is 20% or more of the total weight of metal of the unit.

(6) "Fuel oil" means any liquid petroleum product commonly known as fuel oil, including Numbers 1, 2, 3, 4, 5, and 6, Bunker C, Diesel oil, kerosene, range oil, gas oil or any other liquid petroleum product used for the same purposes as the above designated grades.

(7) "Base period" means the 12 months period from July 1, 1940 to June 30, 1941.

(8) "Factory sales value" means the aggregate value of shipments of domestic cooking appliances and domestic heating stoves.

(9) "Class A producers" means those manufacturers of domestic cooking appliances and/or domestic heating stoves whose factory sales value for the twelve months ending June 30, 1941, including both domestic sales and exports, was \$2,000,000 or more.

(10) "Class B producers" means those manufacturers of domestic cooking appliances and/or domestic heating stoves whose factory sales value for the twelve months ending June 30, 1941, including both domestic sales and exports, was less than \$2,000,000 and who are located in Labor Area Group I, as defined from time to time by the War Manpower Commission.

(11) "Class C producers" means those manufacturers of domestic cooking appliances and/or domestic heating stoves whose factory sales value for the twelve months ending June 30, 1941, including both domestic sales and exports, was less than \$2,000,000 and who are not located in Labor Area Group I, as defined from time to time by the War Manpower Commission.

(12) "Producer" means any person who during the base period manufactured, fabricated or assembled any domestic cooking appliances or domestic heating stoves.

(b) *General restrictions.* (1) No person except a producer shall manufacture, fabricate or assemble any domestic cooking appliances or any domestic heating stoves.

(2) No person shall manufacture, fabricate or assemble any domestic cooking appliance or domestic heating stove except from materials in inventory on July 29, 1943, or the acquisition and use of which is specifically authorized from time to time by the War Production Board under the Controlled Materials Plan or otherwise. In authorizing the manufacture of domestic cooking appliances and domestic heating stoves the War Production Board will, in general, authorize Class C producers to produce the types they normally fabricate up to 100% of their base period unit production before authorizing the manufacture of any of the same types by Class A and Class B producers; *Provided, however*, That during the period from July 1, 1943 to June 30, 1944 the total number of units of each type authorized for production by all producers will not exceed the percentages of total unit production specified in Schedule A attached.

(3) No producer shall manufacture, fabricate or assemble any domestic cooking appliances (other than combination ranges) or domestic heating stoves, except in those fuel types which he manufactured, fabricated or assembled during the base period; but this provision shall not apply to such appliances or stoves manufactured, fabricated or assembled

for delivery to or for the account of the Army, Navy, Maritime Commission, or War Shipping Administration of the United States, or for use in a building or project authorized under Preference Rating Order P-55-b or rated under Preference Rating Order P-55 or any Order in the P-19 series.

(4) No producer shall manufacture, fabricate, or assemble any domestic cooking appliances, except those listed in Schedule B attached, and then only in accordance with the maximum weights, numbers of models or sizes and description of types set forth in such table; and no person shall manufacture, fabricate or assemble any accessories or incorporate them into any domestic cooking appliances.

(6) No producer shall

(i) Use any iron or steel in the production of cover tops or lids to cover the cooking surfaces of domestic cooking appliances when not in use; or

(ii) Produce or assemble any domestic cooking appliances equipped with such cover tops or lids containing any iron or steel; or

(iii) Use any "bright work", "bright finish", metal finish, or trim containing copper, nickel, chrome, or aluminum or other alloy in the production of domestic cooking appliances or domestic heating stoves; or

(iv) Use any alloy steel in the production of domestic cooking appliances or domestic heating stoves except for valves.

(7) No producer shall substitute steel for cast iron in the manufacture, fabrication of assembly of any model of domestic cooking appliance or domestic heating stove which he manufactured, fabricated or assembled prior to July 29, 1943.

(8) No producer shall manufacture, fabricate or assemble any steel coal or wood range or cook stove who did not manufacture, fabricate or assemble such ranges or stoves during the period July 1, 1940 to July 29, 1943.

(c) *Exceptions.* (1) Nothing in paragraph (b) (4) or (b) (5) shall restrict the manufacture, fabrication or assembly of trailer or caboose stoves.

(g) *Applicability of priorities regulations.* All persons and transactions affected by this order are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(h) *Applicability of other orders.* Insofar as any other orders heretofore or hereafter issued by the War Production Board limit the use of any material in the production of domestic cooking appliances or domestic heating stoves to a greater extent than the restrictions imposed by this order, the restrictions of such other order shall govern, unless otherwise specified therein.

(i) *Appeals.* Any appeal from the provisions of this order shall be filed on Form WPB-1477 (formerly PD-500) with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(k) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 15th day of January 1944.

#### PART 3288—PLUMBING AND HEATING EQUIPMENT

[General Limitation Order L-79, as Amended  
Jan. 15, 1944]

Section 3288.31 General Limitation  
Order L-79, is amended to read as fol-  
lows:

§ 3288.31 *General Limitation Order  
L-79—(a) What this order does.* The  
purpose of this order is to conserve the

supply and direct the distribution of  
plumbing, cooking and heating equip-  
ment by preventing the sale of certain  
essential items on List A except for nec-  
essary replacements, or on rated orders.  
These are items, the production of which  
is restricted, and which can be made  
available to essential users only. The  
order provides a rating to enable sellers  
to get these items for necessary replace-  
ment. It permits other items of plumb-

ing and heating equipment to be bought by sellers on unrated orders without restriction but provides a preference rating to enable sellers to buy these non-restricted items when a rating is needed. No preference ratings are assigned to consumers and deliveries to consumers for replacement and repair do not have to be on rated orders. The order supersedes the previous version of L-79, as well as General Preference Order P-84.

(b) *Assignment of preference ratings:* Preference rating AA-3 is assigned to any seller to enable him to get the following:

(1) Equipment shown in List A, including repair parts.

(2) Repair parts only for items on List B, and repair parts for stoves rationed by the O. P. A. under Ration Order 9-A.

(3) All other equipment, material and parts which are used to supply, store and heat water, to remove waste matter and water-borne waste, to treat waste matter chemically, and to heat buildings, including electric heat controls. Any rating under this paragraph cannot be used, however, to get equipment specifically designed for industrial processing, fire protection, the production or transmission of power, or for use by a public utility, equipment using electricity as fuel, heat exchangers subject to L-172, fans and blowers as defined in L-280, steel or wrought iron pipe or steel sheets, or equipment specifically designed for refrigerating or dehumidifying, or portable items such as pans or sump pumps which are not designed to be built into or fastened to the building in which they are used. Directions will from time to time be issued specifying items which are subject to this paragraph and items which are excluded.

(c) *Exception.* No rating is assigned to any delivery to which a rating is assigned by CMP Regulation 9A.

(d) *Inventory restrictions on sellers.*

(1) A seller who is a repair man as defined in CMP Regulation 9A may not accept delivery of any item of parts or materials obtained by applying a rating under this order if his inventory of that item of parts or materials is or would by accepting delivery become larger than he needs to continue his repair and maintenance services for a 60-day period, according to his current method of operation. However, if the supply of any item which he has on hand is less than the permitted amount, he may accept delivery of the smallest commercial amount of that item which his distributor normally sells, even if that will increase his supply beyond the amount specified.

(2) A seller who is not a repair man as defined in CMP Regulation 9A is subject to the limitation of inventory prescribed in Order L-63.

(e) *Up-rating.* In the case of ratings applied or extended by sellers under Order P-84 prior to its revocation, deliveries may be re-rated in accordance with the provisions of Priorities Regulation No. 12. However, any person with whom such an order was placed is authorized to treat it as re-rated without requiring any notice or certificate to be furnished to him by the seller: *Provided*, That any manufacturer or seller who re-rates any orders

placed with him under this paragraph must so re-rate all orders placed with him which can be re-rated.

(f) *Restrictions on deliveries of items on List A.* No person may deliver or accept delivery of equipment included in List A of this order except:

(1) Equipment which has previously been used.

(2) Equipment which is delivered to fill a rated order.

(3) When the delivery is to a consumer for installation to replace existing equipment which is worn out, damaged beyond repair or destroyed, but not to replace useable equipment or to make a substitution which would provide more extensive facilities than are necessary to replace the part or parts worn out, damaged or destroyed.

(g) *When a consumer needs a preference rating and how he gets it.* Consumers are not assigned ratings by this order and will not need ratings unless they want to buy items on List A for purposes other than replacement. When a rating is needed, usually they can apply for ratings on Form WPB-1319.<sup>1</sup> However, if the material is to be used in new construction of a type which is restricted under Order L-41, the consumer must use the form specified in Schedule C of that order. Industries and government institutions may use CMP Regulations 5 and 5A ratings for repair parts and replacement items.

(h) *Consumer's certificates.* No seller may deliver an item on List A to fill a consumer's unrated order unless he obtains a certificate in substantially the following form:

I need the item included in this purchase to replace equipment worn out, damaged beyond repair, or destroyed. I will not use it to replace useable equipment or to make a substitution which would provide more extensive facilities than are necessary to replace the parts which are worn out, damaged, or destroyed.

Address of installation \_\_\_\_\_  
Consumer's signature \_\_\_\_\_  
Address \_\_\_\_\_

Any certification is a representation to the War Production Board as well as to the seller. No one may deliver relying on a certification being true if he knows or should know it is false, but anyone who reasonably relies on the truth of a certificate is not to be held responsible if it turns out to be false. No one shall make a false statement in a certification. Sellers shall retain certificates in their files for two years for inspection by WPB representatives.

(i) *Salvage.* No person may install equipment on List A for replacement unless he takes any replaced metal parts or equipment, not coated with a fused or nonmetallic surface, and arranges for its further use, or turns it in for salvage to any authorized scrap metal dealer within thirty days after the replacement.

<sup>1</sup> A revision of Form WPB-1319 for this purpose was in preparation on the date of issuance of the order. Until it is completed and approved, applications should be filed on Form WPB-2631, formerly PD-851. Use of this form for this purpose has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This requirement does not mean that the installer is entitled to take old equipment without the owner's consent or without crediting him with its value.

(j) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories and sales.

(k) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(l) *Violations and false statements.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment or both. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(m) *Appeals.* Any person affected by this order may appeal from its provisions by filing Form WPB 1477 (formerly PD-500) with a field office of the War Production Board.

(n) *Communications.* All reports to be filed and other communications concerning this order, except appeals, shall be addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., Ref: L-79.

(o) *Definitions.* For the purposes of this order:

(1) "Seller" means any person who buys plumbing, heating, or cooking equipment for resale, whether or not he makes the installation.

(2) "Consumer" means any person who buys plumbing, heating, or cooking equipment for installation or use on premises owned or occupied by him.

Issued this 15th day of January 1944.

Recording Secretary.

It includes, for example, cigarette, candy, chewing gum, nut, bulk and bottled beverage and food vending machines, photographic vending machines, sanitary napkin vending machines and drinking cup dispensers. It does not include automatic restaurants (so-called automats) or U. S. Postage stamp vending machines.

(2) "Manufacturer" means any person who produces or assembles any merchandise vending machines or parts for merchandise vending machines, or any person who produced or assembled any merchandise vending machines during the twelve month period ending June 30, 1941, whether or not he now produces any.

(3) "Deliver" means to lease, sell, or transfer.

(b) *Restrictions on production and delivery.* (1) No manufacturer shall produce or deliver any merchandise vending machines except sanitary napkin vending machines, which may only be produced according to a quota approved by the War Production Board on Form WPB-2719 (formerly PD-880).

(2) Each manufacturer who wishes to produce or deliver any of these sanitary napkin vending machines must file this form with the War Production Board on or before the 15th day of December, March, June and September according to the instructions accompanying that form. A manufacturer asking permission to produce or assemble sanitary napkin vending machines must file with his first application a letter stating the total number of sanitary napkin vending machines which he produced, assembled or delivered during the twelve month period ending June 30, 1941 and the location of his plant and of any other plants which will produce parts for those machines. If the manufacturer intends to produce or assemble in his own plant, he should state the estimated man hours which will be consumed in the production or assembly of each unit. If the manufacturer intends to have the machines produced for him by another manufacturer, he should state that fact and give the name and location of the other manufacturer.

(c) *Delivery of certain merchandise vending machines not covered.* This order does not restrict the delivery of any merchandise vending machines completely finished before January 15, 1944.

(d) *Reports.* Each manufacturer producing or delivering sanitary napkin vending machines must file, with the War Production Board, quarterly reports on Form WPB-2719 (formerly PD-880) on or before the 15th day of December, March, June and September, according to the instructions for filing that form.

(e) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment.

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(f) *Appeals.* Any appeal from the provisions of this order shall be filed on Form WPB-1477 (formerly PD-500) with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(g) *Applicability of other orders and regulations.* This order and all transactions affected by this order are subject to the applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of vending machines to a greater extent than does this order, the other order shall govern unless it states otherwise.

NOTE: The reporting provisions of this order have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

Issued this 15th day of January 1944.

(3) To "produce jewelry" means the performance of the last manufacturing or assembling operation on jewelry. It includes the repair of jewelry if the repair requires more karat gold or palladium (by weight) in combined total than 5 percent of the combined weight of karat gold and palladium in the jewelry being repaired. A manufacturer making such repair shall, for the purpose of paragraph (b), be deemed to have produced jewelry containing only the amount of karat gold and palladium he has added. It does not include the following: (i) the sizing of a ring for the ultimate consumer when material is removed or when material is added for the purpose of sizing alone; or (ii) the addition of one or more

(3) "Recovered acetic acid" means that acid which is removed from a manufacturing process in which that acid was used as a raw material whether introduced as acetic acid or acetic anhydride, or as a solvent or any other material, excluding acetic acid which is recirculated as such within the manufacturing process. By "removed" is meant removal for resale, conversion into acetic anhydride, or use in another manufacturing process in the same plant or separate plants.

(4) "Acetaldehyde" means acetaldehyde (acetic aldehyde or ethyl aldehyde) of any grade and from whatever source derived.

(5) "Producer" means any person who produces or imports acetic anhydride, acetic acid or acetaldehyde, and includes any person who has acetic anhydride, acetic acid or acetaldehyde produced for him pursuant to toll agreement.

(6) "Distributor" means any person who buys acetic anhydride, acetic acid or acetaldehyde for purposes of resale as such.

(7) "Supplier" means a producer or distributor.

(b) *Restrictions on deliveries.* (1) No supplier shall deliver acetic anhydride, acetic acid or acetaldehyde to any person unless specifically authorized in writing by War Production Board, in the normal case upon application filed pursuant to paragraph (e) hereof, except, however, that any supplier may, without authorization of War Production Board, resell but not export, a total amount not to exceed 5,000 pounds of each of the foregoing chemicals (acetic anhydride, acetic acid and acetaldehyde) in any calendar month.

(2) No person shall accept delivery in any calendar month from all suppliers of more than 27,000 pounds in the aggregate of any one of the three chemicals, acetic anhydride, acetic acid or acetaldehyde, except as specifically authorized in writing by War Production Board, in the normal case upon application filed pursuant to paragraph (f) (1) hereof. Acetic acid weight shall be calculated on a 100% acid basis.

(3) No person shall accept delivery in any calendar month from all suppliers of 27,000 pounds or less in the aggregate of any one of the three chemicals, acetic anhydride, acetic acid (100% basis) or

acetaldehyde, and no person shall place any such order for such delivery, unless and until he shall have furnished each supplier with a use certificate pursuant to paragraph (f) (2) hereof, but such certificate need not be furnished with respect to any one of the chemicals, acetic anhydride, acetic acid (100% basis) or acetaldehyde where the quantity of such chemical delivered or ordered for delivery in any calendar month from all suppliers is not more than 54 gallons.

(c) *Restrictions on use.* (1) No supplier shall use acetic anhydride, acetic acid or acetaldehyde except as specifically authorized or directed in writing by War Production Board, in the normal case upon application filed pursuant to paragraph (f) (1) hereof.

(i) Use, delivery or acceptance of delivery of acetic anhydride, acetic acid or acetaldehyde.

(ii) Production of acetic anhydride, acetic acid or acetaldehyde.

(2) War Production Board may issue to suppliers and other persons, other and different directions with respect to preparing and filing Forms WPB 2945 (formerly FD-600) and WPB 2947 (formerly PD-602) provided for in the paragraphs (e) and (f).

(e) *Applications by suppliers for authorization to deliver.* (1) Each supplier requiring authorization to make delivery of acetic anhydride, acetic acid or acetaldehyde during any calendar month to any person who has filed with him Form WPB 2945 (formerly PD-600) respecting a delivery in such month, shall file application on or before the 20th of the preceding month. The application shall be made on Form WPB 2947 (formerly PD-602) in the manner set forth in the general instructions appearing on that form, subject to the special instructions appearing in Appendix A. (2) The restrictions in paragraph (b) do not apply to a manufacturer who produced jewelry in 1941 containing karat gold or palladium or platinum and who now in any calendar quarter does not produce jewelry containing more karat gold and palladium (by weight) in combined total than 250 ounces.

(c) *Applicability of other orders and regulations.* (1) This order and all transactions affected by this order are subject to the applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of jewelry (as defined in this order) to a greater extent than does this order, the other order shall govern unless it states otherwise.

(2) Notwithstanding the restrictions contained in Order M-9-c, as amended from time to time, karat gold containing not more than 45% copper (by weight) may be used in the production of jewelry within the quota established by this order.

(d) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. #### APPENDIX A—SPECIAL INSTRUCTIONS FOR SUPPLIER'S FORM WPB 2947 (FORMERLY PD-602)

(1) *Obtaining forms.* Copies of Form WPB 2947 (formerly PD-602) may be obtained at local field offices of the War Production Board.

(2) *Number of copies.* Prepare an original and three copies. File original and two copies with War Production Board, Chemicals Division, Washington 25, D. C., Ref: M-243, retaining the third copy for your files. The original shall be manually signed by a duly authorized official.

(3) *Separate set of forms for each chemical.* Where the supplier's application relates to deliveries of two or more of the three chemicals, he shall file a separate set of Form WPB 2947 (formerly PD-602) for each.

(4) *Information at top of form.* In the heading, under "name of material" specify "Acetic anhydride", "Acetic acid" or "Acetaldehyde"; leave "grade" blank; under "WPB Order No.", specify "M-243"; indicate month and year during which deliveries covered by the application are to be made; under "Unit of measure", specify "pounds", except in the case of acetic acid, where indicate "pounds of 100% acetic acid"; under "Name of Company", specify your name and the address of the plant from which shipment will be made.

(5) *Grade (percent) of acetic acid.* In the case of proposed deliveries of acetic acid, specify grade in Column 7 (Remarks) in terms of percent of acid content.

(6) *Listing of customers.* In Column 1 (except for small orders as explained in (8) below) list the name of each customer from whom an order for delivery during the applicable month has been received. List first the name of each customer who has filed with you Form WPB 2945 (formerly PD-600) in connection with his order. Thereafter, leave a space, and insert in Column 1 "Use certificate", and then list the name of each customer from whom a use certificate has been received under paragraph (f) (2) with respect to a delivery in the applicable month. Do not list names of customers who have not placed with you either Form WPB 2945 or a use certificate. If it is necessary to use more than one sheet to list customers, number each sheet in order and show separately on the last sheet the total poundage ordered by customers filing Form WPB 2945 and the total poundage ordered by customers filing use certificates.

(7) *Primary product and end use.* In Column 1-a, opposite the name of each customer filing a use certificate (obtained under paragraph (f) (2)), specify the product or

products in the manufacture or preparation of which acetic anhydride, acetic acid (100% basis) or acetaldehyde will be used by such customer, the end use to which such product or products will be put, Army or Navy contract numbers, Lend-Lease requisition or contract numbers, and export license numbers, all as indicated on such use certificate. The quantity of acetic anhydride, acetic acid (100% basis) or acetaldehyde used in the manufacture or preparation of each primary product for each end use shall be shown separately. If the chemical ordered by a customer is for two or more uses, indicate each use separately and list the quantity ordered for each use. It is not necessary to show primary product or end use with respect to a customer filing Form WPB 2945 (formerly PD-600). Instead, in Column 1-a, opposite the name of each customer filing such Form WPB 2945, enter merely "WPB 2945."

(8) *Small orders.* It is not necessary to list the name of any customer to whom the supplier is to deliver in the applicable month not more than 54 gallons of any one of the three chemicals, acetic anhydride, acetic acid (100% basis) or acetaldehyde, unless such customer has filed a use certificate, nor is it necessary in the case of any such delivery to show the name of the product or end use. Instead, write in Column 1 "Total small order deliveries (estimated)" and in Column 4, specify total estimated quantity of acetic anhydride, acetic acid or acetaldehyde to be delivered on such orders.

(9) *Use by producers.* Each producer who has filed application on Form WPB 2945 (formerly PD-600) specifying himself as his supplier, shall list his own name as customer in Column 1 on Form WPB 2947 (formerly PD-602).

(10) *Table II.* Each producer shall report production, deliveries and stocks as required by Table II, Columns 9 to 16, inclusive. Distributors shall fill out only Columns 10, 12, and 13. In Column 8 producers and distributors shall show, where Form WPB 2947 (formerly PD-602) relates to acetic acid, the percent of acid content or where Form WPB 2947 (formerly PD-602) relates to acetic anhydride or acetaldehyde, will leave Column 8 blank.

(11) *Recovered acetic acid.* In the case of recovered acetic acid show such acid separately from other acetic acid in Table II. If necessary, use supplemental rider and attach to Form WPB 2947 (formerly PD-602).

#### APPENDIX B—SPECIAL INSTRUCTIONS FOR CUSTOMER'S FORM WPB 2945 (FORMERLY PD-600)

(1) *Obtaining forms.* Copies of Form WPB 2945 (formerly PD-600) may be obtained at local field offices of the War Production Board.

(2) *Number of copies.* Prepare an original and four copies. Forward original and two copies to War Production Board, Chemicals Division, Washington 25, D. C., Ref: M-243, forward one copy to the supplier with whom order is placed, and retain one copy for your files. The original shall be signed by a duly authorized official. Where the application is by a supplier for authorization to use, no copy should be sent to a producer or distributor.

(3) *Separate set of forms for each chemical.* A customer who wishes to obtain delivery of two or more of the three chemicals, acetic anhydride, acetic acid or acetaldehyde, must file a separate set of Form WPB 2945 (formerly PD-600) for each.

(4) *Material.* In the heading under "Name of chemical", specify "Acetic anhydride", "Acetic acid" or "Acetaldehyde", as the case may be; under "WPB Order No.", specify "M-243"; under "Unit of measure", specify

[Allocation Order M-363]

#### CARBON TETRACHLORIDE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of carbon tetrachloride for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

#### § 3293.571 Allocation Order M-363—

(a) *What this order does.* This order provides for the allocation of carbon tetrachloride from all producers and distributors except distributors who sell carbon tetrachloride only in quantities of a drum or less to each customer per month.

A customer must file certified statements of end use with his purchase orders when ordering more than 700 pounds of carbon tetrachloride for delivery by all suppliers in any calendar month.

A one-time base period and inventory report on Form WPB-3442 is due January 20, 1944.

Suppliers must apply on Form WPB-2947 (formerly PB-602) for authorization for use or delivery of carbon tetrachloride on or after February 1, 1944.

(b) *Definitions.* (1) "Carbon tetrachloride", sometimes known as tetrachloromethane, means the chemical CCl<sub>4</sub>.

(2) "Drum" means a container with a capacity of approximately 52 gallons (700 pounds of carbon tetrachloride).

(3) "Supplier" means any person who produces carbon tetrachloride or who purchases carbon tetrachloride for resale. The term "supplier" shall not include any person who resells exclusively in quantities of a drum or less per customer per month.

#### Requirements for suppliers

(c) *Restrictions on delivery.* (1) On and after February 1, 1944, no supplier shall deliver carbon tetrachloride to any person except as specifically authorized in writing by the War Production Board, upon application pursuant to Appendix A.

(2) Authorization to each supplier for deliveries of carbon tetrachloride will be made on the following basis:

Deliveries to customers ordering 7,000 pounds or more during any month must be individually authorized; deliveries to customers ordering between 700-7,000 pounds per month will be authorized on the basis of end uses stated in the customers' certificates and a lump sum will be allocated to each end use for such or-

ders without specifying individual customers' names; deliveries to customers ordering 700 pounds (one drum) or less will be authorized by allocating a lump sum for such small orders without specifying individual customers' names and without reference to end use.

(3) Carbon tetrachloride which cannot be delivered as authorized or directed shall revert to inventory subject to further allocation.

(d) *Restrictions on use.* On and after February 1, 1944, no supplier shall use carbon tetrachloride, except as specifically authorized in writing by the War Production Board, upon application pursuant to Appendix A.

(e) *Suppliers to notify customers of denial of applications.* Each supplier shall notify his customer as soon as possible of denial in whole or in part by the War Production Board of any item or items on a certified purchase order placed by the customer.

#### Requirements for Customers

(f) *Requirement for filing certificates with purchase orders.* Each person ordering more than 700 pounds of carbon tetrachloride in the aggregate for delivery by all suppliers during February, 1944, or during any calendar month thereafter, shall furnish each supplier with a use certificate in accordance with Appendix C.

(g) *Use of allocated carbon tetrachloride.* Each person furnishing a use certificate with a purchase order for carbon tetrachloride shall use the carbon tetrachloride only as specified in the certificate, unless advised by his supplier that a particular specified use has been denied by the War Production Board or unless otherwise specifically authorized in writing by the War Production Board. However, any person not a supplier may redeliver carbon tetrachloride to a supplier without restriction.

(h) *One-time customer's report.* Each person (excluding governmental departments or agencies, but including producers who consume part of their own production) shall file a report in accordance with Appendix B on or before the 20th day of the month preceding the first month for which he has ordered delivery of 7,000 pounds or more of carbon tetrachloride.

This report need be filed only once, and not earlier than January 20, 1944.

#### Other Provisions

(i) *Exemption for intermediate brokers and sales agents.* Application and specific authorization shall not be required for the participation by a broker or sales agent in either of the following cases:

(1) When carbon tetrachloride is ordered through the broker or sales agent and is to be delivered by the supplier directly to the purchaser and not to the broker or sales agent for redelivery to the purchaser;

(2) When carbon tetrachloride is sold by a supplier through an agent who is required to submit the customers' purchase orders to the supplier for approval.

In either of the above cases, the purchaser shall furnish the broker or sales

agent with a purchase order and use certificate, which certificate the broker or sales agent shall transmit to the supplier. The supplier shall then apply in accordance with Appendix A as if the order had been placed directly with him.

(j) *Special directions.* The War Production Board, at its discretion, may at any time issue special directions with respect to:

(1) Use, delivery or acceptance of delivery of carbon tetrachloride; or

(2) Production of carbon tetrachloride; or

(3) Preparation and filing of forms and certificates required by Appendices A, B, and C, subject to approval of the Bureau of the Budget when required by the Federal Reports Act of 1942.

(k) *Miscellaneous provisions.*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable War Production Board regulations, as amended from time to time.

(2) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington 25, D. C. Ref: M-363.

Issued this 15th day of January 1944.

(1) Each person ordering a total aggregate of more than 700 pounds (one drum) of carbon tetrachloride from all of his suppliers for delivery during January 1944, or during any calendar month thereafter, shall furnish with each purchase order a certificate in substantially the following form:

(Insert statement of quantities of carbon tetrachloride required for each proposed primary product and end use, in accordance with instructions in paragraphs (3) and (4) below.)

The undersigned hereby certifies to the seller and to the War Production Board that the carbon tetrachloride covered by the accompanying purchase order will be used only as specified above, and that the quantity of carbon tetrachloride hereby ordered, together with all other quantities ordered for delivery in the same month, does/does not (strike out inapplicable word or words) exceed 7000 pounds.

By \_\_\_\_\_  
Name of purchaser  
(Signature & title of duly authorized officer)

(2) Suppliers are requested to obtain certificates with respect to deliveries to be made during any calendar month not later than the 10th day of the preceding month. The above certificate need not be filed with the War Production Board. It shall be signed by an authorized official, either manually or as provided in Priorities Regulation No. 7. The standard certification of Priorities Regulation No. 7 may not be used unless a statement is added with respect to end use and whether all the orders of the customer for delivery in the same month do or do not exceed 7000 pounds.

(3) The primary product and end use description in the above certificate, shall be specified as follows:

Quantity of carbon tetrachloride	Primary product	End use
_____	_____	_____
_____	_____	_____
_____	_____	_____

**Primary product.** Primary product should be specified as follows:

Degreasing compound.  
Fire-extinguisher fluid.  
Grain fumigant.  
Fur fumigant.  
Refrigerant (specify).  
Hexachlorethane.  
Dry cleaning fluid.  
Spotting and cleaning fluid.  
Drugs and pharmaceuticals (specify).  
Other (specify).

**End use.** End use should be specified to indicate the disposition of each primary product, such as civilian, industrial (specify general use, such as munitions, auto servicing, etc.), food processing and laboratory use. Where the carbon tetrachloride or the product made from it is to be delivered directly to the Armed Services, or for Export, or on Lend-Lease, specify "armed services", or "Export", or "Lend-Lease", as the end use, without further end use description.

**Resale.** If the purchase is for resale, the purchaser shall leave blank the "primary product" space and as end use shall specify "authorized resale" or if ordering exclusively for resale on small orders of 700 pounds or

less, shall specify "resale in 700 pound or less lots".

(4) In the event that two or more end uses are involved in a single purchase order, the amount of carbon tetrachloride required for each use shall be listed as a separate item. Each item shall bear an identifying number so that it will be possible for the primary supplier to advise his customers, by purchase order and item number, as to the action taken on the application to make delivery.

(5) A written purchase order placed by any department or agency of the United States Government pursuant to the Act of March 11, 1941 (Lend-Lease Act) shall, provided such purchase order specifies the Lend-Lease contract or requisition number, constitute a use certificate for the purpose of this order.

**NOTE:** Forms WPB-2947 and 3442, and the instructions in Appendices A, B and C of this order, have been approved by the Bureau of the Budget in accordance with Federal Reports Act of 1942.

**PART 3302—SERVICE EQUIPMENT<sup>1</sup>**

[Limitation Order L-190, Schedules, as Amended Jan. 15, 1944]

**SCALES, BALANCES AND WEIGHTS**

§ 3302.22<sup>1</sup> *Schedules of Limitation Order L-190.* The following schedules are issued pursuant to the provisions of subparagraph (e) (4) of Limitation Order L-190, as amended.

**SCHEDULE I—BABY-WEIGHING SCALES**

No baby-weighing or nursery scales shall be fabricated or assembled, except scales which conform to the following specifications:

1. No manufacturer shall manufacture any model of baby-weighing or nursery scales other than the one which, of all models manufactured by him during 1942, contains the least amount of steel by weight per scale, exclusive of the tray.

2. No manufacturer shall manufacture any baby-weighing or nursery scales containing any copper or copper-base alloys.

3. No manufacturer shall equip any baby-weighing or nursery scales with metal trays fabricated after April 29, 1943.

**SCHEDULE II—RAILWAY TRACK SCALES**

"Railway track scales" means scales for weighing railway cars in interchange service, excluding hot ladle scales, bar mill scales, plate scales, charging scales, mine car scales, wheel load scales, tippie scales, and any other scales normally produced for other purposes, even though equipped with rails. After October 24, 1943, no railway track scales shall be fabricated or assembled without specific authorization of the War Production Board in writing, except scales which conform to the following specifications:

(1) No person shall manufacture any railway track scales, except scales designed for weighbralls which are either 42 feet, 50 feet, 60 feet, or 72 feet in length.

(2) No person shall manufacture any railway track scales with rated sectional capacities other than 30, 50, 60, 75, 100, 150 or 200 tons per section.

(3) No person shall manufacture any weighbridges for railway track scales requiring the use of more metal by weight than the American Railway Engineering Association specifications for weighbridges for

weighbralls of the lengths permitted in Specification No. 1.

(4) No person shall manufacture a railway track scale having a lever system other than the one which, of all those previously manufactured by him in accordance with American Railway Engineering Association specifications for scales of the same capacity, contains the least weight of material.

(5) No person shall manufacture any railway track scales other than four section scales.

**SCHEDULE III—MOTOR TRUCK SCALES**

The reason for issuing this schedule is to reduce the quantity of scarce materials consumed in the manufacture of motor truck scales to the lowest practicable amount. The War Production Board does not mean to suggest that scales made under this schedule will be as durable as scales containing larger quantities of materials. After October 24, 1943, no pit type motor truck scales, other than grain dump scales, shall be fabricated or assembled without specific authorization of the War Production Board in writing, except scales which conform to the following specifications:

(1) No person shall manufacture any sizes of scales other than the seven listed in the following table. The lever system and weighbridge adopted for each specified platform size must be the one which contains the least amount of materials by weight for the corresponding lever capacity which the manufacturer has been accustomed to manufacture and rate as specified:

Size number	Platform size	Lever capacity
1.....	22 feet by 9 feet.....	Tons 15
2.....	24 feet by 10 feet.....	20
3.....	24 feet by 10 feet.....	25
4.....	24 feet by 10 feet.....	30
5.....	24 feet by 10 feet.....	35
6.....	42 feet by 10 feet.....	50
7.....	60 feet by 10 feet.....	50

(2) No person shall fabricate weighbridges to support concrete decks for use with pit type motor truck scales.

**SCHEDULE IV—PORTABLE BEAM SCALES**

"Portable beam scales" means only scales which are normally equipped with wheels and which use a weighbeam as the indicating element. After October 24, 1943, no portable beam scales shall be fabricated or assembled without specific authorization of the War Production Board in writing, except scales which conform to the following specifications:

(1) No person shall manufacture more than five models of portable beam scales. The principal specifications of the models permitted are listed in the following table. The capacity specified refers to maximum indicating capacity in pounds avoirdupois, including tare capacity, if provided, and the total value of counterpoise weights, if provided. Maximum and minimum platform dimensions are stated for each model. No manufacturer shall make more than one platform size within the size limits specified. For use with each listed model a manufacturer may make not more than three models of weighbeams—a full capacity weighbeam, a single weighbeam for use with counterpoise weights, and a weighbeam with tare bar for use with counterpoise weights. Each of these three models of weighbeams may be graduated in the avoirdupois system, in the metric system, in a foreign system, or any two systems. If graduated in other than the avoirdupois system, the capacity shall be the nearest practicable equivalent of the avoirdupois capacity specified. Model No. 2 and model

<sup>1</sup> Formerly Part 3051, § 3051.2.

No. 3 may be made with or without wheels, but the pillar, cap and platform center must be of wood.

Model No.	Capacity	Platform dimension adjacent to pillar	Other platform dimension
1.....	1,000 lbs.....	16" to 18".....	24" to 27".....
2.....	2,000 lbs.....	23" to 25".....	31" to 33".....
3.....	2,000 lbs.....	43" to 44".....	33" to 35".....
4.....	3,000 lbs.....	23" to 27".....	32" to 35".....
5.....	4,000 lbs.....	30" to 32".....	38" to 41".....

#### SCHEDULE V—ROLLING MILL SCALES

"Rolling mill scales" means only beam type rolling mill scales normally equipped with wheels. After October 24, 1943, unless specifically authorized by the War Production Board in writing, no person shall manufacture more than one model of rolling mill scales. This model shall have a capacity of 10,000 pounds avoirdupois, shall be made only with one lever system, and shall be made with one size of main platform. The latter restriction does not apply to super-platforms or racks.

#### SCHEDULE VI—PORTABLE DIAL SCALES

After October 24, 1943, no portable dial scales normally equipped with wheels shall be fabricated or assembled without specific authorization of the War Production Board in writing, except scales with platforms measuring 21 inches adjacent to the column by not less than 29 inches or more than 30 inches.

#### SCHEDULE VII—DIALS

"Dial scales" means only scales having pendulum actuated head mechanisms, but does not include crane scales. After October 24, 1943, no dials for new dial scales shall be fabricated or assembled without specific authorization of the War Production Board in writing except dials which have a reading line with a diameter of either 20 inches, or not more than 15 inches nor less than 14 inches.

#### SCHEDULE VIII—SELF-CONTAINED FLOOR SCALES

"Self-contained floor scale" means a scale enclosed and supported by its own frame, manufactured as a complete weighing unit, and designed primarily for installation with the platform surface at floor level. Self-contained floor scales include so-called "dormant" scales, and for purposes of this schedule include "fulcrum stand" scales, in which the fulcrum stands are held in fixed position by means of tie-rods. After October 24, 1943, no self-contained floor scales shall be fabricated or assembled without specific authorization of the War Production Board in writing, except scales with skeleton frame, wood box or fulcrum stand construction.

#### SCHEDULE IX—BUILT-IN FLOOR SCALES

"Built-in floor scales" means scales manufactured without a frame supporting and containing the lever system, and designed primarily for installation upon a prepared foundation with the platform surface at floor level. Built-in floor scales include "two-section" scales other than motor-truck scales. After October 24, 1943, no built-in floor scales shall be fabricated or assembled without specific authorization of the War Production Board in writing, except scales with wood platforms.

#### PART 1010—SUSPENSION ORDERS

[Suspension Order S-478]

JAMES A. GAVIN & SONS, INC.

James A. Gavin & Sons, Inc., a New Jersey corporation located at 310 Main Street, Paterson, New Jersey, is engaged in selling paint and associated products through stores located in Paterson, Jersey City, and Hackensack. During the third quarterly period of 1943 (July 1 to October 1), it violated Limitation Order L-219 by receiving merchandise of a value of \$24,876 in excess of its allowable receipts for July and August alone. The corporation was familiar with the provisions of Limitation Order L-219 and the violation must be deemed wilful.

This excessive receipt of merchandise has hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.478 *Suspension Order No. S-478.*

(a) James A. Gavin & Sons, Inc., its successors or assigns, during the first quarterly period of 1944 (January 1 to April 1) shall compute its allowable receipts of consumers' goods in accordance with paragraph (d) (1) of Consumers' Goods Inventory Limitation Order L-219 as a controlled merchant, whose mercantile inventory is greater than its inventory limit at the beginning of any quarterly period under and shall conform to paragraph (d) (1), (d) (2) and (e) of Consumers' Goods Inventory Limitation Order L-219; it shall not during the first quarter of 1944 receive consumers' goods in excess of 75% of the amount thus computed under paragraph (d) (1) of Consumers' Goods Inventory Limitation Order L-219, unless hereafter specifically authorized by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve James A. Gavin & Sons, Inc., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on January 15, 1944, and shall expire on April 1, 1944.

Issued this 8th day of January 1944.

#### PART 3286—MISCELLANEOUS MINERALS<sup>1</sup>

[Conservation Order M-302, as Amended  
Jan. 17, 1944]

#### OSMIUM

§ 3286.71<sup>1</sup> *Conservation Order M-302—*  
(a) *Definitions.*—For the purposes of this order:

(1) "Osmium" means the element osmium in commercially pure form, or the osmium content of any osmium-containing material containing 0.5 percent or

more of osmium metal by weight, other than an osmium alloy, whether or not such material is first converted into osmium metal. The term includes mixtures and compounds. Natural osmiridium is deemed to be an osmium bearing material and not an osmium alloy.

(2) "Osmium alloy" means any alloy containing 0.5 percent or more of osmium metal by weight.

(3) "Process" means to fabricate, assemble, alloy, mix, melt, cast, extrude, roll, turn, spin, or otherwise shape, but does not include the smelting or refining of osmium ore or scrap for the production of sponge metal.

(4) "Put into process" means the first change by a consumer in the form, shape, or size of material from that in which it is received by him.

(5) "Supplier" means any person who sells or offers for sale, or who delivers, osmium or osmium alloys to consumers.

(6) "Consumer" means any person who uses osmium or any osmium alloy by incorporating it physically or chemically in the products or parts thereof which he manufactures, or who uses or consumes osmium or any osmium alloy in any manufacturing, laboratory, testing, plating, or repairing process.

(7) "Implements of war" means combat end products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armament, weapons, ships, tanks, and military vehicles), and any parts, assemblies, and materials to be incorporated in any of the foregoing items which are produced for the Army or the Navy of the United States, the Maritime Commission, the War Shipping Administration, or for any foreign government pursuant to the act approved March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), where the use of any osmium or osmium alloys to the extent employed is required by the latest issue of government specifications (including performance specifications unless otherwise directed by the War Production Board) applicable to the contract, subcontract, or purchase order. The term does not include facilities or equipment used to manufacture the foregoing items.

(b) *Restrictions on use of osmium.* On and after April 16, 1943, no person shall put into process or process any osmium, exclusive of an osmium alloy, except for the purpose of manufacturing or alloying an osmium alloy for use in implements of war.

(c) *Restrictions on use of osmium alloys manufactured or alloyed prior to April 16, 1943.* On and after April 16, 1943, except for use in implements of war, no person shall put into process any osmium alloy manufactured or alloyed prior to April 16, 1943, in any calendar quarter in excess of 1/3 of the aggregate amount by weight of all osmium alloys put into process by him for all uses during the calendar year 1941.

(d) *Restrictions on use of osmium alloys manufactured or alloyed on or after April 16, 1943.* On and after April 16, 1943, no person shall put into process or process any osmium alloy manufactured

<sup>1</sup> Formerly Part 3223, § 3223.1.

or alloyed on or after April 16, 1943, except for use in implements of war.

(e) *Prohibitions against sales or deliveries.* No person shall sell or deliver any osmium or osmium-containing material or osmium alloy or products thereof in the form of raw materials, semi-processed materials, finished parts, or sub-assemblies to any person if he knows or has reason to believe such material or product thereof is to be used in violation of the terms of this order.

(f) *Limitation on inventories.* No consumer shall receive delivery of any osmium, osmium-containing material, osmium alloy, or products thereof in the form of raw materials, semi-processed materials, finished parts or sub-assemblies, nor shall he put into process any raw material in quantities which in either case shall result in an inventory of raw, semi-processed, or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the use of osmium, osmium-containing material, osmium alloy, or products thereof, by this order.

(g) *Reports—(1) Quarterly report.* Beginning with the calendar quarter ending March 31, 1944, each supplier, each consumer, and each person owning at any time in any calendar quarter stocks of osmium or osmium alloy not incorporated in finished items or parts thereof, shall file Form WPB-2582 (formerly PD-846) with the War Production Board on or before the 15th day of the month following such calendar quarter.

(2) *Federal Reports Act of 1942.* The reporting requirements of this order have received the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(h) *Miscellaneous provisions—(1) Appeal.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(2) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply to the use of osmium and osmium alloy in all items manufactured after April 16, 1943, irrespective of whether such items are manufactured pursuant to a contract made prior or subsequent to such date. Insofar as any other order of the War Production Board may have the effect of limiting or curtailing to a greater extent than herein provided, the use of osmium or osmium alloys in the production of any item, the limitations of such other order shall be observed.

(3) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Miscellaneous

Minerals Division, Washington 25, D. C. Ref.: M-302.

(5) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

#### PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M-317, Interpretation 1]

#### COTTON TEXTILE DISTRIBUTION

The following interpretation relates to General Conservation Order M-317 as amended December 24, 1943:

1. Q. Is the denim direction of May 21, 1943, superseded by Order M-317?

A. No. It will continue in effect until expressly revoked in writing.

2. Q. Where a person is given a rating in a preference rating schedule to obtain a particular fabric for a specified end use, is it necessary for that person actually to apply to the War Production Board for the right to use that rating?

A. No. The ratings given by these schedules are assigned in the order and may be applied without application.

3. Q. May a jobber use an AA-5 preference rating to acquire pillow cases in anticipation of business which he expects to get from a hospital?

A. No. The jobber has no rating to use until he receives rated orders from the hospital (user). Only after he has received such an order does the jobber have any rating which he can extend.

4. Q. Suppose, before December 24, 1943, when the order was amended, a spinner of sewing twine had on his books an unfilled and unrated order from a manufacturer of textile bags. Would the manufacturer be allowed to apply an AA-2X preference rating to the remainder of that already placed order?

A. Yes. In Group 1 of the AA-2X preference rating schedule, a processor (manufacturer) is given that rating for sewing twine to be used in the manufacture of textile bags. The rating may be used by him for that purpose, both in connection with unshipped balances of sewing twine orders as well as subsequent orders.

5. Q. Under Group I of the AA-2X preference rating schedule a bag manufacturer is given this rating to obtain flat duck to be used in the manufacture of bags, but he is not given a preference rating to buy this fabric to make tarpaulins. Is he allowed to use flat duck in the manufacture of tarpaulins?

A. Yes. Although the order does not give the bag manufacturer a rating to obtain flat duck to be made into tarpaulins, he is not prohibited from buying flat duck without a preference rating for that purpose. The mill may sell flat duck without a rating to the

tarpaulin manufacturer so long as it does not interfere with the filling of rated orders.

6. Q. Does the fact that a particular use or end product is not included in a preference rating schedule mean that no cotton textile may be used for that particular purpose?

A. No. Preference ratings have been given to certain classes of persons to obtain specified cotton textiles for important uses which are described in the preference rating schedules. However, the cotton textiles mentioned in the preference rating schedules or any other cotton textiles may be used for any purpose unless prohibited by Column VI of the distribution schedules of this order or by some other order of the War Production Board.

7. Q. An AA-2X preference rating is given to a manufacturer to obtain window shade cloth for military maps (Group 24). No rating is given in the preference rating schedules to a window shade manufacturer. Does this mean that the window shade manufacturer must obtain a rating in order to get window shade cloth or that he is not allowed to purchase window shade cloth?

A. No. It merely means that a preference rating is not given to him.

8. Q. Is a cotton mill which normally dyes and canforizes its own production of gray goods for the purpose of sale to manufacturers of work clothing required to accept a rated order for gray sheeting from a bag manufacturer?

A. Yes. Since a work clothes manufacturer has a rating of AA-4 and the bag manufacturer is given a rating of AA-2X, the gray goods must be sold to the bag manufacturer on the AA-2X rating rather than dyed and canforized for sale to the work clothes manufacturer.

9. Q. A priority is given by the AA-4 preference rating schedule, Group 1, to a manufacturer to obtain fabrics for men's and boys' work clothing. Does work clothing mean anything the manufacturer deems to be work clothing?

A. No. Work clothing is that kind of apparel which is generally recognized and accepted in the trade as work clothing. The rating to be used properly must be used for the special purpose of manufacturing work clothing, and the manufacturer of work clothing must conform with I-181.

10. Q. Are the descriptions of the fabrics listed in Column II, Group 1, of Preference Rating Schedule AA-4 intended to include fabrics which are made wholly of combed or carded yarns or of combinations of both, such as twills or poplins?

A. Yes.

11. Q. When should the notations specified in paragraph (d) of M-317 be used and when should the notations specified in paragraph (b) of Order M-323 be used?

A. If the rating is received by virtue of a preference rating schedule of Order M-317 or by Form WPB 2342, the notations provided for in paragraph (d) of M-317 should be used. If the rating is given by another order or another form, the provisions in paragraph (b) of Order M-323 should be used.

12. Q. What ratings are given for diapers?

A. An AA-4 Preference Rating is given to converters and manufacturers to obtain cloth to be made into diaper cloth or diapers. An AA-5 Preference Rating is given to a hospital for the purchase of diapers.

The effect is that in purchasing diapers, a hospital uses an AA-5 preference rating which may be given to a manufacturer or to a jobber who in turn will pass it on to a manufacturer. This rating of AA-5 does not assist the manufacturer because he already has an AA-4 rating to obtain the fabric with which to make the diapers. It does, however, serve the purpose of giving priorities assistance to hospitals over other types of users.

13. Q. If a manufacturer of work gloves should receive an order from the Navy with

an AA-2X rating, may he extend the AA-2X rating to buy mitten flannel or must he use the AA-4 rating given for Group 2 of the AA-4 preference rating schedule?

A. Since he is purchasing that textile for incorporation into a product to be delivered to the Navy, he may use the AA-2X rating and is not required to use the AA-4 rating.

14. Q. The order in subparagraph (a) (2) refers to the United States. Does that mean only the 48 states?

A. For the purposes of this order, United States means not only the 48 states but all the territories and possessions of the United States.

15. Q. Is a Canadian bag manufacturer given a preference rating by any Preference Rating Schedule?

A. No. In the AA-2X preference rating schedule, Group 1, a processor is given that rating for bagging fabrics to make bags. Only a domestic manufacturer is meant. The definition of "processor" relates only to a person engaged in the United States in the business of manufacturing.

16. Q. From where do ratings for export orders come?

A. A rating is given in connection with the granting of export licenses by the Foreign Economic Administration (Office of Economic Warfare). A rating is also given in connection with Treasury Department purchases for the Foreign Economic Administration (Lend-Lease and OFFERO). Canadian importers are being granted ratings by the Canadian Division of the War Production Board in Montreal, Canada, operating in conjunction with the Canadian Wartime Prices and Trade Board. All the ratings are AA-5.

17. Q. Can a domestic exporter or a Canadian importer use the ratings of the Preference Rating Schedules?

A. No.

18. Q. Does the order prohibit shipment without a rating to a Canadian purchaser who made a contract prior to December 24, 1943?

A. Yes it does. However, the Canadian purchaser may apply to the Cotton Administrator, Wartime Prices and Trade Board, Aldred Building, Montreal, for a preference rating.

19. Q. Must the purchaser for export show on his order any export license or serial number or any WPB serial number?

A. No export license or export serial number need be stated on his order. However, if a rating is assigned by Form WPB 2842, the serial number of that form must be inserted in the notation required by paragraph (d) of M-317.

20. Q. Do the restrictions of Column VI of the distribution schedules apply even to goods produced or ordered before December 24, 1943, the date of amendment?

A. Yes. The Column VI restrictions apply no matter when the goods were produced, converted or ordered, and they apply to the producer, intermediate processor, processor, merchant and user. However, the Columns III, IV and V provisions cover only the producer (mill), and relate only to goods produced on and after January 1, 1944, regardless of the date they were ordered.

21. Q. Do the percentages in the distribution schedules apply separately to each construction?

A. No. They apply by groups to all the constructions covered by the respective Column I item numbers. For example, Items 76 thru 81, and 83 in Column I of the Carded Gray Goods Distribution Schedule refer to "other plain print cloths, except bandage cloths" and it is required that 40% be delivered against rated orders. This does not mean 40% of each and every fabric produced by the mill, but 40% of the aggregate yardage of the constructions fitting into those categories.

22. Q. In the Carded Gray Goods Distribution Schedule (Items 46, 47 and 48, 49) referring to bed sheetings 42" and wider (including made up sheets and pillow cases), the requirement is that at least 10% be delivered against rated export orders. May this obligation be satisfied by delivery, in whole or in part, of yard goods (gray or bleached) as well as sheets and pillow cases?

A. Yes. The total yardages are interchangeable. Paragraph (a) (1) (1) defines cotton textiles to include gray or finished fabrics as well as bed sheets and pillow cases.

23. Q. Is a mill which produces soft-filled sheeting and converts it into suede subject to the minimum rated percentages under soft-filled sheetings (Items 12 and 13, Carded Gray Goods Distribution Schedule) as well as the percentages for moleskins and suedes (Item 135)?

A. Yes. Inasmuch as the mill produces both soft-filled sheetings and suedes it must comply with the minimum percentage requirements as to both. However, the suede which is sold on rated export and other rated orders can be credited against the minimum requirements for the delivery of soft-filled sheeting.

24. Q. Are remnants to be excluded from the total of a mill's production for the purposes of the percentages in Columns III, IV and V of the distribution schedules?

A. No. They are to be treated the same as seconds and shorts for the purpose of the distribution schedules.

25. Q. Are seconds and shorts to be considered as part of the mill's total production for the purposes of Columns III, IV and V?

A. Yes. In making calculations a mill's entire production must be considered, including seconds, shorts and remnants. When the Column IV percentage is 100, the privilege is given to the mill to dispose of seconds, shorts or remnants without ratings if no rated orders are available. But if rated orders are presented for seconds, shorts or remnants, those orders must be accepted.

26. Q. Is the mill bound by the provisions in Columns III and IV of the Distribution Schedules even if the rated business is not offered to it?

A. Yes. This does not mean, however, that the War Production Board will grant ratings for uses of cotton textiles which have not heretofore been rated. The percentages in Columns III and IV have been set at levels to cover the quantities of rated business available for each group of fabrics. It, therefore, becomes necessary that each mill actually obtain the specified quotas of rated orders, although the result of this requirement will be that in certain instances mills will be unable to accept their accustomed amount of unrated business.

27. Q. In the heading of each distribution schedule there is a provision which states that if receipt of an order which is rated higher than a previously accepted rated order would result in having more rated orders than the Column V percentage, then the lowest rated order shall be displaced and it may be filled only from that percentage applicable to a subsequent quarter. Does this mean that producers cannot sell their yardage against ratings in excess of the percentage specified in Column V?

A. If after the seller has received the specified quantity of rated orders, another order rated lower than those already accepted is offered to him he may refuse it or he may accept it. This is a case where he is allowed to exceed the Column V percentage with rated orders.

If the newly offered order is rated higher than those he has already accepted, he must accept it, and it must displace the lowest rated order. This is a case where he is not allowed to exceed the Column V percentage with rated orders.

28. Q. The distribution schedules differentiate "bandage cloths" from other types

of print cloth. The Preference Rating Schedules do not refer to "bandage cloths". Are "bandage cloths" included in the preference rating schedules?

A. Yes. Print cloths include bandage cloths. They are sub-divided in the distribution schedules, but are not sub-divided in the preference rating schedules.

29. Q. Where Column VI in the Carded Gray Goods Distribution Schedule provides that plain print cloths, 80 sley and higher, "may not be used for export", does that mean, that a garment made of such goods may not be exported?

A. Yes. The restriction applies not only to the export of the fabric named in Column II but also to the use of the fabric in any product being produced for export. Furthermore, that restriction controls not only the mill, but also the converter, jobber and cutter.

30. Q. Suppose rated export orders, exceeding the percentage specified in Column III, are presented. Must the mill accept them?

A. Yes. Those rated orders must be accepted to the extent of the Column V percentage.

31. Q. If a mill is making only one construction of "other plain print cloths, except bandage cloths" (Carded Gray Goods Schedule, Items 76 thru 81, 83) namely 38½" 64 x 60 5.35 yard to meet special quality standards, for which he receives an AA-2 preference rating from an insulating tape manufacturer, is he obliged to deliver 10% for export?

A. Yes. Since Column III specifies 10% as the portion of his production which must be delivered against rated export orders, the mill is obliged to comply unless relieved upon appeal.

32. Q. Does a mill, which is required to deliver a minimum of 10% of its production of Class B sheetings against rated export orders satisfy the requirement by shipments on ratings to a domestic bag manufacturer who will manufacture those goods into bags which will be exported?

A. No. The requirement is that the specified minimum percentage must be delivered against rated orders in the form of a cotton textile. In the case given, the bag manufacturer's order to the mill is not an export, but a domestic order. Only the bags are covered by an export order.

33. Q. Does delivery of cotton textile to a garment manufacturer who could certify that the garment to be made therefrom is to be exported fulfill the export requirement?

A. No. The provision of Column III of the distribution schedules showing the minimum percentage which must be delivered against rated export orders means rated export orders for a cotton textile and not for a finished product which is not a cotton textile, such as the garment. It is to be noted that when the cotton textile is to be exported, paragraph (d) requires a notation to that effect to be placed by the purchaser on the purchase order.

34. Q. Where a percentage is not specified in Column III of distribution schedules, is the processor relieved of any obligation to accept rated export orders?

A. No. Unless there is a prohibition against export in Column VI, rated orders, export or otherwise, must be accepted up to the Column V percentage. The omission of a percentage in Column III merely indicates that the processor is not required to deliver a minimum percentage against rated export orders.

Administration

PART 1407—RATIONING OF FOOD AND FOOD  
PRODUCTS

[RO 16, Amdt. 98]

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.\*

Ration Order 16 is amended in the following respects:

1. A new section 15.7 is added to read as follows:

**SEC. 15.7 Retailers may apply for allowable inventory adjustments—(a) How to apply.** A retailer who finds that his allowable inventory is inadequate (other than because of seasonal variations) may apply for an increase. He must apply on OPA Form R-315, to the board with which he is registered. The application must give the following information:

- (1) The amount of his allowable inventory;
- (2) The net point gain or loss in the applicant's point inventory caused by the addition of items to or removal of items from the foods covered by this order;
- (3) The sum of items (1) and (2), or the difference if item (2) represents a point loss;
- (4) The reasons why he claims that his allowable inventory is inadequate; and
- (5) The amount of the increase which he needs.

**(b) Action by board if adjusted allowable inventory would be 1500 points or less.** If the board finds that the retailer's allowable inventory is inadequate and that the sum of items (3) and (5) in paragraph (a) is not more than 1500 points, it may grant the application for the additional amount which it finds he needs, but not more than the amount requested. If the retailer does not have any excess inventory, the board shall issue to him a certificate for the amount of the increase granted. If he has an excess inventory which is less than the increase, the board shall cancel the excess inventory and issue a certificate for the difference. If the retailer's excess inventory is equal to or greater than the increase, the board shall reduce the excess inventory by the amount of the increase.

**(c) Temporary increase if adjusted allowable inventory would be more than 1500 points.** If the sum of items (3) and (5) in paragraph (a) is more than 1500 points, the board may not act upon the application but must send it, and any other information received, to the district office for action. The board may attach its recommendation as to the amount of the temporary increase to be granted. The district office may grant the retailer a temporary increase for the amount which it finds he needs to get

adequate stocks for the next six calendar weeks. It shall then return the file to the board. When the amount of the temporary increase has been determined by the district office, the board shall issue to the retailer a certificate or reduce the retailer's excess inventory, or both, in the way described in the last paragraph.

**(d) Final action.** If the retailer is given a temporary increase under paragraph (c) he must keep a record of his sales and transfers (other than exchanges, and transfers to another of his retail establishments) during the six calendar weeks after he received the increase. Within one week after the end of this period, he must report the point value of such transfers. The board shall divide this amount by two. If the resulting figure is more than the figure stated in item (3) in paragraph (a), the difference (or the amount requested by the retailer, whichever is less) is to be granted as a permanent increase in the retailer's allowable inventory. If the amount of the increase is more than the sum of any certificate issued and excess inventory cancelled under paragraph (c), the board shall issue a certificate for the difference. If the amount of the increase is less than that sum, the difference is excess inventory, and the retailer must give up points to the Office of Price Administration in the way required in section 6.6 (e).

2. A new section 15.8 is added to read as follows:

**SEC. 15.8 Retailers and wholesalers may apply for temporary adjustments because of seasonal variations—(a) How to apply.** A retailer or wholesaler may apply for a temporary increase in his allowable inventory because of seasonal variations in his business. He must apply on OPA Form R-315 to the board with which he is registered. The application must give the following information:

- (1) The amount of his allowable inventory;
- (2) The net point gain or the net point loss in the applicant's point inventory caused by the addition of items to or the removal of items from the foods covered by this order;
- (3) The sum of items (1) and (2), or the difference if item (2) represents a point loss;
- (4) The reasons why he needs the increase;
- (5) The period during which he needs the increase;
- (6) If he is a retailer, the average weekly amount of his sales and transfers of foods covered by this order, in pounds, during the same period in 1942, multiplied by 15. If he is a wholesaler, 75% of his average weekly sales and transfers, in pounds, during the same period in 1942, of foods in each of the three classes specified in § 1407.3027 (b) of Revised Supplement 1 to this order, multiplied by the factor fixed for that class;
- (7) The amount of the increase which he needs.

**(b) Action on application.** If the board finds that the applicant's allowable inventory will be inadequate during the period for which the increase is requested, and that the sum of items (3) and (7) in paragraph (a) does not exceed 20,000 points, it may grant the application for the amount which it finds he needs but not more than the amount requested. However, in no event may the board grant under this section more than the amount by which item (6) exceeds item (3). If the sum of items (3) and (7) exceeds 20,000 points, or if the applicant requests an increase which is more than the maximum amount which the board may grant under this section, or if the applicant is unable to furnish the information required by item (6) because he was not in operation during that period, the board may not act upon the application, but must send it to the district office for action. It may attach its recommendation as to the amount of the temporary increase to be granted. The district office shall determine what action should be taken and return the file to the board. When the amount of the temporary increase has been determined by the local board or the district office, as the case may be, the board shall issue a certificate for such amount, if the applicant has no excess inventory. If the applicant has an excess inventory which is less than the increase, the board shall cancel the excess inventory and issue a certificate for the difference. If the applicant's excess inventory is equal to or greater than the increase, the board shall reduce the excess inventory by the amount of the increase. Within 15 days after the close of the period for which the increase is granted, the applicant must report to the board and give up points equal to the total of any certificate issued and excess inventory reduced or cancelled under this section. If he is unable to give up all the points within the fifteen days, the balance is excess inventory and the provisions of sections 5.6 (e) or 6.6 (e), as the case may be, apply.

This amendment shall become effective January 19, 1944.

**NOTE:** All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

**PART 1306—IRON AND STEEL**

[RPS 41, Amdt. 10]

**STEEL CASTINGS AND RAILROAD SPECIALTIES**

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.\*

Revised Price Schedule No. 41 is amended in the following respects:

1. A new § 1306.104 is added to read as follows:

§ 1306.104 *Taxes.* As to any tax upon, or incidental to, sales or deliveries of steel castings or railroad specialties imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, if the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does separately state it, the seller under this Revised Price Schedule may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

2. Section 1306.105 is amended to read as follows:

§ 1306.105 *Records and reports.* (a) Every producer making sales of steel

\*Copies may be obtained from the Office of Price Administration.

17 F.R. 1264, 2000, 2132, 2740, 3182, 8948; 8 F.R. 3524, 4187, 5838, 11291, 14811, 15607.

castings or railroad specialties and every person making purchases from a producer, shall keep for inspection by the Office of Price Administration for a period of not less than two years, or as long as the Emergency Price Control Act of 1942, as amended, shall be in effect, whichever period is shorter, complete and accurate records of every purchase or sale. In the case of producers such records shall show the quantity of steel castings or railroad specialties sold from each pattern and the price charged and received; furthermore where extras, other than those on pages 64, 65 and 66 of the Comprehensive Report, are applicable and charged each such extra and the charge therefor shall be shown separately.

(b) Persons affected by Revised Price Schedule No. 41 shall submit such reports to the Office of Price Administration as it may, from time to time, require.

3. Paragraph (c) of § 1306.109 is amended to read as follows:

(c) "Steel castings" means any cast steel object, whether rough or machined, that has been initially cast in the desired shape of the finished product, and which contains less than 1.70% carbon and/or alloys totalling not more than 8%. It means and includes such cast steel objects where other materials have been cast integrally therewith and also means two or more steel castings assembled by welding. It does not mean (1) railroad specialties as defined in Appendix B (§ 1306.113), (2) steel castings sold in an assembly with materials other than bolts, nuts, screws, rivets or other industrial fastenings, and (3) steel castings sold as another commodity by a "regular manufacturer of such other commodity". For the purposes of this definition a producer of steel castings is considered a "regular manufacturer of such other commodity" when (i) he represents himself in the trade as a manufacturer of such other commodity through the issuance of catalogs, price lists, or advertising matter circulated generally through the trade and in which such commodity is designated by name, (ii) the commodity is offered for sale on a price per piece basis, and (iii) he owns the patterns used for the production of such other commodity.

4. Paragraph (b) of § 1306.112 is amended to read as follows:

(b) *Industrial steel castings, other than freight car and locomotive castings, made by a producer on or before July 15, 1941.* The term "industrial steel castings" means and includes all steel castings other than armor, navy, ordnance and ship and marine castings. The maximum prices for each producer for industrial steel castings, other than freight car and locomotive castings, made by such producer on or before July 15, 1941, or for steel castings substantially similar in design and specification thereto shall be the prices, together with extras, terms and conditions, which were or customarily would have been charged

by such producer on July 15, 1941: *Provided*, That (1) in no case where his maximum prices are computed on a delivered basis need a producer compute such prices on the basis of a freight allowance in excess of 50 cents per hundred pounds; (2) machining charges shall be ascertained in accordance with § 1306.112 (a) (8) except in the case of machined steel castings customarily sold by the producer on July 15, 1941, on a per piece price basis in which case the July 15, 1941, per piece price, adjusted for the difference in the machining costs used in the July 15, 1941, price and the March 31, 1942, machining costs shall apply; and (3) irrespective of a producer's customary July 15, 1941, practice with respect to the application of quantity differentials, quantity differentials may be applied on the basis of quantities ordered from one pattern at one time and scheduled for delivery in any one calendar month, except that where a production run overlaps a calendar month the quantity differential shall be determined by use of the quantity produced in such run.

5. The headnote to § 1306.112 (c) (1) (i) is amended to read "Other than freight car and locomotive castings" and the headnote to § 1306.112 (c) (1) (ii) is amended to read "Freight car and locomotive castings".

6. Section 1306.112 (c) (8) is amended to read as follows:

(8) *Machining.* The charges listed on pages 68 to 73, inclusive, of the Comprehensive Report for machining certain railroad castings may be added where specified, furnished and applicable. Such charges apply irrespective of whether or not the machining is performed by the selling producer or is subcontracted by him to an independent machine shop. Charges for other machining shall be determined in accordance with § 1306.112 (a) (8) and may be added where specified, furnished and applicable.

7. Section 1306.112 (d) (iii) is hereby deleted.

8. The schedule reference for Item No. 5324 of Table II of § 1306.112 is amended to read X-317R.

9. The schedule reference for Item No. 8133 of Table IV of § 1306.112 is amended to read X-317R.

10. The title of Table V of § 1306.112 is amended to read as follows: "Freight Car and Locomotive Castings (The schedules shown for classifications followed by the parenthical designation (high tensile steel) include the extra for these physical requirements.)"

## LOGS AND BOLTS

A statement of the considerations involved in the issuance of this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.\*

Maximum Price Regulation 348 is amended by the inclusion of Appendix B, Table I and Appendix O, Table I.

## APPENDIX B

## TABLE I

Area. The area covered by this table is the same as that covered in Maximum Price Regulation 146, Appalachian Hardwood Lumber.

The Appalachian Hardwood Region as defined in Maximum Price Regulation No. 146, comprises:

The Counties of Garrett, Allegany, Washington and Frederick in the State of Maryland;

The Counties West of and not including the Counties of Fairfax, Prince William, Stafford, Culpeper, Orange, Louisa, Fluvanna, Buckingham, Appomattox, Campbell, Pittsylvania, and Henry in the State of Virginia;

The Counties West of and not including the Counties of Stokes, Yadkin, Iredell, Catawba, Lincoln and Gaston in the State of North Carolina;

The Counties of Greenville, Pickens and Oconee in the State of South Carolina;

The Counties of Rabun, Habersham, White, Lumpkin, Union, Fannin and Towns in the State of Georgia;

The Counties East of and not including the Counties of Cumberland, Russell, Casey, Lincoln, Garrard, Madison, Clark, Montgomery, Bath, Fleming, Lewis and Greenup in the State of Kentucky;

In the State of Tennessee all counties east of the west boundary of the Counties of Pickett, Fentress, Morgan, Roane, Rhea, and along the western boundary of Hamilton County to the intersection with the Nashville, Chattanooga and St. Louis Railroad; thence easterly along said railroad through Chattanooga to the intersection of said railroad and the Georgia State Line; and

The entire State of West Virginia.

Species. The following commercial species: Yellow poplar (*Liriodendron tulipifera*), chestnut oak (*Quercus montana*), beech (*Fagus grandifolia*), chestnut (*Castanea dentata*), hard maple (*Acer saccharum*), soft maple (*Acer rubrum*), sweet gum (*Liquidambar styraciflua*), tupelo gum (*Nyssa aquatica*), black gum (*Nyssa sylvatica*), butternut (*Juglans cinerea*), walnut (*Juglans nigra*), sycamore (*Platanus occidentalis*), hemlock (*Tsuga canadensis*), white pine, (*Pinus strobus*), loblolly pine (*Pinus taeda*), and shortleaf pine (*Pinus echinata*).

and all other botanical species of the following genera:

Oak (*Quercus*), ash (*Fraxinus*), basswood (*Tilia*), birch (*Betula*), buckeye (*Aesculus*), cherry (*Prunus*), hickory (*Hicoria*), magnolia (*Magnolia*), elm (*Ulmus*), and pine (*Pinus*)

and all other commercial hardwood species.

Scaling Rules. All logs are to be scaled with the Doyle Log Rule. The diameter shall be measured at the small end of the log, inside the bark, and at the smallest diameter. Fractions of an inch below  $\frac{1}{2}$  inch

shall be counted back to the next lower diameter inch, while fractions of an inch above  $\frac{1}{2}$  inch may be raised to the next higher inch. (Thus a log 14.4 inches would be 14" and a log 14.6" may be 15"). If the fraction of an inch is exactly  $\frac{1}{2}$  inch, it may be counted as of the nearest even inch. (Thus 13½ inches would be counted as 14", and 14½ inches would be counted as 14").

All unsound and unusable wood must be deducted by allowance in measurement. The defects for which full allowance must be made in measurement include hollows or large holes, rot, dote, windshake, large or excessive worm holes, damage in felling by drawn splinters, rotten and wormy sap, and crooks.

Logs are to be cut in standard even lengths unless otherwise specified by the buyer. The minimum length accepted at the full ceiling prices shall be 8 feet. Logs shorter than 8 feet in length can be purchased under the conditions given below.

All logs must be cut at least 4 inches over length to allow for trim. Logs that are not at least 4 inches over the specified length will be scaled as of the next lower even length.

Grade Specifications. Clear grade—minimum diameter 24". All logs 24" and over in diameter must be clear of all visible defects. Sound sap knots 1" and less in diameter will not be considered as a defect in this grade. A rot or dote 4" in diameter or less, located in the center of the log will not degrade the log but deduction for defect must be made in scaling the log.

Select Grade—minimum diameter 16". Logs 16" to 23" in diameter must be clear of all defects. Logs 24" and over in diameter must have at least 3 clear faces or have 75 per cent of the length clear in one continuous section. Sound sap knots 1" or less in diameter will not be considered as a defect in this grade. A rot or dote in the center of the log up to 4" in diameter for logs 24" and over and up to 3" in diameter for logs 16" to 23" in diameter will not degrade the log but full deduction for the defect must be made in scaling.

#1 Grade—minimum diameter 12". Logs 12" to 15" in diameter must be clear of all visible defects. Logs 16" to 23" in diameter must have at least 3 clear faces or 75 per cent of the length clear in one continuous section. Logs 24" and over in diameter must have at least 2 clear faces or have at least 50 per cent of the length clear in one continuous section. Sound sap knots 1" or less in diameter will not be considered as a defect in this grade. A rot or dote in the center of the log up to 4" in diameter for logs 24" and up, up to 3" in diameter for logs 16" to 23", and up to 2" in diameter for logs 12" to 15" in diameter will not degrade the log, but full deduction must be made for the defect when scaling the log.

#2 Grade—minimum diameter, hardwood 12", Pine 8". This grade shall include all sound logs above the specified diameter limits that are better than a cull and that do not grade as a #1 log.

A Cull shall be considered as any log where the net board foot scale after deductions have been made for defects, contains less than 50 per cent of the gross board foot scale.

Woodsrun Grade shall consist of hardwood and Cypress logs 12" and up in diameter, and Pine logs 8" and up in diameter as produced from the forest that are better than culls and from which no selection of large-sized or high-quality logs has been made. If any large-sized or high-quality logs have been removed from the run of logs, the remaining logs must be sold at prices no higher than the #2 grade prices if ungraded, or at the applicable grade prices if graded. When any small sized or low quality logs have been

removed from the run of logs, the remaining logs may still be sold at the woodsrun price.

**Grade specifications for ship timber logs and bending oak timber logs.** *Ship Timber Logs*—minimum diameter 20 inches, must be fresh cut, sound to the center, free from splits and not less than 18 feet in length. Logs do not have to be straight but will permit a bow one way. These timbers may have one standard knot for every 4 feet of length. A standard knot shall be considered as a sound knot 4" or less in diameter.

**Bending Oak Timber Logs**—minimum diameter 20 inches, must be straight, fresh cut, sound to the center, free of all visible defects and not less than 18 feet in length. Twisted growth or swelled butts will not be accepted.

The Counties of Rabun, Habersham, White, Lumpkin, Union, Fannin and Towns in the State of Georgia;

The Counties East of and not including the Counties of Cumberland, Russell, Casey, Lincoln, Garrard, Madison, Clark, Montgomery, Bath, Fleming, Lewis and Greenup in the State of Kentucky;

In the State of Tennessee all counties east of the west boundary of the Counties of Pickett, Fentress, Morgan, Roane, Rhea, and along the western boundary of Hamilton County to the intersection with the Nashville, Chattanooga and St. Louis Railroad; thence easterly along said railroad through Chattanooga to the intersection of said railroad and the Georgia State Line; and

The entire State of West Virginia.

**Species.** Walnut (*Juglans nigra*) logs (sold on an individual or selected basis). For walnut logs sold in conjunction with other species, see Table 1 of Appendix B.

**Scaling rules.** All logs are to be scaled with the Doyle Log Rule. The diameter shall be measured at the small end of the log, inside the bark, and at the smallest diameter. Fractions of an inch below  $\frac{1}{2}$  inch shall be counted back to the next lower diameter inch, while fractions of an inch above  $\frac{1}{2}$  inch may be raised to the next higher inch. (Thus a log 14.4 inches would be 14" and a log 14.6 may be 15"). If the fraction of an inch is exactly  $\frac{1}{2}$  inch, it may be counted as of the nearest even inch. (Thus  $13\frac{1}{2}$  inches may be counted as 14", and  $14\frac{1}{2}$  inches may be counted as 14").

All logs must be cut at least 4 inches over length to allow for trim. Logs that are not at least 4" over the specified length will be scaled as of the next lower even length.

**Grade specifications.** Prime logs must be butt logs only, fresh-cut from live timber, sound, straight and free of all defects and excessive sap. Logs are to be 12" and larger at the small end; must be 8' and longer. Two thirds of all logs 12" to 15" in diameter to be 10 feet and longer.

**Select logs will admit:**

(a) Butt logs 12" and up, 8' and up; must have three clear faces; no unround defects admitted.

(b) Clear butt logs 6' and 7', 16" and larger.

(c) Second cuts 12" and up, 8' and up, clear of all defects.

(d) Slight crook if otherwise prime.

**Sap:** on both Prime and Select Logs all sapwood in excess of  $1\frac{1}{2}$  inches on each side of the heart shall be measured off in taking the diameter.

**#2 Logs will admit:**

(a) Logs 12" and up, 8' and up; must run 65% 10' and up. Must have 2 clear faces or better.

(b) Clear butt logs 12" to 15" and 6' to 7' in length.

(c) Any log 6'-7', 16" and up with 3 clear faces or better.

**Cull logs.** All logs which will not meet above specifications are cull logs. Exceptions: Logs with ring shake, worm holes, bird peck or back growth have no classification and shall have no value.

Logs are to be graded as found and no part of log is to be raised in grade unless cut off before inspection. Logs must be piled so they can be rolled over and all sides inspected.

The following are the defects which must be considered in both grading and scaling of Walnut Logs:

Knots, worms, cat faces or blind knots, splits, dots, double heart, crooks, shake, iron or wire, ring hearts, frost cracks, stump shots, lightning streaks, ingrown bark and bird pecks.

[MPR 506]

**MANUFACTURERS' PRICES FOR STAPLE WORK GLOVES**

A statement of the considerations involved in the issuance of this Maximum Price Regulation No. 506 has been issued simultaneously herewith and filed with the Division of the Federal Register.\*

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected.

§ 1389.604 *Manufacturers' prices for staple work gloves.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942,

as amended, and Executive Orders No. 9250 and No. 9328, Maximum Price Regulation No. 506 (Manufacturers' Prices for Staple Work Gloves) which is annexed hereto, is hereby issued.

Appendix A—Tables of manufacturers' ceiling prices.

Appendix B—Suggested form to be used in applying for ceiling prices under section 2 (b).

**SECTION 1. Scope of this regulation.** This regulation fixes maximum prices for manufacturers' sales of specified staple work gloves.

(a) *Kinds of work gloves covered.* The specified staple work gloves covered by this regulation are work gloves of the following kinds:

- (1) Single thickness canton flannel gloves.
- (2) Canton, flannel gloves with double thickness palm.
- (3) Fully-lined canton flannel gloves.
- (4) Two-thumbbed canton flannel gloves.
- (5) Jersey gloves.
- (6) Gloves with leather palm and canton flannel back.

"Gloves" means both gloves and mittens.

(b) *Kinds of sales covered.* This regulation applies only to manufacturers' sales. Wholesalers' and retailers' sales are not covered. Under this regulation, a manufacturers' sale is a sale of work gloves by a person:

- (1) Who fabricated the gloves sold; or
- (2) Who sold or consigned to the fabricator of the gloves any of the principal materials from which they were made; or
- (3) Whose business is under the same ownership or control as the person who fabricated the gloves.

(c) *Where this regulation applies.* This regulation covers sales in the 48 states and the District of Columbia.

**SEC. 2. How to find manufacturers' ceiling prices—**(a) *Work gloves specified in Appendix A.* For the work gloves specified in Appendix A, a manufacturer's ceiling prices are those stated in that appendix.

(b) *Other work gloves covered by this regulation.* For work gloves covered by this regulation but not specified in Appendix A, a manufacturer's ceiling prices are those authorized by the Office of Price Administration, on application by the manufacturer.

An application for the fixing of a ceiling price must be filed with the Office of Price Administration (Men's Clothing Section), Washington 25, D. C., in three copies. The application must contain information in the detail indicated by the suggested form in Appendix B, and must be accompanied by a sample of the glove.

Pending action on such an application, a person must not sell or deliver the glove except in accordance with the provisions of section 6 (b) ("Adjustable pricing agreements").

**SEC. 3. When taxes, may be added.** When a tax on a particular sale or delivery is imposed by a statute or ordinance which permits stating the tax separately from the price, the tax may be separately charged or collected in addition to the ceiling price. This applies only to sales taxes, gross receipts or gross proceeds taxes, and compensating use taxes, and does not apply to any tax imposed on a prior sale or delivery.

**SEC. 4. Records and invoices.** (a) Every manufacturer of staple work gloves must prepare a list of all staple work glove items which he delivers on or after January 21, 1944. This list must show the style number of each such work glove, and, following each style number, a description of the glove and the manufacturer's ceiling price. The description, like the descriptions in Appendix A, should specify cut or pattern, weight, and kind of materials used, thickness of glove, type of wrist, additional features (if any), and size classification. This record must be prepared on or before February 5, 1944 and must be kept up to date thereafter by adding any new numbers or any changes in the description of old numbers. This list must be kept and made available on request to the Office of Price Administration.

(b) *Invoices.* Every manufacturer selling staple work gloves must give the purchaser an invoice showing the lot number of gloves sold and the price charged.

**SEC. 5. Excessive prices forbidden.** On and after January 21, 1944, the following practices are forbidden regardless of any contract or other obligation:

(a) *Charging more than ceiling price.* Every person is forbidden to sell or deliver any staple work gloves at a price higher than the ceiling price set by this regulation. A lower price may, of course, be charged.

(b) *Buying for more than the ceiling price.* Every person is forbidden to buy or receive any staple work gloves, in the course of trade or business, at a price higher than the price set by this regulation.

(c) *Combination sales.* Every person is forbidden to require any purchaser to buy or agree to buy any other article, service, package or wrapper, in connection with the sale or delivery of any staple work gloves. But any manufacturer may refuse to sell less than a minimum quantity of any one style number, if this minimum has been customary for the seller.

(d) *Indirect price increases.* Every person is forbidden to do any other act which directly or indirectly increases above the ceiling price the consideration paid by the purchaser for any staple work gloves. Any practice which is a device to secure the effect of a higher than ceiling price is as much a violation as an outright raising of the ceiling price. This applies to devices making use of commissions, services, transportation charges, premiums, taxes, special provisions, ty-

ing agreements, trade understandings and all similar practices.

(e) *Indirect violations.* Every person is forbidden to offer, attempt or agree to do any of the acts forbidden by this section.

SEC. 6. *Adjustable pricing agreements.* Adjustable pricing agreements may be entered into notwithstanding the provisions of section 5, to the extent permitted by this paragraph.

(a) *When regulation fixes a ceiling price.* In cases where this regulation fixes a ceiling price, a person may sell at that ceiling price, subject to an agreement with the buyer to charge a higher price if it becomes the legal ceiling price by the time delivery is made. But one must never charge a price which is higher than the maximum price in effect at the time of delivery. Moreover, unless authorized by the Office of Price Administration, a person must not deliver or agree to deliver at a price which is to be adjusted upward in accordance with action by the Office of Price Administration after delivery. This authorization may be given by the Administrator or by any other official of the Office of Price Administration to whom the power to grant such authorization has been delegated, and will be given by order except that it may be given by letter or amendment when an application for authorization of an individual ceiling price is pending. The authorization will be given only where:

(1) A request for the fixing or changing of a ceiling price has been filed; and  
(2) The authorization is necessary to promote distribution or production; and  
(3) It will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

(b) *Where the regulation does not fix a ceiling price.* In cases where a ceiling price is not fixed by the regulation, a person must not make any delivery until a ceiling price has been fixed by authorization or amendment, and must not make any contract of sale unless the price is expressly subject to adjustment in accordance with any action which may be taken by the Office of Price Administration.

SEC. 7. *Licensing and enforcement—*  
(a) *Licensing.* The provisions of Licensing Order No. 1,<sup>1</sup> licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or this regulation. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(b) *Penalties.* Any person who violates any provisions of this regulation is subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided by the Emergency Price Control Act of 1942, as amended.

SEC. 8. *Relation to other regulations—*  
(a) *Regulations superseded.* The coverage of this regulation is stated in section 1. Where this regulation applies, it

supersedes the provisions of the following regulations:

(1) General Maximum Price Regulation.<sup>2</sup>

(2) Section 3.5 of Revised Supplementary Regulation No. 14 (formerly § 1499.73 (a) (37) of Amendment 49 to Supplementary Regulation 14).

(b) *Wholesalers' and retailers' sales.* This regulation does not presently apply to wholesalers' and retailers' sales of staple work gloves. These sales are still governed by the General Maximum Price Regulation, and Maximum Price Regulation 210<sup>3</sup>—"Retail and Wholesale Prices for Fall and Winter Seasonal Commodities."

(c) *Contractors' services.* This regulation does not apply to charges for contractors' services, which are governed by Maximum Price Regulation 172<sup>4</sup>—"Charges of Contractors in the Apparel Industry." "Contractor" is defined in § 1389.52 of that regulation.

(d) *War procurement agencies.* This regulation does not apply to sales of work gloves made according to military specifications, when the sales are made to any war procurement agency as defined in Maximum Price Regulation 157<sup>5</sup>—"Sales and Fabrication of Textiles, Apparel and Related Articles for Military Purposes."

(e) *Export sales.* This regulation does not apply to export sales of work gloves. Such sales are covered by the Second Revised Maximum Export Price Regulation.<sup>6</sup>

(f) *Import sales.* The provisions of this regulation do not apply to deliveries made from points outside the 48 states and the District of Columbia. Such sales and deliveries are governed by the provisions of the Maximum Import Price Regulation.<sup>7</sup> This regulation does, however, apply to domestic sales when the articles sold were originally imported.

SEC. 9. *How this regulation may be amended.* (a) Any person who seeks a modification of any provision of this regulation may file a petition for amendment of general applicability in accordance with Revised Procedural Regulation No. 1<sup>8</sup> issued by the Office of Price Administration.

(b) Pending an amendment, a person must not sell or deliver work gloves at prices other than those fixed in the regulation except in accordance with the provisions of section 6 ("Adjustable pricing agreements").

#### FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION IN DESIGNATED COUNTIES IN KENTUCKY

In the judgment of the Louisville, Kentucky, District Director, the prices of food and beverages sold for immediate consumption in the hereinafter designated counties, have risen and are threatening further to rise to an extent and in a manner inconsistent with the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328.

**SECTION 1. Geographical application.** The provisions of this Maximum Price Regulation No. 3-14 shall be applicable to the entire Louisville District, comprising the following counties in the State of Kentucky:

Adair, Allen, Anderson, Ballard, Barren, Boyle, Breckinridge, Bullitt, Butler, Caldwell, Calloway, Carlisle, Carroll, Casey, Christian, Clinton, Crittenden, Cumberland, Daviess, Edmonson, Franklin, Fulton, Gallatin, Graves, Grayson, Green, Hancock, Hardin, Hart, Henderson, Henry, Hickman, Hopkins, Jefferson, Laclede, Livingston, Logan, Lyon, McCracken, Meade, Marion, Marshall, Meade, Mercer, Metcalfe, Monroe, Muhlenberg, Nelson, Ohio, Oldham, Owen, Russell, Shelby, Simpson, Spencer, Taylor, Todd, Trigg, Trimble, Union, Warren, Washington, Wayne, and Webster.

**SEC. 2. Sales at higher than ceiling prices prohibited.** If you own or operate a restaurant, hotel, cafe, bar, delicatessen, soda fountain, boarding house, or any other eating or drinking establishments, you must not offer or sell any "food item" (including beverages) or "meal" within its proper class as set forth herein, at a price higher than the highest price at which you offered the same "food item" or "meal" in such class during the seven-day period beginning Sunday, April 4, 1943 and ending Saturday, April 10, 1943. You must not sell or offer to sell any other "food item" or "meal" at a price higher than the ceiling price which you figure according to the provisions of sections 3, 4, and 5 herein. You may, of course, sell at less than the ceiling prices.

**SEC. 3. How you figure ceiling prices for food items and meals you did not sell in the seven-day period.** You must figure your ceiling price for a food item or meal which you did not offer in the seven-day period as follows:

(a) If you served the same food item or meal within thirty days prior to April 4, 1943, you may take as your ceiling price the highest price at which you offered the same food item or meal in its proper class during said thirty-day period. In any such case, your records as set forth in section 11 (c) herein, must include the menu or information showing the previous offering of such food item or meal at the higher price.

(b) If you did not sell or offer to sell the food item or meal either during the seven-day period or the thirty-day period, or if you do not have adequate records of prices charged during the thirty-day period, then you choose from the food items or meals for which a ceiling price has already been fixed, the food item or meal in the same class which is most similar to the food item or meal you are pricing and then proceed as follows:

(1) Determine the cost of the raw food which you use in preparing the new food item or meal.

(2) From the food items and meals for which you have already established ceiling prices, choose a food item or meal which now has a raw food cost equal to or less than the raw food cost of the new food item or meal.

(3) Take as your ceiling price for the new food item or meal your ceiling price for the food item or meal chosen for comparison. The food item or meal chosen for such comparison should be of the same class as the new food item or meal. If, however, you can find no food item or meal of the same class, you may use for comparison the most similar food item or meal of another class having a food cost equal to or less than your food cost for the new food item or meal.

(c) Once your ceiling price for a food item or meal has been fixed, it may not be changed, except as may be expressly provided herein.

**SEC. 4. Class of food items and meals—**

(a) **Classes of meals.** (1) For the purpose of classification under this regulation, there shall be thirteen classes of meals as follows: breakfast, lunch, tea,

dinner and supper on week days; breakfast, lunch, tea, dinner and supper on Sundays; children's breakfast, lunch, and dinner.

(2) Where you differentiated in price or otherwise between any of the above classes of meals during the period April 4 to April 10, 1943, you shall continue to maintain such differential. A meal shall be further classified according to the food item category hereinafter listed in which the main dish of such meal is grouped.

*Example:* A week-day roast pork dinner would be in a different class from a week-day roast pork lunch or a Sunday roast pork dinner or a week-day vegetable plate dinner, but would be in the same class as a week-day pork chop dinner.

(b) **Classes of food items.** (1) For the purpose of this regulation, food items as herein referred to shall be classified into the following categories:

#### FOOD ITEMS

1. Fruits, fruit juices, and vegetable juices.
2. Cereals.
3. Entrees—egg and combination egg dishes served at breakfast.
4. Entrees—meat and meat combination dishes served at breakfast.
5. Entrees—all other dishes served at breakfast.
6. Breads, rolls, buns, danish-pastries, et cetera, served at breakfast.
7. All other breakfast dishes, including jams, jellies, and preserves.
8. Appetizers, except alcoholic cocktails.
9. Soups, including consommé or soups in jelly form.
10. Beef—steaks and roasts.
11. Veal—steaks, chops, and roasts.
12. Pork—loin, chops, steaks, roasts.
13. Lamb or mutton—chops, roasts.
14. Poultry and fowl.
15. Fish and shell-fish.
16. Game.
17. Miscellaneous and variety meats, including liver and kidneys.
18. Prepared dishes, such as stews, casserole, ragouts, curries, et cetera.
19. Egg and cheese dishes and combinations thereof.
20. All other dishes, such as spaghetti and combinations, vegetable platter, baked beans and combinations, chop suey, et cetera.
21. Vegetables, including potatoes.
22. Salads (except as served as a main course or appetizer course in a meal).
23. Desserts—cakes, cookies, pies, pastries, and other baked goods.
24. Desserts—ice cream, sherbets, water ices, including combinations with syrups, creams, fruits and nuts.
25. Desserts—seasonal dessert specialties including but not limited to watermelons, cantaloupes, fresh fruits, and fresh berries.
26. Desserts—all others, including fruits, pudding and cheese.
27. Cold sandwiches—including garnishings, salads and vegetables.
28. Hot sandwiches—including garnishings, salads and vegetables.
29. All other food items served in a meal including mints and preserves.
30. Beverage foods, including coffee, cocoa, chocolate, tea and milk.
31. Non-alcoholic beverages, including sparkling and mineral waters when sold other than in the original package or container.
32. Mixed alcoholic beverages, including highballs and cocktails.
33. Beer and other malt beverages.
34. Wines and other alcoholic beverages.

(2) Where you customarily, during the period April 4 to April 10, 1943, differentiated in price or otherwise as to the serving of the same a la carte food item between any two or more of the following: breakfast, lunch, tea, dinner and supper on week days; breakfast, lunch, tea, dinner and supper on Sundays, and children's breakfast, lunch and dinner, you shall continue to maintain such differentials, and where such differentials exist, such food items shall be deemed to be distinguished as to class.

*Example:* Mashed potatoes offered a la carte for week-day lunches would be in the same class of food items as potatoes au gratin offered a la carte for week-day lunches but would be in a different class than mashed potatoes offered a la carte for week-day dinners or Sunday suppers or in connection with other meal menus if during the base period they were customarily distinguished in price or otherwise.

(c) If you customarily charged more than usual Sunday prices for meals and food items served on legal holidays (so designated by Federal or State laws), you may, notwithstanding the provisions of sections 2 and 3 herein, continue to charge higher prices on those particular days, such higher prices, however, in no event to exceed 115 per cent of your Sunday ceiling prices. (See section 7, sub-section (c).)

**SEC. 5. No ceiling prices to be higher than the highest price in the base period.** Under no circumstances are you permitted to charge a higher price for a food item or meal which you did not offer in the seven-day period than the highest price at which you offered a food item or meal under the same class during the seven-day period, except that if, during the thirty-day period immediately prior to April 4, 1943, you served a food item or meal at a price higher than the highest price charged for food items or meals in the same class during the aforesaid seven-day period, then you may continue to sell that same food item or meal at the higher price. In any such case, your records, as set forth in section 11 herein, must include the menu or information showing the previous offering of such food item or meal at the higher price. The restriction of this section shall not apply to seasonal dessert specialties as specified in section 4, paragraph (b), Class 25.

*Example.* If, during the seven-day period, your highest price for a weekday dinner was \$1.25, in general, that is the highest price you may charge for any weekday dinner. If, however, you served a chicken dinner at \$1.50 on any weekday within 30 days prior to April 4, 1943, then you may continue to serve the same chicken dinner at \$1.50 even though that is a higher price than any price charged for the same class during the seven-day period. But you may not add a new meal not served during the thirty-day period at a price in excess of \$1.25. Observe the requirement that a supporting menu (or price list) be made available to justify such exception.

**SEC. 6. Substitution of food items in meals.** If you have already determined your ceiling price for a meal, you may substitute for any food item other than the entree (or main dish) in that meal, any other food item of the same class without refiguring your ceiling price,

provided the new food item costs you approximately as much and offer customers the same value as the food item which it replaces. A meal becomes a "new" meal whenever the entree (or main dish) is changed or a new food item is substituted which costs you less or offers your customers lower value than the food item which it replaces, and you must therefore determine its ceiling price in accordance with the rules established by sections 2 and 3.

**Sec. 7. Prohibition against discontinuing meals at certain prices.** You must not now discontinue offering meals or food items at prices comparable to those charged by you in the seven-day period if by your doing so your customers would actually have to pay more than they did in the seven-day base period. You will be in violation of this regulation unless:

(a) You continue to offer meals and food items at different prices representative of the range of prices at which you offered meals and food items of the same class during the seven-day period, and unless

(b) You continue to offer on week days at least as many different meals and food items at or below the lowest price charged by you for meals or food items of the same class on any week day that you select in the seven-day period, as you did on that day.

*Example.* Thus, you may select any week day in the seven-day base period as the base day for week day meals and food items. If you select Friday, April 9, 1943, to determine the lowest price and the number of week-day meals and food items offered at that price, and if on that day you offered six week-day dinners, of which two were priced at 85 cents and one each at 90 cents, \$1.00, \$1.10, \$1.15, you must continue to offer two week-day dinners at 85 cents.

(c) You continue to offer on Sundays and legal holidays at least as many different meals and food items at or below the lowest price charged by you for meals and food items of the same class on Sunday, April 4, 1943, as you did on that day.

**Sec. 8. Evasion.** (a) You must not evade the provisions of this regulation by any scheme or device, including:

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price so as to maintain the raw food cost ratio at least equal to such ratio prior to the deterioration or reduction.

(2) Withdrawing the offer, or increasing the price of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal.

(3) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking, or other special charges, or making such charges when they were not in effect in the seven-day period.

(4) Requiring as a condition of sale of an item or meal the purchase of other items or meals.

(5) Reducing the selection of meals offered at table d'hôte prices when the food items which you customarily offered in such meals are being offered at a la carte prices which, when added together,

total more than the table d'hôte price for the complete meal, or give your customers less value for their money.

(b) You will not be considered evading the provisions of this regulation, however, if you do any of the following things, even though you did not do any of those things during the seven-day period:

(1) You may limit your customer to one pat of butter per meal; and when necessitated by the restrictions of the rationing program, you may vary the size of such pats of butter. In such case, however, you shall adjust the price of such servings of butter, whenever a separate charge is made therefor in direct proportion to the change in size of serving. The resulting figure, if it contains a fraction of a cent, shall be adjusted to the next lower cent if the fraction is less than one-half, and to the next higher cent if the fraction is one-half or greater.

(2) You may reduce the quantity or eliminate altogether ketchup, chili sauce, and any other condiment which is rationed.

(3) You may reduce the amount of sugar served according to your available supply.

(c) You must not, however, make the curtailment authorized in the foregoing subparagraphs and furnish these items at an additional charge. For example, if during the seven-day period you furnished ketchup, you may not discontinue furnishing this item free and at the same time offer to furnish it for an additional charge.

**Sec. 9. Rules for new proprietors and new establishments.** (a) If you acquire another's business subsequent to the effective date of this regulation and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor. Prior to the commencement of business, however, you may apply to the Louisville District Office of the Office of Price Administration for permission to price under paragraph (b) of this section. If such permission is granted, it may be subject to such conditions as the Office of Price Administration deems necessary.

(b) If you open an eating or drinking place after the seven-day period, you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If you operate a concession in conjunction with a public event and were not in operation during the base period, you shall establish your prices in line with a similar type of eating or drinking place operating during the time of the base period. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the prices of food and drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 11 and the posting requirements of section 12 immediately upon the opening of your place.

(c) *Changing type of service.* If you operated an eating or drinking establishment in the same establishment where you operated an eating or drink-

ing place during the period April 4 to April 10, but changed your type of operation, you shall apply to the Louisville District Office of the Office of Price Administration for your proper maximum prices.

(d) *Seasonal eating and drinking establishments.* If you are the proprietor of a seasonal eating or drinking establishment, you must figure your ceiling prices as follows:

(1) If your establishment was in operation during the base period from April 4-10, 1943, use the rules set forth in sections 3, 4, and 5 of this regulation.

(2) If your establishment was not in operation during the base period from April 4 to April 10, but another establishment of the same type and within reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the provisions of section 9, paragraphs (a) and (b) herein.

(3) If you cannot price under subparagraphs (1) and (2) herein, and your establishment is not yet in operation, you shall apply for approval of maximum prices to the Louisville District Office of the Office of Price Administration. Your application must be filed at least ten days prior to the date on which you plan to commence operations and must include the following information:

(i) Your name and address and address of your establishment.

(ii) A brief description of your business and the manner of operation.

(iii) A list showing the prices you charged during the previous season, as well as the prices you propose to charge during the present or coming season, differentiating between week-day, and Sunday, and holiday prices.

(iv) The date on which you plan to commence operations.

(v) The names of two establishments similar to yours in your vicinity.

You may then charge the prices listed if they are not disapproved by the Office of Price Administration prior to the date specified for the commencement of operations. The Office of Price Administration, may, at any time, after proper investigation and hearing, establish or alter such maximum prices for your business as it deems proper and equitable.

(4) If your establishment is already in operation and you cannot price under subparagraphs (1) and (2) herein, you shall, within ten days of the effective date of this order, file application with the Louisville District Office of the Office of Price Administration for approval of the prices which you are presently charging. Such application shall include the same information as set forth for applications under subparagraph (3) herein. Such listed prices shall be your maximum prices, but shall be subject to modification or adjustment at any time by the Office of Price Administration.

**Sec. 10. Taxes.** If in the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or any increase in the amount of a previous tax on the sale of food or drink or

on the business of selling food or drink, if the tax is measured by the number or price of items or meals.

**Sec. 11. Records—(a) Filing of menus.** General Order No. 50 required you to file with your War Price and Rationing Board on or before May 1, 1943, a signed copy of each menu or list of your prices in effect during the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943. If you have not already filed, you must do so immediately. Failure to do so will also constitute a violation of this regulation.

**(b) Filing by proprietors not in operation during the seven-day period.** The proprietor of an eating or drinking place which was not open during the seven-day period (including newly opened places) shall file menus or a price list in accordance with paragraph (a) above, except that, (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

**(c) Records of the seven-day period.** You must make available for examination by any person during ordinary business hours, a copy of each menu used by you in the seven-day period from April 4-10, 1943, or, if you are a new proprietor, in the seven-day period referred to in paragraph (b) above. If you did not use menus, or if your menus were incomplete, you must make available for such examination a list of the highest prices you charged in such seven-day period.

**(d) Customary records.** You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

**(e) Future records.** Beginning with the effective date of this regulation, you must keep, for examination by the Office of Price Administration, two copies of each menu used by you each day. If you do not use menus, you must prepare, in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as or less than prices you previously recorded for the same items or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for those places at a central office or the principal place of business within the city.

**Sec. 12. Posting.** (a) If you made menus available to customers in the seven-day period April 4 to April 10, inclusive, you shall continue to make them available. All menus shall include prices for meals and food items offered.

**(b) Within one week after the effective date of this order:**

(1) Your menus must contain in clear and legible printing or writing the following statement:

All prices listed are at or below our ceiling price, which, by OPA regulation, are the highest prices we charged for the same item or meal from April 4 to April 10, 1943. Our

records of prices for such period are available for your inspection.

**(c) If you did not use menus during the April 4-10 period, you may either (1) institute the use of menus, abiding by the foregoing requirements, or (2) you must post a price list including prices for all meals and food items offered, near the cashier's desk, if any, or in such other location of your establishment that it may be easily seen and read by customers at the time of purchase. Such price list shall conform to the requirements of paragraph (b) above.**

**Sec. 13. Operation of several places.** If you own or operate more than one eating and drinking place, you must do everything required by this regulation for each place separately.

**Sec. 14. Relation to other maximum price regulations.** The provisions of this regulation shall not apply to any sale for which a maximum price is established by any other regulation, including the General Maximum Price Regulation, now or hereafter issued by the Office of Price Administration.

**Sec. 15. Definitions and explanations.**

**(a) "Person"** means individual, corporation, partnership, association, or any organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, any other government, or any of its political subdivisions, and any agency of the foregoing.

**(b) "Meal"** means a combination of food items sold at a single price. Examples of meals are a five-course dinner, a club breakfast, and a blue-plate special. Two or more kinds of food which are prepared or served to be eaten together as one dish are not a "meal." Examples of such dishes are: ham and eggs, bread and butter, apple pie and cheese.

**(c) "Offered"** means offered for sale and includes the listing or posting of prices for items and meals even though the items and meals so offered were not actually on hand to be sold.

**(d) "Food item"** means an article or portion of food (including nonalcoholic and alcoholic mixed beverages) sold or served by an eating or drinking place for consumption in or about the place or to be taken out for eating or drinking without change in form or additional preparation. It includes two or more kinds of food which are prepared or served to be eaten together as one dish, such as ham and eggs, bread and butter, apple pie and cheese. Food items, otherwise identical, are not the same for the purpose of establishing maximum prices under sections 2 and 3, when they are items in different classes. (See section 4 (b) for "classes of food items.") For example, lamb chops offered a la carte for dinner or lunch are in Class 13, while if offered for breakfast they are in Class 4.

**(e) "Eating and drinking place"** shall include any place, establishment or location, whether temporary or permanent, from which any food item or meal is sold, except those which are specifically exempted in section 17 hereof. It shall include by way of example, but not by way of limitation, such movable places where food is dispensed as field kitchens, lunch wagons, "Hot Dog" carts, et cetera.

**(f) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 and in the General Maximum Price Regulation, issued by the Office of Price Administration, shall apply to other terms used herein.**

**Sec. 16. Enforcement.** Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

**Sec. 17. Exemptions.** Sales by the following eating or drinking places are specifically exempted from the provisions of this regulation:

**(a) Eating and drinking places operated in connection with special church, temple, synagogue, Sunday school, or other religious occasions.**

**(b) Eating and drinking places located on board common carriers (when operated as such), including railroad dining cars, club, bar and buffet cars, and peddlers aboard railroad cars traveling from station to station.**

**(c) Hospitals, except for food items and meals served to persons other than patients, when a separate charge is made for such food items and meals.**

**(d) Eating and drinking places operated by any school, college or university which is a non-profit institution (that is, where no part of the net earnings inures to the benefit of any private shareholder or individual), which sells food items or meals on a non-profit or cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to students, faculty members and employees of such institutions. For purposes of this paragraph, persons receiving instruction on the premises of such institution by arrangement with the War Department or the Department of the Navy, shall be considered students.**

**Sec. 18. Special orders.** The provisions of this regulation to the contrary notwithstanding, the Office of Price Administration may from time to time issue special orders providing for the reduction of the maximum price of any food item or items or meal or meals sold or offered for sale by any seller or sellers when, in the judgment of the District Director, such action is necessary or desirable to prevent inflation, to stabilize prices affecting the cost of living, or to carry out the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

**Sec. 19. Adjustments.** (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The establishment will be forced to discontinue operations unless it is granted an adjustment of the maximum prices established by this regulation.

(2) Such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distance, hours

of service, selection of meals or food items offered, capacity, or transportation.

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much or more than the proposed adjusted prices.

If you are the proprietor of an eating establishment which satisfies the requirements specified above, you may apply for an adjustment of your maximum prices by submitting to the Louisville District Office of the Office of Price Administration an application in duplicate. The application should contain the following information:

- (i) Your name and address.
- (ii) A description of your eating establishment, including the type of service rendered, such as cafeteria, table service, et cetera; classes of meals offered, such as breakfast, lunch and dinner; number of persons served per day during the most recent thirty-day period (in counting the number of persons served, anyone who was served more than once is to be counted separately for each occasion he was served); and such other information that may be useful in classifying your establishment.
- (iii) The reasons why your customers will be seriously inconvenienced if you discontinue operations.
- (iv) The names and addresses of the three nearest eating places of the same type as yours.
- (v) A list showing your present maximum prices and requested adjusted prices.
- (vi) A profit and loss statement covering your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

Applications for adjustment under this section may be acted upon by the District Director of the Louisville District Office.

**Sec. 20: Amendments.** You may petition for an amendment of any provision of this regulation (including a petition pursuant to Supplementary Order No. 28) by proceeding in accordance with Revised Procedural Regulation No. 1, except that the petition shall be filed with and acted upon by the District Director.

**Sec. 21. Licensing.** The provisions of Licensing Order No. 1 shall apply to every person making sales subject to this regulation. Licensing Order No. 1 provides, in brief, that a license is required of all persons selling under price control. The license is automatically granted and may be suspended for violation of any applicable maximum price regulation. Any person whose license is suspended must cease selling during the period of such suspension.

**Sec. 22. Revocation.** This regulation may be modified, amended, corrected, or revoked at any time by the Office of Price Administration.

This regulation shall become effective February 1, 1944.

**NOTE:** The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(b) *Resales by the Metals Reserve Company to brass or bronze valve manufacturers.* The maximum price for the resale by the Metals Reserve Company to any brass or bronze valve manufacturer for any new surplus brass or bronze valve purchased by it pursuant to paragraph (a) shall be the manufacturer's net price to his customer for that brass or bronze valve according to the applicable price regulation, schedule, or order, issued by the Office of Price Administration, covering such valve at the time of the Metals Reserve Company's sale to the brass or bronze valve manufacturer.

(c) *Charges for retesting by manufacturers.* The maximum price that may be charged by a manufacturer to the Metals Reserve Company for testing, handling, and re-packaging of any new surplus brass or bronze valve purchased by the manufacturer pursuant to paragraph (b) shall not exceed 10 per cent of the manufacturer's net price to his customer for that brass or bronze valve according to the applicable price regulation, schedule, or order, issued by the Office of Price Administration, covering such valve at the time of the Metals Reserve Company's sale to the brass or bronze valve manufacturer.

(d) *Transportation.* On all sales made in pursuance of this Order No. 28,

(2) "Consumer-holder" means any owner of a new surplus brass or bronze valve who acquired such brass or bronze valve for his own use and not for resale.

(3) "Shipment cost" means the net price actually paid by the consumer-holder (after deducting all discounts or allowances of which the consumer-holder was beneficiary and adding any transportation or delivery charges actually paid by the consumer-holder), but not exceeding the maximum price established by the applicable regulation, schedule, or order issued by the Office of Price Administration for a delivery to the consumer-holder, plus the actual cost, but not exceeding 5 percent of the net price, for necessary re-packaging for shipment, provided such packaging is done properly and in accordance with industry standards.

(4) "Manufacturer" means any person operating an establishment who produces brass or bronze valves or who has such brass or bronze valves produced for him for resale under his own trade name, including any subsidiary or affiliate, commission salesman, or other agency of such person.

No such bank shall hold more than \$100,000 (issue price) of Series F and Series G Savings Bonds (Series 1944), combined.

II. *Description of bonds.* 1. The bonds will be dated February 1, 1944, and will bear interest from that date at the rate of 2½ percent per annum, payable on a semiannual basis on September 15, 1944, and thereafter on March 15 and September 15 in each year until the principal amount becomes payable. They will mature March 15, 1970, but may be redeemed at the option of the United States on and after March 15, 1965, in whole or in part, at par and accrued interest, on any interest day or days, on 4 months' notice of redemption given in such manner as the Secretary of the Treasury shall prescribe. From the date of redemption designated in any such notice, interest on the bonds called for redemption shall cease.

2. The income derived from the bonds shall be subject to all Federal taxes, now or hereafter imposed. The bonds shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the

Registered bonds submitted for redemption hereunder must be duly assigned to "The Secretary of the Treasury for redemption, the proceeds to be paid to the Collector of Internal Revenue at ----- for credit on Federal estate taxes due from estate of -----." Owing to the periodic closing of the transfer books and the impossibility of stopping payment of interest to the registered owner during the closed period, registered bonds received after the closing of the books for payment during such closed period will be paid only at par with a deduction of interest from the date of payment to the next interest payment date;<sup>2</sup> bonds received during the closed period for payment at a date after the books reopen will be paid at par plus accrued interest from the reopening of the books to the date of payment. the last day of the closed period will be forwarded to the owner in due course. All bonds submitted must be accompanied by Form PD 1782,<sup>3</sup> properly completed, signed and sworn to, and by a certificate of the appointment of the personal representatives, under seal of the court, dated not more than six months prior to the submission of the bonds, which shall show that at the date thereof the appointment was still in force and effect. Upon payment of the bonds appropriate memorandum receipts will be forwarded to the representatives, which will be followed in due course by formal receipt from the Collector of Internal Revenue.

6. Except as provided in the preceding paragraphs, the bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Subscribers are requested not to trade in the securities allotted hereunder until after February 15, 1944. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Others than banking institutions will not be permitted to enter subscriptions except for their own account. Subscriptions must be accompanied by payment in full for the amount of bonds applied for.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of bonds applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, and to the limitations on commercial bank subscriptions prescribed in Section I of this circular, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par and accrued interest, if any, for bonds allotted hereunder must be made on or before February 1, 1944, or on later allotment. One day's accrued interest is \$0.069 per \$1,000. Any qualified depositor will be permitted to make payment by credit for bonds allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its District.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payments for bonds allotted, to make delivery of

bonds on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

I. *Offering of bonds.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par and accrued interest, from the people of the United States for bonds of the United States, designated 2½ percent Treasury Bonds of 1956-59. The amount of the offering is not specifically limited.

2. These bonds will not be available for subscription, for their own account, by commercial banks, which are defined for this purpose as banks accepting demand deposits, except as follows: a commercial bank holding savings deposits as defined in Regulation Q of the Board of Governors of the Federal Reserve System may subscribe to the bonds offered hereunder, to the 2½ percent Treasury Bonds of 1956-70 offered simultaneously herewith under Treasury Department Circular No. 729, and to Series F-1944 and Series G-1944 United States Savings Bonds under Treasury Department Circular No. 654, Second Revision, but the amount of such subscriptions shall not exceed, in the aggregate, 10 percent of the savings deposits as shown on the bank's books as of the date of the most recent call statement required by the supervising authorities prior to the date of subscription for such bonds, or \$200,000, whichever is less. No such bank shall hold more than \$100,000 (issue price) of Series F and Series G Savings Bonds (Series 1944), combined.

II. *Description of bonds.* 1. The bonds will be dated February 1, 1944, and will bear interest from that date at the rate of 2½ percent per annum, payable on a semiannual basis on September 15, 1944, and thereafter on March 15 and September 15 in each year until the principal amount becomes payable. They will mature September 15, 1959, but may be redeemed at the option of the United States on and after September 15, 1956, in whole or in part, at par and accrued interest, on any interest day or days, on 4 months' notice of redemption given in such manner as the Secretary of the Treasury shall prescribe. In case of partial redemption the bonds to be redeemed will be determined by such method as may be prescribed by the Secretary of the Treasury. From the date of redemption designated in any such notice, interest on the bonds called for redemption shall cease.

Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury. Except as provided in Section I of this circular, these bonds may not, before September 15, 1946, be transferred to or be held by commercial banks, which are defined for this purpose as banks accepting demand deposits; however, the bonds may be pledged as collateral for loans, including loans by commercial banks, but any such bank acquiring such bonds before September 15, 1946, because of the failure of such loans to be paid at maturity will be required to dispose of them in the same manner as they dispose of other assets not eligible to be owned by banks.

5. Any bonds issued hereunder which upon the death of the owner constitute part of his estate, will be redeemed at the option of the duly constituted representatives of the deceased owner's estate, at par and accrued interest to date of payment.<sup>1</sup> *Provided:*

(a) That the bonds were actually owned by the decedent at the time of his death; and

(b) That the Secretary of the Treasury be authorized to apply the entire proceeds of redemption to the payment of Federal estate taxes.

Registered bonds submitted for redemption hereunder must be duly assigned to "The Secretary of the Treasury for redemption, the proceeds to be paid to the Collector of Internal Revenue at \_\_\_\_\_ for credit on Federal estate taxes due from estate of \_\_\_\_\_." #### AGREEMENT

This agreement made this 14th day of January, 1944, by and between the participating carriers listed in Exhibits A, B, and C, as shown in Appendix of the Emergency Board's Report, dated September 25, 1943, and the three railroad labor organizations, signatory hereto, acting for the employees shown and described in said exhibits as being represented by them, witnesseth:

SECTION 1. On September 25, 1943, an Emergency Board, appointed May 31, 1943 pursuant to the Railway Labor Act and Executive Orders 9172 and 9299, filed its report with the President of the United States in which was contained the recommendation that the employees covered by said report receive an increase of 32 cents per minimum basic day or 4 cents per hour, to be effective as of April 1, 1943. That recommendation was not disapproved by the Director of the Office of Economic Stabilization and has been put into operation by the carriers parties to this agreement. Said increases have been applied as set forth in Appendix A, attached hereto and made a part hereof, and are hereby ratified by the parties hereto.

SEC. 2. An additional increase of 40 cents per minimum basic day or five cents per hour, effective December 27, 1943, shall be paid as the equivalent of or in lieu of claims for time and half pay for time worked over 40 hours per week and for expenses while away from home; said additional increase to be applied in the manner set forth in Appendix B, attached hereto and made a part hereof, and overtime compensation shall continue to be computed and paid in accordance with the provisions of existing agreements.

(c) If such negotiations do not result in agreement, the matters unsettled will be arbitrated in accordance with the Railway Labor Act, as amended.

provisions of the Railway Labor Act, as amended. The provisions of this section shall not be construed as a restriction on the right of the parties to take action with respect to change of the basic rates of pay established by application of the increases in rates of pay provided for in this agreement, or to amend existing rules, or to propose new rules not connected with the three subjects above referred to in this section, in accordance with the procedures of the Railway Labor Act, as amended.

## Solid Fuels Administration.

## DEFICIENCY IN STOCK IN DESIGNATED NORTHEASTERN STATES

## NOTICE TO PRODUCERS IN DISTRICT NO. 3

The necessity for shipping adequate supplies of bituminous coal to areas normally served by the Great Lakes, and to areas experiencing shortages in supplies of solid fuels has resulted in deficient stocks of bituminous coal to meet the requirements of retail dealers who supply household consumers and others with coal in the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, and District of Columbia. In order to meet the present emergency in these states and to avoid hardship and suffering caused by lack of sufficient fuel, the following direction to producers in District No. 3, a district which normally serves these states, is issued pursuant to Executive Order No. 9332, issued by the President on April 19, 1943 (8 F.R. 5355), and Solid Fuels Administration for War Regulation No. 1 (8 F.R. 5632):

Each producer in District No. 3 (as described in the Annex to the Bituminous Coal Act of 1937) is hereby directed to ship on the first two operating days of the week of January 17, 1944, from each of his mines to his all-rail retail dealers in the above-mentioned states from whom he now has orders the entire production of all sizes covered by such orders. Any producer who does not have sufficient orders from retail dealers in the above-mentioned states to cover his entire production of domestic sizes during such period shall immediately communicate by telephone or telegraph with Mr. Allan Burk, Solid Fuels Administration for War, Department of the Interior, Washington, D. C., for directions concerning the shipment of such excess tonnage. (Mr. Burk's telephone number is Republic 1820, Extension 5191. His room number is 3343, New Interior Building.)

Each such producer shall notify his retail dealer customers of these directions and advise him that shipments are made pursuant to Solid Fuels Administration for War directions.

Each such producer shall report in writing on or before January 24, 1944, to Mr. Burk, the name and location of each customer to whom coal is shipped in accordance with these directions and the tonnage shipped to each customer. In lieu of such report, any producer may

file with Mr. Burk a copy of each invoice covering the tonnage shipped in accordance with these directions. These directions take precedence over, but shall not otherwise alter, requirements of all other regulations, orders, or directions.

(E.O. 9332, 8 F.R. 5355, E.O. 9125, 7 F.R. 2719; sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176)

NOTE: The reporting requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 14th day of January 1944.

## FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6946]

### RATES AND CHARGES BETWEEN U. S. AND POINTS IN WEST INDIES AND CENTRAL AND SOUTH AMERICA

#### ORDER DENYING MOTION AND CONTINUING HEARING

In the matter of the investigation of the rates and charges applicable to communications between various points in the United States and various points in the West Indies, Central America, and South America. (T-29)

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 11th day of January 1944;

The Commission, having under consideration its order of December 28, 1943 herein, directing a further hearing with respect to the matter of rates and charges, and related practices, classifica-

tions, and regulations, for and in connection with telegraph communication service between the United States and Colombia, and having also under consideration a motion filed herein on January 5, 1944 by R. C. A. Communications, Inc., requesting a specification as to the respects in which its tariff schedules for telegraph service from Colombia to the United States are unlawful, or rescinding the order of December 28, 1943, herein, insofar as it has reference to its tariff schedules; and an opposition to said motion and a petition for enlargement of the issues, filed herein on January 10, 1944 by All America Cables and Radio, Inc.; and

It appearing that R. C. A. Communications, Inc., may have effected arrangements whereby no other United States carrier can charge rates as low as those being charged by R. C. A. Communications, Inc., for telegraph communication service northbound to the United States from Colombia;

It is ordered, That the above motion of R. C. A. Communications, Inc., be, and it is hereby, denied;

It is further ordered, That, without limiting the scope of the proceeding, the hearing shall also include the question of whether R. C. A. Communications, Inc. has entered into, maintained, or operated under any contract, agreement, understanding, or arrangement, written or oral, express or implied, which results in an undue preference to R. C. A. Communications, Inc., or an undue prejudice to other United States carriers in the rendition of communication service between the United States and Colombia, or which tends to create a monopoly of such communication service, contrary to the public interest, convenience or necessity; and, if any such situation exists, whether an appropriate modification of the radio station licenses of R. C. A. Communications, Inc. should be made.

It is further ordered, That the hearing heretofore directed to be held herein on the 26th day of January, 1944 be, and it is hereby, continued until the 9th day of February 1944, to begin at 10:00 a. m. at the offices of the Commission in Washington, D. C.

## NEWSPAPER OWNERSHIP OF RADIO STATIONS

### NOTICE OF DISMISSAL OF PROCEEDING

The Commission on January 13, 1944, closed the record and dismissed the proceeding instituted pursuant to Orders 79 (6 F.R. 1580) and 79A (6 F.R. 3302) relating to newspaper ownership of radio stations.

The Commission has concluded, in the light of the record in this proceeding and of the grave legal and policy questions involved, not to adopt any general rule with respect to newspaper ownership of radio stations.

A summary of the evidence in the proceeding is being forwarded to the appro-

private committees of the Senate and House of Representatives in order to inform them of the facts developed by the investigation and for any consideration which they may desire to give the matter.

Aside from the specific question of common ownership of newspapers and radio stations, the Commission recognizes the serious problem involved in the broader field of the control of the media of mass communications and the importance of avoiding monopoly of the avenues of communicating fact and opinion to the public. All the Commissioners agree to the general principle that diversification of control of such media is desirable. The Commission does not desire to discourage legally qualified persons from applying for licenses, but does desire to encourage the maximum number of qualified persons to enter the field of mass communications, and to permit them to use all modern inventions and improvements in the art to insure good public service.

In the processing of individual applications for licenses, the Commission will inquire into and in its decisions give expression to "public interest" considerations. The Commission does not feel that it should deny a license merely because the applicant is engaged or interested in a particular type of business. However, it does not intend in granting licenses in the public interest to permit concentration of control in the hands of the few to the exclusion of the many who may be equally well qualified to render such public service as is required of a licensee.

By the Commission.

## FEDERAL POWER COMMISSION.

[Docket IT-5829]

### ARKANSAS POWER & LIGHT COMPANY

#### ORDER FIXING DATE OF HEARING

JANUARY 13, 1944.

It appearing to the Commission that:

(a) On June 3, 1940, Arkansas Power & Light Company (hereinafter sometimes referred to as "Company") filed its purported reclassification and original cost studies pursuant to Electric Plant Accounts Instruction 2-D of the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees, effective January 1, 1937, and the Commission's order of May 11, 1937, pertaining thereto;

(b) The staff of this Commission, in collaboration with the staff of the Department of Public Utilities of Arkansas, made a field examination of the Company's studies and submitted a report to this Commission covering such examination entitled "Arkansas Power & Light Company, Pine Bluff, Arkansas, Report on the Reclassification and Original Cost Studies of Electric Plant as at January 1, 1937";

(c) The said report was served on the Company, together with an order adopted on June 15, 1943, requiring the Company to show cause, under oath, if any there be, why the Commission should not by order find, determine and direct that the Company comply with the recommendations contained in the staff report;

(d) The report proposed that the Company classify \$16,610,156.85 in Account 107, Electric Plant Adjustments; \$1,108,440.24 in Account 100.5, Electric Plant Acquisition Adjustments; dispose of \$2,402,515.42 of the amount in Account 107, as set out on page 33 of the staff report; and submit plans for the disposition of the remainder of \$14,207,681.43 in Account 107 and of the \$1,108,440.24 in Account 100.5;

(e) The report also proposed that the Company classify \$45,551,920.00 in Account 100.6, Electric Plant in Process of Reclassification, and \$2,293,567.58 in various Plant in Process of Reclassification Accounts within Account 108, Other Utility Plants, and that the Company prepare and submit to this Commission revised reclassification and Original Cost Studies respecting these amounts in conformity with the requirements of this Commission's Uniform System of Accounts and its order of May 11, 1937, pertaining thereto;

(f) On September 18, 1943, the Company filed its response to the order of June 15, 1943, in which the Company has in effect proposed to classify \$7,920,276.85 of its Electric Plant as of December 31, 1936, in Account 107, Electric Plant Adjustments, and \$10,300,628.47 of its Electric Plant in Account 100.5, Electric Plant Acquisition Adjustments, and Plant Acquisition Adjustments within Account 108, Other Utility Plant; such foregoing amounts include approximately \$1,666,652.22 of adjustments classified by the staff in Account 100.6, Electric Plant in Process of Reclassification, pending further study;

(g) Thereafter conferences were held between representatives of the Company, this Commission, and the Department of Public Utilities of Arkansas, as a result of which the issues outlined by the order of June 15, 1943, and the response of the Company thereto, may be substantially narrowed, but said conferences failed to produce complete agreement on such issues.

The Commission finds that:

It is appropriate, to carry out the provisions of the Federal Power Act, that a public hearing be held in this matter.

The Commission orders that:

(a) A public hearing be held, commencing on February 16, 1944, at 9:45 a. m. (c. w. t.) in Little Rock, Arkansas, at a place to be hereafter designated, for the purpose of determining the issues raised by the order of June 15, 1943, and the Company's response thereto;

(b) In accordance with the provisions of the Federal Power Act; the burden of proof with respect to the issues shall be upon Arkansas Power & Light Company;

(c) At said hearing, Arkansas submit plans for the disposition of any and all amounts proposed for reclassification in Account 100.5, Electric Plant Acquisition

Adjustments, and Account 107, Electric Plant Adjustments;

(d) The Department of Public Utilities of Arkansas may participate in the hearing as provided in Part 39, § 39.4, of this Commission's Rules of Practice and Regulations prescribed pursuant to the provisions of the Federal Power Act.

By the Commission.

## FOREIGN ECONOMIC ADMINISTRATION.

[Case No. 26]

SIGFRIED OLSEN SHIPPING CO.

## ORDER FOR THE DENIAL OF LICENSING PRIVILEGES

In the matter of Sigfried Olsen Shipping Company, One Drumm Street, San Francisco, California.

Pursuant to Part 807 of the regulations, adopted under section 6 of the Act of July 2, 1940, as amended, the Trade Intelligence Division of the Office of Exports, Office of Economic Warfare (now Trade Intelligence Division of the Requirements and Supply Branch, Foreign Economic Administration) charged the respondent herein with the violation of section 6 of the Act of July 2, 1941, as amended, and the regulations adopted pursuant thereto. After due notice the respondent requested an oral hearing in accordance with § 807.7 of said regulations. The matter came on for oral hearing before Kelly Kash, Compliance Commissioner for the Administration. Respondent appeared and was represented by counsel.

The Compliance Commissioner received the evidence presented and after due consideration of the record on the 11th day of January 1944 filed his findings of fact and recommendation in this matter. Said findings show that Sigfried Olsen Shipping Company, One Drumm Street, San Francisco, California, is and was on the dates herein mentioned, a trade name adopted by Sigfried Olsen, under which name he has been carrying on a shipping business with his principal office at the above address; that on or about February 21, 1943, respondent caused to be loaded and shipped on the S. S. *Igor* 5,000 sacks of Portland Cement under Shipper's Export Declaration No. 28719 dated February 5, 1943, naming R. W. Hebard and Company, Balboa, Canal Zone, consignee; that said 5,000 sacks of cement were the subject of much correspondence between respondent and one N. P. Severin Company as a result of which Severin advised that the 5,000 sacks would be of no use to them but notwithstanding cement was loaded on board the ship which sailed on or about February 20, 1943; that the bill of lading for said shipment apparently dated February 18, 1943, refers to Export Declaration 28719 with consignee shown as "Order of Shipper", notice to be addressed to R. W. Hebard Company, Balboa, Canal Zone; that at the time the cement was in transit advice was given respondent that said Hebard Company was not interested in the purchase of additional cement; that no freight space application had been submitted for this shipment; that while this shipment was in transit respondent, not having received advice from Severin Company as to its desire to accept the shipment, undertook to arrange delivery to R. W. Hebard Company; that upon refusal of Hebard Company to accept delivery respondent changed the "Notify Party" on the bill of lading from Hebard to Almacenes Martinez, Republic of Panama, from whom orders had been received in

October 1942 and for whom freight space applications had been submitted for other shipments and approved on March 17, 1943; that respondent, on or about April 1, 1943, shipped 150 bags of soda ash to one Christian I. Hayer, Panama, Republic of Panama, pursuant to freight space and License Number K-190766 wherein it was stated that respondent was in possession of a bona fide order from the proposed consignee; that an order and letter of credit had been sent by the consignee to respondent but that prior to shipment said letter of credit was withdrawn and that shipment was refused by Hayer and subsequently placed in storage in Panama; that respondent filed or caused to be filed an application for license and freight space, Form BEW 166, No. K-190767, for the exportation of 100 drums of caustic soda to Christian I. Hayer, Panama, Republic of Panama; that previous orders had been given by this consignee and letter of credit established, but that said letter of credit was withdrawn although there had not been any final and effective withdrawal of the order; that one Ricardo A. Miro under date of January 7, 1943, advised respondent that if the orders for the 150 bags of soda ash and 100 drums of caustic soda were not shipped before the expiration of the extended credits, he would consider the orders cancelled; that the application for and granting of license K-190767 shows that the orders for this commodity were not effectively cancelled; that much correspondence between respondent's San Francisco and Balboa offices and proposed purchasers regarding shipments referred to herein indicate cancellation of the orders, though the proposed purchasers and respondent completed certain transactions by delivery of portions of the commodities referred to, and with final approval of the Administration; that the attitude of respondent is shown by a letter dated February 12, 1943 from Sigfried Olsen to Mr. Paul P. Harving of New York wherein an attempt is made to explain his "unorthodox methods of procedure"; that although respondent refers to the transaction respecting the 5,000 bags of cement as being "unorthodox", the fact that the shipment was made without disclosing at the start the true name of the consignee, and the changing the name of the consignee while the shipment was en route, were not only "unorthodox" acts, but were violations of the export control laws and regulations; that while the other transactions herein referred to do not indicate the same measure of lack of respect for the export control laws and regulations, they do show a disposition on the part of respondent to disregard the regulations and act independently of their requirements. The Commissioner has recommended that the suspension of licensing privileges from the date of the charging letter to the date of the filing of his recommendations be deemed sufficient disciplinary action against respondent.

The undersigned having considered the findings and recommendations of the Compliance Commissioner has determined that the Findings of Fact are amply supported by the evidence. How-

ever, the undersigned is unable to adopt, without modification, the recommendation made by the Compliance Commissioner concerning the disciplinary action which should be taken. Not unmindful of the considerations which the Compliance Commissioner recites in mitigation of any proper penalty, I believe that the nature of the violations are sufficiently serious and demonstrate a wilful or at least a negligent disregard of export control regulations as to require the imposition of a longer suspension than that recommended. The violations in question are those which took place after export control had been long established. Respondent was fully cognizant of those regulations and I cannot read the record as demonstrating anything other than a disregard of the regulations adopted as wartime measures to control American exports. In these circumstances I have determined to modify the recommendation of the Commissioner by ordering a suspension of respondent's licensing privileges until February 29, 1944.

Now, therefore, it is determined and ordered, That the respondent, Sigfried Olsen Shipping Company, and any person, association, or organization acting in its behalf or for its account be and each of them is hereby denied the privilege of obtaining individual, or any other type of export license or release certificate and is denied the use of any general or other type of export license authorizing any exportation whatsoever from the United States until February 29, 1944, and that all presently outstanding export licenses or release certificates issued to said respondent be and the same are hereby revoked.

#### PRIVATE AND CONTRACT CARRIERS COORDINATED OPERATIONS

In order to conserve and providently utilize vital transportation equipment, materials and supplies, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, the following methods and procedure for joint action by private carriers and contract carriers, as well as persons using the services of for-hire carriers, are promulgated and recommended to the Chairman of the War Production Board for approval under section 12, Public Law 603, 77th Congress (56 Stat. L. 357).

1. *Purpose of recommendation.* The purpose of this recommendation is to enable private carriers and contract carriers, as well as persons using the services of for-hire carriers, to cooperate with each other and with the Office of Defense Transportation in respect of the

collection or delivery of property by motor vehicle in such manner as will result in conservation and provident utilization of vital transportation equipment, materials and supplies, will provide for the prompt and continuous movement of necessary traffic, and will otherwise aid in accomplishing the purposes and requirements of General Order ODT 17, as amended (7 F.R. 5678, 7694, 9623; 8 F.R. 8278, 12750, 14582).

2. *Joint action plans.* (a) Any two or more of such carriers or other persons (herein called participants) may enter into a joint action plan designed to accomplish the objectives of this recommendation by any one or more of the following described methods:

(1) Jointly operate collection and delivery vehicles, pool collections or deliveries for customers or patrons in the same neighborhood, collect or deliver orders for each other, or refer persons seeking any product or service to other participants, whenever any such action will reduce mileage operated by collection and delivery vehicles.

(2) Fill orders from each other's supplies of merchandise, for the purpose of reducing mileage of collection and delivery vehicles by making delivery from a point of supply nearer the customer or patron to be served.

(3) Lease or rent collection and delivery vehicles, with or without drivers and helpers, in order to achieve more efficient utilization of such vehicles.

(4) Exchange customers in outlying areas when so doing will result in the conservation or more efficient utilization of collection and delivery vehicles and will be with the customer's express consent.

(5) Adopt one or more of the following operating rules or practices: no collection and delivery vehicle will be started from the premises of a participant earlier than a certain hour, or unless fully loaded, except in emergencies; advance notice, except in emergencies, will be required for collections or deliveries; no orders will be accepted for collection or delivery at a specific time of day; service will not be performed within a given time unless the order therefor is received before a certain hour; before attempting collection or delivery, definite arrangements will be made to assure acceptance of such service by customer or patron; collections and deliveries of property will be made at the same time; minimum quantities, by weight or volume, for collections or deliveries will be prescribed: *Provided*, That no person will be precluded by such rule from receiving needed goods, supplies or services; limitations on frequency of collection or delivery within specific zones or areas will be established: *Provided, however*, That each such rule or practice adopted shall be administered fairly and without unjust discrimination as between consumers.

(6) Appoint one or more of their own number, or any other persons, to act as their individual, common, or joint agents in effecting joint action by any of the above-mentioned methods.

(b) No provision in this recommendation shall be construed to approve or

imply approval of any program, agreement, act, or discussion relating (but not limited) to (1) the fixing of prices or of the terms and conditions for the purchase or sale of any product, service or thing, except for the adjustment of accounts between the participants in respect of the permissible action under this recommendation; (2) the allocation of territorial markets or distributors among participants, or the allocation of products among customers; (3) the establishment by the participants of a joint or common selling agent or instrumentality on behalf of the participants; (4) the exchange or allocation of customers by the participants except as provided in section 2 (a) (4) of this recommendation; (5) the use of any coercion, direct or indirect, to secure participation of any individual, company or group in the permissible action under this recommendation; or (6) boycott by two or more participants of any manufacturer, distributor, consumer, or other person.

(c) Such joint action plans shall be in writing, signed by all participants, and should state: (1) the territory involved; (2) the full legal names and the addresses of all participants; (3) the specific method or methods of joint action to be used; (4) the practical application of these methods to the particular operation of the participants; (5) an estimate and explanation of the conservation to be accomplished; (6) the effect, if any, of the proposed joint action on the maintenance of adequate transportation service; and (7) the name and address of a person to whom communications in respect of the plan may be sent.

(d) Such joint action plans shall be filed with the Office of Defense Transportation through its appropriate District Manager, Division of Motor Transport.

(e) Each such joint action plan will be reviewed by the General Counsel of the Office of Defense Transportation; and if it appears that the plan conforms to the provisions of this recommendation, and that effectuation of such plan will accomplish substantial conservation and more efficient utilization of motor transportation equipment, materials and supplies, consistent with the maintenance of adequate transportation service, he will approve the plan; and thereupon the Office of Defense Transportation will direct those who have agreed, or who shall thereafter agree, to participate in the plan, to put it into effect. True copies of the plan will be transmitted to the Chairman of the War Production Board and the Attorney General.

(f) Other persons engaged in the same business, desiring to participate in the plan, and willing to be bound by the terms thereof, may petition the Office of Defense Transportation for authorization to be included therein, and, upon receiving authorization, shall become participants in the plan.

3. *Records; inspection.* Participants in joint action plans approved under this recommendation each shall prepare and maintain such records, and make such reports, as the Office of Defense Transportation may prescribe subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of

1942. Such records shall be available for examination and inspection at all reasonable times by any accredited representative of the Office of Defense Transportation.

4. *Termination.* This recommendation shall remain in full force and effect until 6 months after the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation may designate, or until any certificate issued in respect of this recommendation shall have been withdrawn by the Chairman of the War Production Board in the manner provided by section 12, Public Law 603, 77th Congress (56 Stat. L. 357).

PETROLEUM AND OTHER LIQUID TRANSPORT  
ADVISORY COMMITTEES  
COORDINATED OPERATIONS

In order to conserve and providently utilize vital transportation equipment, materials and supplies, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, the following provisions for the establishment and functioning of industry transportation advisory committees for petroleum and other liquid products are promulgated and recommended to the Chairman of the War Production Board for approval under section 12, Public Law 603, 77th Congress (56 Stat. L. 357).

1. *Purpose of recommendation.* The purpose of this recommendation is to enable persons who transport petroleum and other liquid products in tank trucks to wholesale and retail distributors and military, private and commercial consumers to cooperate with each other and with the Office of Defense Transportation in the transportation of petroleum and other liquid products in tank trucks in such manner as will result in conservation and provident utilization of tank truck equipment and facilities and as will provide, in so far as possible, for the prompt and continuous movement of available supplies of petroleum and other liquid products to such distributors and consumers.

2. *Petroleum and other liquid transport advisory committees.*—(a) *Appointment.* The Office of Defense Transportation will appoint a National ODT Tank Truck Advisory Committee, which shall be nationally representative of the private and for-hire carriers by tank truck and distributors of petroleum and other liquid products; and, when deemed necessary, will appoint Regional and State ODT Tank Truck Advisory Committees and Regional, State and District Committees on Local Delivery, or Regional or State Joint ODT Tank Truck Advisory Committees, which shall be representa-

tive of the private and for-hire carriers by tank truck and distributors of petroleum and other liquid products within the particular territory.

(b) *Temporary subcommittees.* Any of such committees may appoint a Temporary Subcommittee at any time to investigate and to report to it on any matter within its cognizance. Such temporary subcommittees shall be dissolved upon completion of their particular assignments.

(c) *Functions.* Such committees, within their respective territories, shall confine themselves to collecting and analyzing information, studying and developing plans for the coordination and most effective use of existing domestic facilities for the transportation of petroleum and other liquid products for the prosecution of the war, and making recommendations thereon to the Office of Defense Transportation. They shall not undertake to determine policies in regard thereto for the transportation industry, nor shall they attempt to compel or coerce anyone to comply with any request or order made by public authority. All requests for action on the part of carriers shall be made by the Office of Defense Transportation and not by the committees.

3. *Joint action plans.* (a) Any two or more persons who transport petroleum or other liquid products to wholesale or retail distributors, to private and commercial consumers, or to the armed forces of the United States may enter into a joint action plan designed to accomplish the objectives of this recommendation by any one or more of the following described methods:

(1) Jointly operating delivery vehicles, pooling of deliveries to receivers in the same neighborhood or zone, or delivering orders for the account of each other, whereby mileage of delivery vehicles will be reduced or greater efficiency achieved in the handling of petroleum and other liquid products.

(2) Furnishing trucks, drivers and helpers, and other equipment and employees to assist each other in the operation, inspection, repairing and maintenance of transportation equipment in order to increase operating efficiency.

(3) Filling orders from each other's supplies of petroleum or other liquid products for the purpose of reducing mileage of delivery vehicles by making deliveries from storage facilities nearer the receiver to be served.

(4) Leasing or renting of delivery vehicles, with or without drivers and helpers, in order to achieve more efficient utilization of delivery vehicles in the transportation of petroleum and other liquid products.

(5) Adopting operating rules or practices by which: advance notice, except in emergencies, will be required for delivery; no orders will be accepted for delivery at a specific time of day; before attempting delivery, definite arrangements will be made to assure acceptance of delivery by receiver; minimum quantities for deliveries will be prescribed: *Provided*, That no receiver unable to purchase or receive delivery of the minimum quantity shall be precluded by such rule from receiving

needed supplies of petroleum or other liquid products and no retail outlet shall be precluded by such a rule from maintaining a selection of products capable of meeting public demand; limitations on frequency of delivery or service to specific zones or areas will be established: *Provided, however*, That each such rule or practice adopted shall be administered fairly and without unjust discrimination as between consumers.

(6) Appointing one or more of their own number, or any other persons, to act as their individual, common, or joint agents in effectuating joint action by any of the above-mentioned methods.

All interested persons are referred to said applications and declarations which are on file in the office of this Commission for a statement of the transactions therein proposed which are summarized below:

1. Under a program for the acquisition by Vepco of the properties of VPS, Engineers proposes to acquire from Gengas 782,000 shares of the common stock of VPS, being all of the shares of such stock outstanding, and a claim of Gengas to certain escrow funds in the amount of \$1,165,166.67, for an agreed consideration of not to exceed \$2,500,000, of which \$1,000,000 is immediately payable in cash and an additional amount of not to exceed \$1,500,000 is payable in the event that the earnings of Vepco exceed certain specified amounts.

2. Engineers will surrender the claim so acquired from Gengas to VPS as a contribution to its capital.

3. VPS will thereupon be merged into Vepco pursuant to Virginia law and upon the following terms:

The underwriters will sell such shares to the public at a price not exceeding \$1.50 per share over the price paid to such

stockholders. Any stockholders not assenting to the merger who dissent therefrom within three months after the meeting of stockholders at which the merger is approved, will be entitled to receive cash in such amount as may be obtainable under the appraisal rights existing pursuant to Virginia law.

5. In order to consummate the foregoing exchange Vepco will issue 305,192 shares of \$5 Dividend Preferred Stock. Scrip will be issued in lieu of fractional shares.
